Seeing Beneath The Soil Techniques In Archaeological Prospecting:

Seeing Beneath the Soil Anthony J. Clark,1990 Geophysical and chemical methods can give dramatic pictures of buried archaeological sites and even information on what occurred within them Dr Clark one of its pioneers has now written a survey of the subject as a whole As well as descriptions of the development and present state of the art it includes previously unpublished material and glimpses of future developments that will make this subject even more fundamental to archaeological research A glossary and comprehensive bibliography complete this survey of an important area of practical archaeology

Seeing Beneath the Soil Anthony Clark,1996 Scientific soil prospecting methods can give dramatic pictures of buried archaeological sites and sometimes information on what occurred within them before any earth has ben removed Dr Clark who was one of the earliest to work in this field has written the first general survey of an increasingly important area of practical archaeology The emphasis is on the principles and practical application of the well established techniques of resistivity magnetometry and magnetic susceptibility with shorter sections on emerging and less common techniques such as ground penetrating radar electromagnetic methods and phosphate survey This paperback edition updates and enhances the earlier book adding new material such as the large scale evaluation exercises now required as a precondition of planning consent for major developments
