Phenomenal Consciousness Dimitris Platchias,2014-12-05 How can the fine grained phenomenology of conscious experience arise from neural processes in the brain How does a set of action potentials nerve impulses become like the feeling of pain in one s experience Contemporary neuroscience is teaching us that our mental states correlate with neural processes in the brain However although we know that experience arises from a physical basis we don t have a good explanation of why and how it so arises The problem of how physical processes give rise to experience is called the hard problem of consciousness and it is the contemporary manifestation of the mind body problem This book explains the key concepts that surround the issue as well as the nature of the hard problem and the several approaches to it It gives a comprehensive treatment of the phenomenon incorporating its main metaphysical and epistemic aspects as well as recent empirical findings such as the phenomenon of blindsight change blindness visual form agnosia and optic ataraxia mirror recognition in other primates split brain cases and synaesthesia

Morality and Metaphysics Charles Larmore,2021-06-17 In this book Charles Larmore develops an account of morality freedom and reason that rejects the naturalistic metaphysics shaping much of modern thought Reason Larmore argues is responsiveness to reasons and reasons themselves are essentially normative in character consisting in the way that physical and psychological facts facts about the world of nature count in favor of possibilities of thought and action that we can take up Moral judgments are true or false in virtue of the moral reasons there are We need therefore a more comprehensive metaphysics that recognizes a normative dimension to reality as well Though taking its point of departure in the analysis of moral judgment this book branches widely into related topics such as freedom and the causal order of the world textual interpretation the nature of the self self knowledge and the concept of duties to ourselves
