The Roots of Jewish Consciousness, Volume Two Erich Neumann, 2019-04-24 The Roots of Jewish Consciousness Volume Two Hasidism is the second volume fully annotated of a major previously unpublished two part work by Erich Neumann 1905-1960 It was written between 1940 and 1945 after Neumann then a young philosopher and physician and freshly trained as a disciple of Jung fled Berlin to settle in Tel Aviv He finished this work at the end of World War II Although he never published it he kept it the rest of his life Volume Two Hasidism is devoted to the psychological and spiritual wisdom embodied in Jewish spiritual tradition Relying on Jung's concepts and Buber's Hasidic interpretations Neumann seeks alternatives to the legalism and anti feminine bias that he says have dominated collective Judaism since the Second Temple He argues that modern Jews can develop psychological wholeness through an appropriation of Hasidic legends Talmudic texts and Kabbalistic mysteries including especially the Zohar Exclusively this volume includes a foreword by Moshe Idel An appendix Neumann's four lecture series from the 1940s gives a glimpse of his intended unpublished Part Three These volumes anticipate Neumann's later works including Depth Psychology and a New Ethic The Origins and History of Consciousness and The Great Mother In Volume Two Hasidism his concept of the ego Self axis is developed in clearly psychological terms Four previously unpublished essays appended to Volume Two illustrate Neumann's developmental psychology including his theme of primary and secondary personalization This unique work will appeal to Jungian analysts and psychotherapists in training and in practice historians of psychology Jewish scholars biblical historians teachers of comparative religion as well as academics and students

Civilization in Transition C. G. Jung, 2014-12-18 For this second edition of Civilization in Transition essential corrections have been made in the text and the bibliographical references have been brought up to date This volume contains essays bearing on the contemporary scene and in particular on the relation of the individual to society In the earliest one 1918 Jung advanced the theory that the European conflict was basically a psychological crisis originating in the collective unconscious of individuals He pursued this theory in papers written during the 20s and 30s focusing on the upheaval in Germany and he gave it a much wider application in two major works of his last years DDL The Undiscovered Self concerned with the relation between the individual and a mass society and Flying Saucers on the birth of a myth which Jung regarded as compensating the scientific trends of our technological era An appendix contains documents relating to Jung's association with the International General Medical Society for Psychotherapy

The Roots of Jewish Consciousness, Volume One Erich Neumann, 2019-04-24 The Roots of Jewish Consciousness Volume One Revelation and Apocalypse is the first volume fully annotated of a major previously unpublished two part work by Erich Neumann 1905-1960 It was written between 1934 and 1940 after Neumann then a young philosopher and physician and freshly trained as a disciple of Jung fled Berlin to settle in Tel Aviv He finished the second volume of this work at the end of World War II Although he never published either volume he kept them the rest of his life The challenge of Jewish survival

frames Neumann's work existentially. This survival he insists must be psychological and spiritual as much as physical. In Volume One, *Revelation and Apocalypse*, he argues that modern Jews must relearn what ancient Jews once understood but lost during the Babylonian Exile: that is the individual capacity to meet the sacred directly to receive revelation and to prophesy. Neumann interprets scriptural and intertestamental apocalyptic literature through the lens of Jung's teaching, and his reliance on the work of Jung is supplemented with references to Buber, Rosenzweig, and Auerbach. Including a foreword by Nancy Swift Furlotti and editorial introduction by Ann Conrad Lammers, readers of this volume can hold for the first time the unpublished work of Neumann with useful annotations and insights throughout. These volumes anticipate Neumann's later works including *Depth Psychology* and *A New Ethic: The Origins and History of Consciousness and The Great Mother*. His signature contribution to analytical psychology, the concept of the ego-Self axis, arises indirectly in Volume One, folded into Neumann's theme of the tension between earth and YHWH. This unique work will appeal to Jungian analysts and psychotherapists in training and in practice, historians of psychology, Jewish scholars, biblical historians, teachers of comparative religion, as well as academics and students.

Collected Works of C. G. Jung, Volume 10 C. G. Jung, 2024-03-19
 Essays bearing on the contemporary scene and on the relation of the individual to society, including papers written during the 1920s and 1930s focusing on the upheaval in Germany and two major works of Jung's last years: *The Undiscovered Self* and *Flying Saucers*.

The Symbolic Life C. G. Jung, 2014-12-18
 Originally planned as a brief final volume in the *Collected Works*, *The Symbolic Life* has become the most ample volume in the edition and one of unusual interest. It contains some 160 items spanning sixty years; they include forewords, replies to questionnaires, encyclopedia articles, occasional addresses, and letters on technical subjects. Collection of this material relied on three chief circumstances. After Jung returned from active medical practice, he gave more of his time to writing, and some sixty papers, as well as books, were written after 1950. Second, recent research has brought to light a number of reviews, reports, and articles from the early years of Jung's career. Finally, Jung's files yielded several finished or virtually finished papers that survived in manuscript. Volume 18 includes three longer works: *The Tavistock Lectures* (1936), *Symbols and the Interpretation of Dreams* (1961), and *The Symbolic Life*, the transcript of a seminar given in London in 1939.

Atom and Archetype C. G. Jung, Wolfgang Pauli, 2014-07-21
 In 1932, world-renowned physicist Wolfgang Pauli had already done the work that would win him the 1945 Nobel Prize. He was also suffering after a series of troubling personal events. He was drinking heavily, quarrelling frequently, and experiencing powerful, disturbing dreams. Pauli turned to C. G. Jung for help forging an extraordinary intellectual conjunction, not just between a physicist and a psychologist, but between physics and psychology. As their acquaintance developed, Jung and Pauli discussed the nature of dreams and their relation to reality, finding surprising common ground between depth psychology and quantum physics, and profoundly influencing each other's work. This portrait of an incredible friendship will fascinate readers interested in psychology, science, creativity, and genius.

Benjamin Gary Smith, 1989-09-15
 Walter Benjamin (1896-1940) has been called

by Hannah Arendt the greatest critic of the century While an increasing number of Anglo American literary critics draw upon Benjamin s writings in their own works their colleagues in the philosophical community remain relatively unacquainted with his legacy In the European intellectual world by contrast Benjamin s critical epistemological program his philosophies of history and language and his aesthetics have long since become part of philosophical discourse The present collection of articles many of which were contained in earlier versions in the Winter 1983 special issue of the journal *The Philosophical Forum* initiates the project of establishing Benjamin s importance to philosophy A balance of original work by Benjamin and important commentary on his works this volume includes the crucial chapter from Benjamin s magnum opus *The Arcades Project* his *Program of the Coming Philosophy* and *Central Park* as well as essays by leading scholars including Theodor W Adorno Leo Lowenthal and Rolf Tiedemann that treat single philosophical themes and relate his ideas to those of other thinkers such as Gadamer Goodman and Rosenzweig Gary Smith s introduction to the volume provides an extremely useful and sophisticated entrance for readers unaccustomed to the breadth of Benjamin s philosophical allusions as well as an informative summation of the contents of the volume This book will be of interest to philosophers literary theorists art historians anthropologists and other social scientists

The Dynamics of Delight Peter Frederick Smith, 2003 It is some of the recent branches of science and biomathematics which provide a platform for a theory of aesthetics which transcends the subjective without undermining subjectivity Beauty is not arbitrary there is a logic which informs its infinite variety of manifestations It is not enough just to know what we like the experience of beauty is that much richer when we know why we like it Jacket

The Jung-Kirsch Letters Ann Conrad Lammers, 2016-02-22 This book charts Carl Gustav Jung s 33 year 1928-61 correspondence with James Kirsch adding depth and complexity to the previously published record of the early Jungian movement Kirsch was a German Jewish psychiatrist a first generation follower of Jung who founded Jungian communities in Berlin Tel Aviv London and Los Angeles Their letters tell of heroic survival brilliant creativity and the building of generative institutions but these themes are darkened by personal and collective shadows The Nazi era looms over the first half of the book shaping the story in ways that were fateful not only for Kirsch and his career but also for Jung and his Kirsch trained with Jung and acted as a tutor in Jewish psychology and culture to him In 1934 fearing that anti-Semitism had seized his teacher Kirsch challenged Jung to explain some of his publications for the Nazi dominated Medical Society for Psychotherapy Jung s answer convinced Kirsch of his sincerity and from then on Kirsch defended him fiercely against any allegation of anti-Semitism We also witness Kirsch s lifelong struggle with states of archetypal possession his identification with the interior God image on the one hand

and with unconscious feminine aspects of his psyche on the other These complexes were expressed for Kirsch in physical symptoms and emotional dilemmas and they led him into clinical boundary violations which were costly to his analysands his family and himself The text of these historical documents is translated with great attention to style and accuracy and generous editorial scaffolding gives glimpses into the writers world Four appendices are included two essays by Kirsch a series of letters between Hilde Kirsch and Jung and a brief incisive essay on the Medical Society for Psychotherapy This revised edition includes primary material that was unavailable when the book was first published as well as updated footnotes and minor corrections to the translated letters

The Development of Personality C.G. Jung, 2014-12-18

Though Jung's main researches have centred on the subject of individuation as an adult ideal he has a unique contribution to make to the psychology of childhood Jung repeatedly underlined the importance of the psychology of parents and teachers in a child's development and he emphasized that an unsatisfactory psychological relationship between parents may be an important cause of disorders in childhood He maintained that all real education of children needs teachers who not only know how to learn but who can also develop their own personalities Jung devotes a large part of the book to expounding his views on these important subjects There is also an outline of the theory of child development a delightful snapshot from the life of a girl called Anna and her parents and a stimulating discussion of marriage as a psychological relationship Finally there is a chapter on child development and individuation

The Black Books C. G. Jung, 2020-10-13

Until now the single most important unpublished work by C G Jung The Black Books In 1913 C G Jung started a unique self experiment that he called his confrontation with the unconscious an engagement with his fantasies in a waking state which he charted in a series of notebooks referred to as The Black Books These intimate writings shed light on the further elaboration of Jung's personal cosmology and his attempts to embody insights from his self investigation into his life and personal relationships The Red Book drew on material recorded from 1913 to 1916 but Jung actively kept the notebooks for many more decades Presented in a magnificent seven volume boxed collection featuring a revelatory essay by noted Jung scholar Sonu Shamdasani illuminated by a selection of Jung's vibrant visual works and both translated and facsimile versions of each notebook The Black Books offer a unique portal into Jung's mind and the origins of analytical psychology

Modern Man in Search of a Soul C.G.

Jung, 2014-12-18 Modern Man in Search of a Soul is the perfect introduction to the theories and concepts of one of the most original and influential religious thinkers of the twentieth century Lively and insightful it covers all of his most significant themes including man's need for a God and the mechanics of dream analysis One of his most famous books it perfectly captures the feelings of confusion that many sense today Generation X might be a recent concept but Jung spotted its forerunner over half a century ago For anyone seeking meaning in today's world Modern Man in Search of a Soul is a must
