telling of the past *The Word* Isaac Mozeson,2000 This landmark dictionary proves that English words can be traced back to the universal original language Biblical Hebrew Genesis II supports a Mother Tongue thesis and the Bible also claims that Adam named the animals This may seem difficult to accept but then why do the translations of the following animals names Skunk Gopher Giraffe and Horse actually have corresponding meanings in Biblical Hebrew such as Stinker Digger Neck and Plower The book features overwhelming data suggesting that the roots of all human words are universal and that words have related synonyms and antonyms that must have been intelligently designed perhaps by the designer of life himself The current hypothesis that language evolved from grunting ape men may seem like the flat earth theory after reading this book The 22 000 English Hebrew links provide surprising evidence and open new worlds of understanding once we consider that all of these similar words could not be coincidences *Seeing Justice Done* Paul Friedland,2012-06-14 A history of public executions in France from the medieval spectacle of suffering to the invention of the Revolutionary guillotine up to the last public execution in 1939 Paul Friedland explores why spectacles of public execution were staged as well as why thousands of spectators came to watch them **Seeing Human Rights** Sandra Ristovska,2021-08-03 As video becomes an important tool to expose injustice an examination of how human rights organizations are seeking to professionalize video activism Visual imagery is at the heart of humanitarian and human rights activism and video has become a key tool in these efforts The Saffron Revolution in Myanmar the Green Movement in Iran and Black Lives Matter in the United States have all used video to expose injustice In *Seeing Human Rights* Sandra Ristovska examines how human rights organizations are seeking to professionalize video activism through video production verification standards and training The result she argues is a proxy profession that uses human rights videos to tap into journalism the law and political advocacy Ristovska explains that this proxy profession retains some tactical flexibility in its use of video while giving up on the more radical potential and imaginative scope of video activism as a cultural practice Drawing on detailed analysis of legal cases and videos as well as extensive interviews with staff members of such organizations as Amnesty International Human Rights Watch WITNESS the International Criminal Tribunal for the former Yugoslavia ICTY and the International Criminal Court ICC Ristovska considers the unique affordances of video and examines the unfolding relationships among journalists human rights organizations activists and citizens in global crisis reporting She offers a case study of the visual turn in the law describes advocacy and marketing strategies and argues that the transformation of video activism into a proxy profession privileges institutional and legal spaces over broader constituencies for public good *The Christian remembrancer; or, The Churchman's Biblical, ecclesiastical & literary miscellany*, 1842 **Cassell's Educator for the Young, etc. [Another edition of "The Child's Educator."]** John CASSELL,1865 *Specifications and Drawings of Patents Issued from the United States Patent Office* United States.
