Telecommunications Anton A. Huurdeman,2003-07-31 The first comprehensive history of the Information Age how we got
there and where we are going The exchange of information is essential for both the organization of nature and the social life
of mankind Until recently communication between people was more or less limited by geographic proximity Today thanks to
ongoing innovations in telecommunications we live in an Information Age where distance has ceased to be an obstacle to the
sharing of ideas The Worldwide History of Telecommunications is the first comprehensive history ever written on the subject
covering every aspect of telecommunications from a global perspective In clear easy to understand language the author
presents telecommunications as a uniquely human achievement dependent on the contributions of many ingenious inventors
discoverers physicists and engineers over a period spanning more than two centuries From the crude signaling methods
employed in antiquity all the way to today s digital era The Worldwide History of Telecommunications features complete and
fascinating coverage of the groundbreaking innovations that have served to make telecommunications the largest industry on
earth including Optical telegraphy Electrical telegraphy via wires and cables Telephony and telephone switching Radio
transmission technologies Cryptography Coaxial and optical fiber networks Telex and telefax Multimedia applications Broad
in scope yet clear and logical in its presentation this groundbreaking book will serve as an invaluable resource for anyone
involved or merely curious about the ever evolving field of telecommunications AAP PSP 2003 Award Winner for excellence
