Fighting Techniques of Naval Warfare Iain Dickie, 2009-06-09 An illustrated exploration of how sea battles have been fought throughout history explores key tactics and strategies while surveying how the development of various weapons

impacted naval warfare **Tu sais, mon vieux Jean-Pierre** John Willis, 2017-04-28 Tu sais mon vieux Jean Pierre is inspired by the work of archaeologist Jean Pierre Chrestien 1949 2008 who worked hand in glove with a generation of researchers in helping to unearth unexpected and always interesting aspects of New France Contributions focus first upon the door to New France in the Gulf of St Lawrence Newfoundland and Acadia A second set of essays move further up the St Lawrence and into the heartland of the continent The final section examines aspects of Canadian culture popular art religion and communication The essays share a curiosity for material culture a careful regard for detail and nuance that forms the grain of New France studies and sensitivity to the overall context that is part and parcel of how history proceeds on the local or regional scale Happily we can now dispense with old fashioned and facile generalizations about the allegedly absent bourgeoisie the purportedly deficient commercial ethic of the habitants and the so called underlying military character of the colony and get down the business of understanding real people and their possessions in context Published in French

Waterton, 2024-11-26 This book examines the oceanic presence in life on Earth and the ways that we engage with the oceanic worlds for play pleasure adventure and the pursuit of leisure and escape through tourism and travel The oceanic turn across the social sciences and humanities has produced a still proliferating opus of work that seeks to discover and emphasize oceanic presence in life on Earth This literal and figurative unearthing of blue spaces has encouraged scholars to gaze beyond the lands that have supported much of our experience and knowledge towards the gathering up of a more holistic appreciation of blue planetary life This widening of scholarly attention from land to sea is occurring simultaneously across a range of disciplines and fields including history archaeology anthropology comparative literature public policy cultural studies and geography With an explicit focus on leisure and tourism this edited collection follows a growing appreciation that it is our seemingly inconsequential encounters at play for pleasure and on holidays that are increasingly present and
