Louis I Khan Beyond Time and Style Carter Wiseman, 2007-02-27 The first in depth biographical study of the brilliant but elusive architect who fundamentally redefined twentieth century architecture Now ranked with Frank Lloyd Wright Le Corbusier and Mies van der Rohe Louis I Kahn brought a reverence for history back into modern architecture while translating it into a uniquely contemporary idiom Drawing on more than one hundred interviews with colleagues coworkers clients and family members and illustrated with many previously unpublished photographs this book documents the uniquely American rise of a poor immigrant to the pinnacle of the international architectural world It illuminates the richly diverse personal relationships Kahn had with such clients as Jonas Salk and Paul Mellon and the romantic entanglements that mystified even those closest to him While celebrating the genius of Kahn's art the book provides an invaluable portrait of the man who created it

French Art Deco Jared Goss, 2014-09-30 Art Deco the term conjures up jewels by Van Cleef such as Cubism and Fauvism and a taste for the exotic all of which converged in exceptionally luxurious and innovative objects While the practice of Art Deco ended with the Second World War interest in it has not only endured to the present day but has grown steadily Based on the Metropolitan Museum's renowned collection *French Art Deco* presents more than eighty masterpieces by forty two designers Examples include S e et Mare's furniture from the 1925 Exposition Dufy's Cubist inspired textiles Dunand's lacquered bedroom suite Dupas's monumental glass wall panels from the SS Normandie and Fouquet's spectacular dress ornament in the shape of a Chinese mask Jared Goss's engaging text includes a discussion of each object together with a biography of the designer who created it and is enlivened by generous quotations from writings

of the period The extensive introduction provides historical context and explores the origins and aesthetic of Art Deco With its rich text and sumptuous photographs this is not only one of the rare books on French Art Deco in English but an object d'art in its own right **Journal of the American Institute of Architects** American Institute of Architects,1920 **Hut**

Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism Miles David Samson,2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism's forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism **Louis Kahn's Situated Modernism** Sarah Williams Goldhagen,Sarah Goldhagen Williams,Louis I. Kahn,2001-01-01 She demonstrates instead that Kahn's architecture is grounded in his deeply held modernist political social and artistic ideals which guided him as he sought to rework modernism into a socially transformative architecture appropriate for the postwar world
