Second Language Acquisition and Lifelong Learning Simone E. Pfenninger,Julia Festman,David Singleton,2023-05-05 Language fundamentally defines and distinguishes us as humans as members of society and as individuals As we go through life our relationship with language and with learning shifts and changes but it remains significant This book is an up to date resource for graduate students and researchers in second language L2 acquisition who are interested in language learning across the lifespan The main goal is to survey and evaluate what is known about the linguistic cognition affect associations that occur in L2 learning from birth through senescence passing through the stages of childhood adolescence adulthood and third age the extent to which L2 acquisition may be seen as contributing to healthy and active aging the impact of the development of personalized technology enhanced communicative L2 environments and how these phenomena are to be approached scientifically and methodologically The effects of certain specific variables such as gender socio economic background and bilingualism are also analyzed as we argue that chronological age does not determine the positioning of L2 learners across the lifespan age is part of a complex web of social distinctions such as psychological and individual factors that intersect in the construction of a learner s relative status and opportunities Beyond Her Touch: A Viking Time Travel Romance (Book 1) pdmac,2020-03-09 Imagine finding the love of your life only to lose him 1000 years ago Nordic professor Erik Jonsson lived a life of dull routine predictable consistent and alone That was until Tone Thorgilsdottir showed up in class Awakening long dormant passions Tone captures Erik s heart unleashing a craving and desire he d never felt before A winning Time Travel lottery ticket adds to the excitement and the two lovers decide to head back to the time of King Alfred the Great and find a priest to officiate their marriage Unfortunately a glitch in the Time Machine sends them back a hundred years earlier to Lindisfarne just as Vikings attack the monastery In the ensuing confusion and battle Eric is left behind Now Tone must find a way to go back in time to rescue him that is if he s still alive *New Aldine Language Series: Aldine second language book for grades five and six*

Winter, 2004 **Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record** ,1890 **Cognitive Linguistics, Second Language Acquisition, and Foreign Language Teaching** Michel Achard, Susanne Niemeier, 2008-08-22 This collection of twelve papers demonstrates that the concepts developed within the Cognitive Linguistics movement afford an insightful perspective on several important areas of second language acquisition and pedagogy In the first part of the book three papers show how three Cognitive Linguistics constructs provide a useful theoretical frame within which second language acquisition data can be analyzed First Talmy's typology of motion events is argued to constitute the base relative to which acquisition discrepancies in motion events are most valuably investigated Secondly the notion of construction is invoked in order to account for systematic differences between the native and non native speakers use of the English verb get Finally frequency and similarity effects are shown to play a crucial part in the learning of prepositions in a second language The second part of the book shows that the key concepts commonly invoked in Cognitive Linguistics analyses allow language teachers to insightfully structure the presentation of problematic material in the foreign language classroom These concepts include among others polysemy the figure ground gestalt the usage based conception of grammar the radial organization of categories metaphors and cultural
