Love in Store Roberta Leigh, 1978-10 *Love In Paris_Content.P1.pdf*, **Love in the Afterlife** Richard Striner, 2016-04-29 This is a definitive study of films that have been built around the themes of love death and the afterlife films about lovers who meet again and love again in heaven via reincarnation or through other kinds of after death encounters Far more than books about mere ghosts in the movies or religion in movies Love in the Afterlife presents a complex but highly distinctive and unique pattern the love death afterlife pattern as it was handed down by the ancient Egyptians and Greeks in the Isis and Orpheus myths for example developed by Freud and his followers in the duality of Eros and Thanatos and then featured in popular movies from the 1920s to the recent past Among its other qualities Love in the Afterlife may encourage readers to look at movies differently and reflect upon the possibility that other patterns in cinema may have gone undetected for years Furthermore this book will show how the love death afterlife theme found its way into all sorts of different film types melodramas comedies war films horror films film noir and other genres The book will be well illustrated and quotations from film reviews will enliven its pages A long appendix gives production data on almost sixty individual films **Love in Many Masks: as altered by J. depiction of the world of international espionage feels accurate as it should since the author is a former Mossad agent The characterizations are precise too these aren't stick figures in a spy story but real people in a real environment A nice blend of classic spy novel conventions with a thoroughly contemporary setting Booklist starred review [Love in the Western World](#) Denis De Rougemont, 1983-08-21 In this classic work often described as The History of the Rise Decline and Fall of the Love Affair Denis de Rougemont explores the psychology of love from the legend of Tristan and Isolde to Hollywood At the heart of his ever relevant inquiry is the inescapable conflict in the West between marriage and passion the first associated with social and religious responsibility and the second with anarchic unappeasable love as celebrated by the troubadours of medieval Provence These early poets according to de Rougemont spoke the words of an Eros centered theology and it was through this heresy that a European vocabulary of mysticism flourished and that Western literature took on a new direction Bringing together historical religious philosophical and cultural dimensions the author traces the evolution of Western romantic love from its literary beginnings as an awe inspiring secret to its commercialization in the cinema He seeks to restore the myth of love to its original integrity and concludes with a philosophical perspective on modern marriage **Young Love in**
