Disease and Death in Eighteenth-Century Literature and Culture Allan Ingram, Leigh Wetherall Dickson, 2017-02-23 This collection examines different aspects of attitudes towards disease and death in writing of the long eighteenth century. Taking three conditions as examples: ennui, sexual diseases and infectious diseases as well as death itself, contributors explore the ways in which writing of the period placed them within a borderland between fashionability and unfashionability, relating them to current social fashions and trends. These essays also look at ways in which diseases were fashioned into bearing cultural, moral, religious and even political meaning. Works of literature are used as evidence, but also medical writings, personal correspondence and diaries. Diseases or conditions subject to scrutiny include syphilis, male impotence, plague, smallpox and consumption. Death finally is looked at both in terms of writers constructing meanings within death and of the fashioning of posthumous reputation.

*The Sneezes* Anton Chekhov, 2015-06-03 Comprising four one act comic vaudevilles and four short stories adapted for the stage by Michael Frayn. The Sneezes introduces readers to a less familiar selection of work by one of the greatest precursors of modern drama. First published in 1989, this reissue includes The Sneezes, The Alien, Corn, The Bear, The Evils of Tobacco, The Inspector General, Swan Song, The Prospect and Plots. Michael Frayn's translations of Chekhov's work marry the expertise of the translator with the innate understanding of a master dramatist and are widely regarded as the truest, most authentic renderings of Chekhov's work. His keen imaginative sympathy with the great Russian dramatist extends beyond translation. But translation is an art at which he excels. *Spectator*
