Love An Unromantic Discussion:

Love Mary Evans, 2002-12-13 Since the end of the eighteenth century the pursuit of true love has been enshrined in the expectations of Western societies We regard this pursuit as our right and organize our lives around it However the possibility that love is becoming more difficult to achieve in the West has begun to attract considerable attention The consensus is that love is both deeply desirable and extremely difficult to find This highly original book explores two aspects of the nature of the apparently socially essential glue of love The first theme concerns the sources of our ideas about love where the concept originated and most importantly what its relationship has been to morality and moral systems The second theme is our determination to find love whatever the social and personal costs the desire for identification with another person drives us to impossible expectations and occasionally damaging alternatives In a compelling critique this book rejects the high romantic version of love as well as what could be described as a contractual version of love In their place it describes a love that depends upon reasoned care and commitment and argues that we should abandon love in its romanticized and commercialized form

Atheism and Love in the Modern Era Colby Dickinson, 2025-04-17 Discussing the decline of faith and the rise of love in the modern era Colby Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches Atheism and Love in the Modern Era argues that theism and atheism taken together can peel back the layers of abstraction alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world To illuminate this vision Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity a crucial concept that unites both religion and atheism through a concerted effort to detach from them both The book is organized into four sections each situating the concept of love in relation to a distinct theme the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious revelation The second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion The third section discusses and defines non absolute love The fourth section discusses how atheism in its critiques of religion misses the significance of de centring the act of love Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including i ek Agamben Irigaray Derrida Erich Fromm Charles Taylor and Philip Kitcher This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions

Erotic Love in Sociology, Philosophy and Literature Finn Bowring, 2019-08-22 Why is love taken for granted as a part of human experience And why is sexual or romantic love in particular so important to us This book aims to find out tracing the intellectual history of sexual love from the ancient Greeks to the modern day *Erotic Love in Sociology Philosophy and Literature* shows how discourses of love have intersected with social and cultural trends as well as with personal events and experiences Beginning with the queering of love in Greek antiquity it looks at how sexual love has been sung about fictionalized and theorized as a cornerstone of the formation of Western culture From the courtly love of twelfth century troubadours and the rise of affective individualism in the eighteenth century to the way the novel helped catalyze and crystallize the hopes and contradictions of love and marriage these are decisive episodes in the history of romantic love Lastly the book deals with how sociologists and feminist theorists have made sense of the liberalization of sexuality over the last fifty years especially given the post romantic pragmatism of commercialized dating practices Arguing against the over rationalism of intimate life *Erotic Love in Sociology Philosophy and Literature* recognizes the need to liberate love from patriarchal racist and homophobic prejudices and highlights the value of literary and sociological traditions to emphasize how they dignify the rhapsodies and the sufferings of love

Gender and Consumption Lydia Martens, Emma Casey, 2016-04-15 Drawing upon anthropological sociological and historical perspectives this volume provides a unique insight into women s domestic consumption The contributors argue that domestic consumption represents an important lens through which to examine the everyday production and reproduction of socio economic relations Through a variety of case studies such as gambling wedding day consumption and bedroom decor the essays explore and reconsider the nature of public and private spaces and the subsequent nature of domestic space often by challenging traditional notions of what constitutes the domestic The volume demonstrates the broad range of experiences that domestic consumption offers women and reveals some of the complex meanings and motivations underpinning women s consumption practices

Modern Couples? Jenny van Hooff,2016-04-15 Have heterosexual relationships become more intimate and equal over the past forty years Simply put this is the central question underpinning this book Within the context of late modern social processes including most notably individualization and detraditionalization authors such as Giddens Beck and Beck Gernsheim and Bauman have come to focus on a posited transformation of personal relationships This has culminated in a

sociological debate over the nature of contemporary relationships with proponents of change celebrating the emergence of an intimacy based on personal satisfaction rather than traditional obligations Detractors reject this interpretation and instead lament what they consider to be the destruction of commitment and the demoralisation of personal relationships by the rise of individualism and consumerism While these two entrenched positions have dominated the debate a third marginalised perspective has emerged which questions the extent to which contemporary relationships have become detraditionalized and emphasises evidence of continuing gender inequalities This book is essentially a qualitative empirical investigation of the changes and continuities posited within the debate which evaluates existing work and details the findings of van Hooff's research into the relationships of two generations of heterosexual couples It provides the reader with a grounded interpretation of the evidence questioning to what extent lived reality has matched the rhetoric within contemporary relationships

The Spectre of Promiscuity Christian Klesse,2016-03-03 Wide ranging research suggests that partners in gay male and bisexual relationships do not necessarily expect monogamy or see it as an important issue Although the frequency of gay male and bisexual non monogamous partnerships tends to be widely acknowledged in social science literature these relationships have rarely been explored in more detail By providing rich empirical data thoughtful analysis and theoretical debate this book makes a significant contribution to the sociological literature on sexual and intimate relationships More specifically it explores the diversity of gay male and bisexual relationship practices in the context of

Sexuality, Rurality, and Geography Andrew Gorman-Murray, Barbara Pini, Lia Bryant, 2012-12-27. This international edited collection contributes to knowledge about the geographies of sexualities experienced and imagined in rural spaces. The book draws attention to the heterogeneity of rural contexts and the diversity of meanings about sexualities within and across these spaces. The collection examines four key themes. First, *Intimacies and Institutions* focuses on how intimate relationships are governed by societal discursive and institutional structures and regulated by social, political, and legal frames of citizenship and belonging. The chapters present historical and contemporary case studies of the constitution and management of intimate sexual lives and relationships in rural and non-metropolitan spaces. Second, *Communities* explores how sexual identities are socially constructed and relationally performed in rural communities, scrutinizing the complex interplay of belonging and alienation, inclusion and exclusion for sexual subjects and communities within rural spaces. Analyzing films, literature, and interviews, the chapters examine sexuality and community and queer notions of rural family and community. Third, *Mobilities* examines movement/migration at different scales. Cross-national data provides insights into similarities and differences in rural migration and homemaking for lesbians, gay men, and same-sex families. The chapters consider how movement, coming out, and memories of time and place inflect home identity and belonging for rural lesbians and gay men. Fourth, *Production and Consumption* investigates the commodification of rural sexualities. The chapters interrogate the management of animal bodies and sexualities in industrial agriculture for consumer pleasure and commercial ends; how heterosexuality and sexual relations are transacted in mining communities; and the global commodification of rural masculine sexualities. This book is timely. It provides important new insights about ruralities and sexualities, filling a gap in theoretical and empirical understandings about how sexualities in diverse rural spaces are given meaning. This collection begins the processes of furthering discussion and knowledge about the inherently dynamic and constantly changing nature of the rural and the multiple, varied, and complex sexual subjectivities lived through corporeal experiences and virtual and imagined lives.

The Seduction Narrative in Britain, 1747-1800 Katherine Binhammer, 2009-09-24. Eighteenth-century literature displays a fascination with the seduction of a virtuous young heroine, most famously illustrated by Samuel Richardson's *Clarissa*, and repeated in 1790s radical women's novels, in the many memoirs by fictional or real penitent prostitutes, and in street print. Across fiction, ballads, essays, and miscellanies, stories were told of women's mistaken belief in their lovers' vows. In this book, Katherine Binhammer surveys seduction narratives from the late eighteenth century within the context of the new ideal of marriage for love and shows how these tales tell varying stories of women's emotional and sexual lives. Drawing on new historicism, feminism, and narrative theory, Binhammer argues that the seduction narrative allowed

writers to explore different fates for the heroine than the domesticity that became the dominant form in later literature This study will appeal to scholars of eighteenth century literature social and cultural history and women s and gender studies
