The Pre-Raphaelite Body J. B. Bullen, 1998 Pre-Raphaelitism was the first avant-garde movement in Britain It shocked its first audience and as it modulated into Aestheticism it continued to disturb the British public In this fresh and original study Professor Bullen traces the sources of that shock to the representation of the human body By examining the discourses which were developed to denounce or to explain the new art forms he shows that the distorted maimed or eroticized body formed the principal focus of anxiety in nineteenth-century criticism Using a truly interdisciplinary method he relates the painting of Millais and other early Pre-Raphaelites to fears about cholera and Catholicism he demonstrates how the body of the sexualized female became an object of obsessive fascination in the painting and poetry of Dante Gabriel Rossetti and William Morris he locates the writing of Swinburne and Prater in the context of the debate over the Woman Question and he shows how the responses to the Aesthetic painting of Burne-Jones were conditioned by the sexual psychopathology of mid-nineteenth-century mental science

Webster **Art Theory and Criticism** Sally Everett, 1995-01-15 Arranged chronologically the essays in this book each brilliantly introduced by the editor deal with the way art and culture interact in modern times Each author focuses on one aspect of modern art and its relation to culture by analyzing questioning or refuting the ideas about art that people just assume are true The essays are also grouped into one of four different models used by art theorists today the formalist in which the works of art describe the processes of making art the avant garde art that threatens the status quo the contextualist in which art can exist only in a specific situation or context and the post modernist stating that art is not completely detached from popular culture Instructors considering this book for use in a course may request an examination copy here *Arthur O'Shaughnessy, A Pre-Raphaelite Poet in the British Museum* Jordan Kistler, 2016-02-26 Arthur O'Shaughnessy's career as a natural historian in the British Museum and his consequent preoccupation with the role of work in his life provides the context with which to reexamine his contributions to Victorian poetry O'Shaughnessy's engagement with aestheticism socialism and Darwinian theory can be traced to his career as a Junior Assistant at the British Museum and his perception of the burden of having to earn a living outside of art Making use of extensive archival research Jordan Kistler demonstrates that far from being merely a minor poet O'Shaughnessy was at the forefront of later Victorian avant garde poetry Her analyses of published and unpublished writings including correspondence poetic manuscripts and scientific notebooks demonstrate O'Shaughnessy's importance to the cultural milieu of the 1870s particularly his contributions to English aestheticism his role in the importation of decadence from France and his unique position within contemporary debates on science and literature
