Anthony Ekanem,2016-09-27 Online dating is not all fun and games and there are a lot of things that a person has to know about online dating before one gets into the intricacies of it Online dating may seem to be the simplest thing in the world but it is not It should be viewed in all earnestness or things could go haywire Every game has its rules and unless you know all the rules you just can t become a good player and eventually a winner There are so many kinds of people around Just look around you how many people you know look the same Sizes builds shapes features they are all so different And that is just about the external appearances And when it comes to character it becomes a very different story altogether Take a trip down memory lane go back to your classrooms and look around A classroom is one place where we get to interact with a lot of different people on a very close basis We get to rub shoulders and corners with very different people and we get to know them on a one to one basis So how many of your classmates did you genuinely like I don t mean like them as classmates but as people Was it easy to get along with all of them That is why we often end up with best friends or clich s in classrooms We do not and do not have to like everybody The tastes and interests of one person might match with ours while the tastes and interests of another person may be at complete loggerheads with ours So when it comes to dating it is very much the same story But over here there are some strings attached Unlike in a classroom contact most people go on dates with a more impressive purpose and that is to find life mate There are a hundred and one things that should match before two people decide to spend the rest of their lives with each other Many people are of the opinion that they do not need any help with dating They may be right because nobody knows a person s tastes and likes better than the person himself or herself

Labor of Love Moira Weigel,2016-05-17 An occasionally amusing and often provocative look at the work of wooing A lively tour of changing romantic mores The Economist Does anyone date anymore Today the authorities tell us that courtship is in crisis But when Moira Weigel dives into the history of sex and romance in modern America she discovers that authorities have always said this Ever since young men and women started to go out together older generations have scolded them That s not the way to find true love The first women who made dates with strangers were often arrested for prostitution long before hookup culture there were petting parties before parents worried about cell phone apps they fretted about joyrides and parking Dating is always dying But this does not mean that love is dead It simply changes with the economy Dating is and always has been tied to work Lines like I ll pick you up at six made sense at a time when people had jobs that started and ended at fixed hours But in an age of contract work and flextime many of us have become sexual freelancers more likely to text a partner u still up Weaving together over one hundred years of history with scenes from the contemporary landscape Labor of Love offers a fresh feminist perspective on how we came to date the ways we do This isn t a guide to getting the guy
