Both One and Many Oliver Griebel, 2024-04-16 Meister Eckhart might have liked it. Indeed many one thinking is the idea that there is the one ultimate origin coherence spirit of it all but not without a multitude and diversity emerging within which is the evolving universe with planets like Earth with its biosphere and humankind with you and me living in it. The Many One is thought of as the whole of the cosmos complementing and entangled with all its parts as beings inside Being and Being inside beings as the Creator and his co-creating creatures. The both one and many idea takes a strong stance against any ultimate either/or reduction against isms of all sorts. Being unity and plurality and duality all at once. The Many One is neither monistic nor pluralistic nor dualistic in any way. Inside this broad frame it is open for many specific approaches not least those represented in this volume which are cosmic holism cultural spiritual evolution thought Higher We integral thinking the Metaphysics of Adjacency panentheism process theology and transpersonal participatory thinking. However the many one idea also chimes in with approaches not sampled here like Roy Bhaskar's Critical Realism Edgar Morin's Complex Thought or metamodernism.
