Why We Love Serial Killers Scott

Bonn, 2014-10-28 For decades now serial killers have taken center stage in the news and entertainment media The coverage of real life murderers such as Ted Bundy and Jeffrey Dahmer has transformed them into ghoulish celebrities Similarly the popularity of fictional characters such as Hannibal The Cannibal Lecter or Dexter demonstrates just how eager the public is to be frightened by these human predators But why is this so Could it be that some of us have a gruesome fascination with serial killers for the same reasons we might morbidly stare at a catastrophic automobile accident Or it is something more In Why We Love Serial Killers criminology professor Dr Scott Bonn explores our powerful appetite for the macabre while also providing new and unique insights into the world of the serial killer including those he has gained from his correspondence with two of the world's most notorious examples David Berkowitz Son of Sam and Dennis Rader Bind Torture Kill In addition Bonn examines the criminal profiling techniques used by law enforcement professionals to identify and apprehend serial predators he discusses the various behaviors such as the charisma of the sociopath that manifest themselves in serial killers and he explains how and why these killers often become popular cultural figures Groundbreaking in its approach Why We Love Serial Killers is a compelling look at how the media law enforcement agencies and public perception itself shapes and feeds the monsters in our midst

Murder & Its Motives Fryniwyd Tennyson Jesse, 1924

The World's Most Bizarre

Murders James Marrison, 2010-06-07 This is no ordinary true crime book If you think you've got the stomach for the most blood curdling sickening and downright strangest murders you will ever come across then look no further than these pages You have been warned Take for example Enriqueta Marti who kidnapped children from the streets of Barcelona then boiled

away their flesh and crushed their bones for ingredients for her coveted magic potions Or take Randy Kraft known as The Scorecard Killer a computer genius by day and a deranged psychopath by night Finally arrested with a corpse slumped in the passenger seat of his car it emerged that Kraft had spent over a decade cutting up and disposing of his numerous victims along the California highways In this stomach churning collection all the stories have one thing in common a unique bizarre twist True crime writer James Marrison draws upon the material that has featured in the hugely successful column The Murder File in cult magazine Bizarre in order to disclose the kind of sickening deeds that are perpetrated more often than you might think but which sometimes go largely unreported by the media Welcome to The World s Most bizarre Murders the most shocking true crime book you will ever read *The Norths Meet Murder* Frances Lockridge, Richard

Lockridge, 2016-03-08 A sophisticated 1930s Greenwich Village couple finds an inconvenient body in their upstairs bathtub in the first installment of an excellent series The New Yorker Jerry and Pamela North s upstairs apartment has been empty as long as they can remember It s an ordinary Greenwich Village abode and the Norths are ordinary Villagers which means they can t bear to go more than a few days between cocktail parties So when Pamela decides to stage a soiree in the empty apartment Jerry goes along begrudgingly But what seems inconvenient becomes felonious the moment they find a dead man in the tub He has been bludgeoned stripped naked and left to rot The party is most certainly off Which neighbor was rude enough to leave a body in the upstairs tub Though they should know better Mr and Mrs North can t resist getting involved Before they know it they re right in the thick of a manhunt and Greenwich Village will never be the same The Norths Meet Murder is the 1st book in the Mr and Mrs North Mysteries but you may enjoy reading the series in any order *Desire*

Stone, 2017 In this groundbreaking book renowned psychiatrist Michael H Stone explores the concept and reality of evil from a new perspective In an in depth discussion of the personality traits and behaviors that constitute evil across a wide spectrum Dr Stone takes a clarifying scientific approach to a topic that for centuries has been inadequately explained by religious doctrines Basing his analysis on the detailed biographies of more than 600 violent criminals Stone has created a 22 level hierarchy of evil behavior which loosely reflects the structure of Dante's Inferno He traces two salient personality traits that run the gamut from those who commit crimes of passion to perpetrators of sadistic torture and murder One trait is narcissism as exhibited in people who are so self centered that they have little or no ability to care about their victims The other is aggression the use of power over another person to inflict humiliation suffering and death What do psychology psychiatry and neuroscience tell us about the minds of those whose actions could be described as evil And what will that mean for the rest of us Stone discusses how an increased understanding of the causes of evil will affect the justice system He predicts a day when certain persons can safely be declared salvageable and restored to society and when early signs of violence in children may be corrected before potentially dangerous patterns become entrenched **The Social History of Crime and Punishment in America** Wilbur R.
