Rosse,2007-10-12 Love is one of the most exhilarating emotions we experience unfortunately it is also one of the most painful and sometimes traumatic The unresolved emotional scars from a broken heart can manifest as a love trauma syndrome Until now a love trauma was thought to precipitate other common psychiatric conditions such as depression or adjustment disorders but these generic psychiatric ailments are not adequate for articulating the full and unique character of the condition following love trauma The Love Trauma Syndrome Free Yourself from the Pain of a Broken Heart fills the need of patients feeling isolated ashamed or alone in their anguish Dr Richard Rosse a psychiatrist with expertise in the area of emotional breakdown provides a concrete path to help people understand this condition At times the syndrome can seriously diminish the sufferer s quality of life and dramatically impair social academic and occupational activities Dr Rosse warns that there can also be bouts of severe manifestations things go horribly wrong Patients may end up committing suicide A few become so obsessed by their lost loves that they are driven to stalk attack or murder these persons and then ultimately commit suicide However most patients suffer alone and in silence without ever resorting to an act of physical violence Dr Rosse clearly explains that Love Trauma Syndrome is a clinical disorder of too much memory in which the past intrudes upon the present to influence thoughts feelings and behaviors to a much greater extent than is expected It can also be associated with a variety of other behavioral problems the avoidance of future loving relationships nervousness feeling unreal or out of place anger and sleep disturbances The book will educate mental health clinicians on how to recognize and treat people with the syndrome and Dr Rosse discusses a variety of psychotherapeutic and pharmacological treatment options and their rationale The Love Trauma

 Richard Cassidy s *Accountability* A Noun or a Verb takes the simple premise of we are all accountable for our behavior and
 explores the significant relationship between accountability and our personal and professional successes What does it mean
 to be accountable It means taking responsibility and not considering oneself the hapless victim If one is stopped and ticketed
 for driving sixty in a forty five mile zone is it logical to blame the police officer It also means creating a vision of the life most
 desired and working toward achieving that vision It s not enough to be accountable one must also be willing to put in the
 time Many years of observing individuals and organizations confirmed Cassidy s long held belief that men and women who
 take responsibility for their lives and the action required to move forward are more successful and more fulfilled But what
 must we do to reach that point According to the author an in depth and truthful analysis of who we are our values and beliefs
 must first be undertaken By having a clearer picture of what we believe and how we exercise those beliefs we move one giant
