Kilbourn, 2023-08-24 Feminist Posthumanism in Contemporary Science Fiction Film and Media From Annihilation to High Life and Beyond places posthumanism and feminist theory into dialogue with contemporary science fiction film and media This essay collection is intimately invested in the debates around the posthuman and the critical posthumanities within a feminist critical theoretical framework In this posthumanist light science fiction as a genre allows for new imaginings of human technological relations while it can also be the site of a critique of human exceptionalism and essentialism In this way science fiction affords unique opportunities for the scholarly investigation of the relevance and relative applicability of specific posthumanist themes and questions in a particularly rich and wide ranging popular cultural field of production One of the reasons for this suitability is the genre's historically longstanding relationship with the critical investigation of gender specifically the position and relative empowerment of women The original analyses presented here pay close attention to audiovisual style including game mechanics facilitating the critical interrogation of the issues and questions around posthumanism Where typically the mention of SF in the posthumanist context calls to mind a whole set of often clichéd tropes the cyborg technologically augmented bodies AI subjectivities etc this volume's thirteen chapters analyze specific examples of contemporary SF cinema that engage in meaningful ways with the burgeoning field of critical posthumanism and that utilize such films to interrogate posthumanist and feminist as well as humanistic ideas      **Miracles of Love** Nora Martin Peterson, 2021-11-12 Before children's stories came to exemplify the French fairy tale early modern audiences read the works of women writers known as conteuses From the late seventeenth century through the Revolution the conteuses published rich complex tales that were popular in literary salons and elite courtly settings These unpredictable works feature candid representations of female desire strong support for the education of women and surprising twists on the fairy tale formulas familiar to readers of Charles Perrault Not only witty and entertaining the tales also comment on the unfair treatment of

women that the authors saw in society history and myth Brief biographies introduce to new audiences writers who challenged social conventions won popular and critical acclaim and defined the fairy tale genre in their own time Family and Relationships in Ian McEwan's Fiction Tomasz Dobrogoszcz, 2018-02-23 The book provides a lucid analysis of all Ian McEwan fiction published to date from his 1975 debut short stories up to the 2016 novel *Nutshell* spanning forty years of his literary career Apart from a general discussion of McEwan's works the study offers a uniform focal point it concentrates on one of the key issues taken up by the writer the aspect of relationships between partners and between family members As the book demonstrates the novelist employs interpersonal relations to establish a pertinent context in which he can dramatically portray the process of identity formation in his characters Throughout his fiction McEwan consistently uses references to psychoanalysis either veiled or direct The proposed book investigates the novelist's oeuvre through the lens of the psychoanalytic theory developed by Jacques Lacan The approach used makes the book useful both for readers well familiar with this apparatus and for those who need introduction to Lacanian psychoanalysis and such of his concepts as desire fantasy the symbolic order or the Name of the Father **The Nation**, 1926 Black Mothers and the National Body Politic Andrea Powell Wolfe, 2020-10-14 *Black Mothers and the National Body Politic* The Narrative Positioning of the Black Maternal Body from the Civil War Period through the Present focuses on the struggles and triumphs of black motherhood in six works of narrative prose composed from the Civil War period through the present Andrea Powell Wolfe examines the functioning of the black maternal body to both define and undermine ideal white womanhood the physical scarring of the black mother and the reclamation of the black maternal body as a site of subversion and nurturance as well as erotic empowerment and the construction of oppressive discourses surrounding black female bodies and reproduction and the development of resistance to these types of discourses These tensions undergird a multifaceted discussion of the narrative positioning of the black maternal body within and in relationship to the national body politic an inherently exclusionary and restrictive metaphorical entity constructed and socially contracted over time by an already politically empowered citizenry Ultimately close analysis of the texts under study suggests that the United States as a figurative body complete with imagined parts that perform separate functions from intelligence to labor ingestion to expulsion has simultaneously used and cast off the black maternal body over the course of centuries **Contemporary Novelists** Noelle Watson, 1991 Contains entries for each author with a biography a list of separately published books and an essay *Class Interruptions* Robin Brooks, 2021-12-20 As downward mobility continues to be an international issue Robin Brooks offers a timely intervention between the humanities and social sciences by examining how Black women's cultural production engages debates about the growth in income and wealth gaps in global society during the late twentieth and early twenty first centuries Using an interdisciplinary approach this innovative book employs major contemporary texts by both African American and Caribbean writers Toni Morrison Gloria Naylor Dawn Turner Olive Senior Oonya Kempadoo Merle Hodge and Diana McCauley to

demonstrate how neoliberalism within the broader framework of racial capitalism reframes structural inequalities as personal failures thus obscuring how to improve unjust conditions Through interviews with authors textual analyses of the fiction and a diagramming of cross class relationships Brooks offers compelling new insight on literary portrayals of class inequalities and division She expands the scope of how the Black women s literary tradition since the 1970s has been conceptualized by repositioning the importance of class and explores why the imagination matters as we think about novel ways to address long standing and simultaneously evolving issues      **The Dairy Farmer** ,1922      Reframing Trauma in Contemporary Fiction Film Tarja Laine,2023-07-31 In *Reframing Trauma in Contemporary Fiction Film* Tarja Laine provides insights into how cinema engages its spectator emotionally with the pathology of memory that lies at the heart of trauma By arguing that cinema communicates the inability to process a traumatic event by means of its aesthetic specificity Laine demonstrates that traumatic cinema can be an important source of ethical knowledge both within and beyond the cinematic world The films discussed in this book do not necessarily narrate trauma but embody that aspect of trauma which resists narrativization This is why there are modes of affective engagement beyond storytelling by which spectators can meaningfully relate to trauma Scholars of film studies media studies and philosophy will find this book of particular interest

**Popular Mechanics** ,1932-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle      *Looking for Love in the Legal Discourse of Marriage* Renata Grossi,2014-09-01 This book examines the in visibility of romantic love in the legal discourse surrounding modern Australian marriage It looks at how romantic love has become a core part of modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage This examination raises two key issues If love has become central to people s understanding of marriage then it is important for the legitimacy of law that love is reflected in both the content and application of the law More fundamentally it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them Along the way this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them This book will be of interest to everyone working on love marriage and sexuality in the disciplines of law sociology and philosophy      *Separate Spheres No More* Monika Elbert,2014-07-30 Examines the intersection of male and female spheres in American literature Although they wrote in the same historical milieu as their male counterparts women writers of the 19th and early 20th centuries have generally been ghettoized by critics into a separate canonical sphere These original essays argue in favor of reconciling male and female writers both historically and in the context of classroom teaching While some of the essays pair up female and male authors who write in a similar style or

with similar concerns others address social issues shared by both men and women including class tensions economic problems and the Civil War experience Rather than privileging particular genres or certain well known writers the contributors examine writings ranging from novels and poetry to autobiography utopian fiction and essays And they consider familiar figures like Harriet Beecher Stowe Emily Dickinson and Ralph Waldo Emerson alongside such lesser known writers as Melusina Fay Peirce Susie King Taylor and Mary Gove Nichols Each essay revises the binary notions that have been ascribed to males and females such as public and private rational and intuitive political and domestic violent and passive Although they do not deny the existence of separate spheres the contributors show the boundary between them to be much more blurred than has been assumed until now
