

Low-Incidence Disabilities

- Major categories identified under IDEA that fall into the low-incidence grouping are:
 - a. Other health impairments
 - b. Orthopedically impaired
- Conditions such as childhood cancer, asthma, and cerebral palsy. Traumatic brain injury is also considered a low-incidence disability.
- Low-incidence disabilities present unique needs.
- General classroom teachers are not equipped to address the needs of these students without the help of professionals.

Assessing and Treating Low Incidence/High Severity Psychological Disorders of Childhood Stefan C.

Dombrowski, Karen L. Gischlar, Martin Mrazik, 2011-07-08 During the past several decades interest in children's psychological disorders has grown steadily within the research community resulting in a burgeoning knowledge base The majority of the attention and funding not surprisingly has focused on the more prevalent and well known conditions Although this raises the odds that young people with more well known disorders such as ADHD autism and learning disorders will receive much needed professional assessment and intervention children with less frequently encountered disorders may experience a higher risk of misdiagnosis and inappropriate treatment Useful data has been scattered throughout the literature for severe but less frequent childhood psychological disorders including fire setting gender identity disorder impulse control disorders i.e. kleptomania trichotillomania intermittent explosive disorder selective mutism Munchausen by proxy childhood schizophrenia gang involvement sexual offending self injurious behavior and feral children This concise volume offers up to

date information on these conditions which though relatively rare may have profound effect not only on the children themselves but also their families friends and the community at large Coverage of each disorder is presented in an accessible format covering Overview and history Description and diagnostic classification with proposed changes to the DSM V Etiology and theory Assessment tools and interview protocols Commonly used psychological and pharmacological treatment options Current research issues and directions for future investigation Assessing and Treating Low Incidence High Severity Psychological Disorders of Childhood is a must have reference for researchers clinicians practitioners and graduate students in clinical child and school psychology pediatrics psychiatry social work schoolcounseling education and public policy
