Low Intensity Conflict Old Threats In A New World

David Boren, Edward Joseph Perkins

Low Intensity Conflict Old Threats In A New World:

Low-intensity Conflict Edwin G Corr, 2019-08-15 The end of the cold war does not necessarily mean the end of the social and political instability that can lead to low intensity conflicts This book provides fresh insights into a difficult subject by bringing together knowledgeable contributors who have the academic expertise operational experience and strategic perspective essential to understand **Low-intensity Conflict** Edwin G Corr, Stephen Sloan, 1992-09-02 Toward Responsibility in the New World Disorder John T. Fishel, Max G. Manwaring, 2013-10-11 This volume commends itself to the reader to provoke thought about what governments and international organizations ought to do when faced with the responsibilities of a given peace operation Equally important it suggests what we as citizens in the world community ought to demand of our governments and that community in the current world disorder The intent is to help decision makers policy makers opinion makers and students understand the nature of the problem that is likely to provide the greatest challenge to international security management into the next century **Uncomfortable Wars Revisited** John T. Fishel, Max G. Manwaring, 2006 Since the end of the Cold War and especially since September 11 2001 the United States has faced daunting challenges in the areas of foreign policy and national security Threatened by failing states insurgencies civil wars and terrorism the nation has been compelled to re evaluate its traditional responses to global conflict In this timely book John T Fishel and Max G Manwaring present a much needed strategy for conducting unconventional warfare in an increasingly violent world In the early 1990s Manwaring introduced a new paradigm for addressing low intensity conflicts or conflicts other than major wars Termed the Manwaring Paradigm or SWORD Small Wars Operations Research Directorate model it has been tested successfully by scholars and practitioners and refined in the wake of new and significant uncomfortable wars around the world most notably the conflicts in Afghanistan and Iraq Uncomfortable Wars Revisited broadens the definition of the original paradigm and applies it to specific confrontations America and Guerrilla Warfare Anthony James Joes, 2021-05-11 From South Carolina to South Vietnam America's two hundred year involvement in guerrilla warfare has been extensive and varied America and Guerrilla Warfare analyzes conflicts in which Americans have participated in the role of on the side of or in opposition to guerrilla forces providing a broad comparative and historical perspective on these types of engagements Anthony James Joes examines nine case studies ranging from the role of Francis Marion the Swamp Fox in driving Cornwallis to Yorktown and eventual surrender to the U S support of Afghan rebels that hastened the collapse of the Soviet Empire He analyzes the origins of each conflict traces American involvement and seeks patterns and deviations Studying numerous campaigns including ones staged by Confederate units during the Civil War Joes reveals the combination of elements that can lead a nation to success in guerrilla warfare or doom it to failure In a controversial interpretation he suggests that valuable lessons were forgotten or ignored in Southeast Asia The American experience in Vietnam was a debacle but according to Joes profoundly atypical of the country's overall experience with guerrilla warfare He examines

several twentieth century conflicts that should have better prepared the country for Vietnam the Philippines after 1898 Nicaragua in the 1920s Greece in the late 1940s and the Philippines again during the Huk War of 1946 1954 Later during the long Salvadoran conflict of the 1980s American leaders seemed to recall what they had learned from their experiences with this type of warfare Guerrilla insurgencies did not end with the Cold War As America faces recurring crises in the Balkans sub Saharan Africa the Middle East and possibly Asia a comprehensive analysis of past guerrilla engagements is essential for today s policymakers

Beyond Declaring Victory and Coming Home Anthony J. Joes, Max Manwaring, 2000-04-30 The political practice of declaring victory and coming home has provided a false and dangerous domestic impression of great success for U S unilateral and multilateral interventions in failing and failed states around the world The reality of such irresponsibility is that the root causes and the violent consequences of contemporary intranational conflict are left to smolder and reignite at a later date with the accompanying human and physical waste This book discusses why it is incumbent on the international community and individual powers involved in dealing with the chaos of the post Cold War world to understand that such action requires a long term holistic and strategic approach The intent of such an approach is to create and establish the proven internal conditions that can lead to a mandated peace and stability with justice The key elements that define those conditions at the strategic level include 1 the physical establishment of order and the rule of law 2 the isolation of belligerents 3 the regeneration of the economy 4 the shaping of political consent 5 fostering peaceful conflict resolution processes 6 achieving a complete unity of effort toward stability and 7 establishment and maintenance of a legitimate civil society These essential dimensions of contemporary global security and stability requirements comprise a new paradigm that will hopefully initiate the process of rethinking both problem and response

The Resurgence of Religion David S. Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimation of violence

The Savage Wars Of Peace John Fishel, 2019-06-13 A historical overview of UN and non UN peace operations this book provides a theoretical framework for informing U S military doctrine as it relates to peacekeeping The contributors who are drawn from scholars soldiers diplomats and security consultants lay out the political and strategic context for peace operations and present case studies on traditional aggravated and enforcement operations including UNPROFOR UNOSOM II UNFICYP Cypress ONUC Congo A historical overview of UN

and non UN peace operations this book provides a theoretical framework for informing U S military doctrine as it relates to peacekeeping The contributors who are drawn from scholars soldiers diplomats and security consultants lay out the political and strategic context for peace operations and present case studies on traditional aggravated and enforcement operations including UNPROFOR UNOSOM II UNFICYP Cypress ONUC Congo *The Complexity of Modern Asymmetric Warfare* Max G. Manwaring, 2012-09-05 Today more than one hundred small asymmetric and revolutionary wars are being waged around the world This book provides invaluable tools for fighting such wars by taking enemy perspectives into consideration The third volume of a trilogy by Max G Manwaring it continues the arguments the author presented in *Insurgency Terrorism and Crime and Gangs Pseudo Militaries and Other Modern Mercenaries* Using case studies Manwaring outlines vital survival lessons for leaders and organizations concerned with national security in our contemporary world The insurgencies Manwaring describes span the globe Beginning with conflicts in Algeria in the 1950s and 1960s and El Salvador in the 1980s he goes on to cover the Shining Path and its resurgence in Peru Al Qaeda in Spain popular militias in Cuba Haiti and Brazil the Russian youth group Nashi and drugs and politics in Guatemala as well as cyber warfare Large wealthy well armed nations such as the United States have learned from experience that these small wars and insurgencies do not resemble traditional wars fought between geographically distinct nation state adversaries by easily identified military forces Twenty first century irregular conflicts blur traditional distinctions among crime terrorism subversion insurgency militia mercenary and gang activity and warfare Manwaring s multidimensional paradigm offers military and civilian leaders a much needed blueprint for achieving strategic victories and ensuring global security now and in the future It combines military and police efforts with politics diplomacy economics psychology and ethics The challenge he presents to civilian and military leaders is to take probable enemy perspectives into consideration and turn resultant conceptions into strategic victories

Countering Terrorism and Insurgency in the 21st Century James J. F. Forest, 2007-06-30 The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States Countering Terrorism and Insurgency in the 21st Century analyzes the most significant dimensions of combating terrorism including considerations of strategic and tactical issues hard power soft power and counterintelligence the need to thwart sources and facilitators weak governments ill conceived foreign policy and trafficking in drugs guns and humans and the incorporation of lessons learned thus far from combating terrorism around the globe Since the dawn of the new millennium combating terrorism has become a primary focus of security professionals throughout the world The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States while many countries from Algeria and Spain to Sri Lanka and Indonesia have redoubled their efforts to combat their own indigenous terrorism threats In the United States the counterterrorism goals identified in the National Strategy for Combating Terrorism 2006 can only be achieved through significant multinational cooperation These goals are to advance effective democracies as the long term antidote to the

ideologies of terrorism to prevent attacks by terrorist networks to deny terrorists the support and sanctuary of rogue states to deny terrorists control of any nation they would use as a base and launching pad for terror and to lay the foundations and build the institutions and structures we need to carry the fight forward against terror and help ensure our ultimate success At this point in the development of the global counterterrorism efforts it is particularly important to pause for reflection on a number of critical questions What do we know about effectively countering terrorism What are the characteristics of successful or unsuccessful counterterrorism campaigns What do we need to learn in order to do this better Countering Terrorism and Insurgency in the 21st Century addresses these and related questions contributing to national security policy as well as to our understanding of the terrorist threat and how it can be defeated Volume 1 Strategic and Tactical Considerations examines issues of hard power soft power and intelligence counterintelligence Volume 2 Sources and Facilitators covers state failure border controls democracy promotion networks and trade and trafficking and societal issues Volume 3 Lessons Learned from Combating Terrorism and Insurgency includes case studies of counterterrorism operations e g the hijacking of the Achille Lauro the 1993 bombing of the World Trade Center and the capture of key terrorist suspects like Ramzi Youssef and Khalid Sheikh Mohamad and case studies of long term efforts to combat terrorism e g the Basques in Spain the Tamil Tigers in Sri Lanka Israel s struggle against Palestinian terror organizations Peru and Sendero Luminoso and Japan and Aum Shinrikyo

Historical Dictionary of Terrorism Sean K. Anderson, Stephen Sloan, 2009-08-03 The United States Department of Defense defines terrorism as the calculated use of unlawful violence or threat of unlawful violence to inculcate fear intended to coerce or to intimidate governments or societies in the pursuit of goals that are generally political religious or ideological While terrorism has been around for centuries it was the al Qaeda attacks of September 11 2001 that brought home to the world and most particularly the United States just how dangerous terrorism can be The third edition of the Historical Dictionary of Terrorism presents the full spectrum of forms of political violence through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on major terrorist groups and their leaders significant terrorist events cyber terrorism counterterrorism and social science concepts regarding the motivations and group dynamics of terrorist groups Authors Sean K Anderson and Stephen Sloan move beyond the gut reaction we have to this volatile and divisive topic by providing a reliable and objective reference on terrorism

Nonstate Actors in Colombia: Threat and Response Max G. Manwaring, Colombia s deeply rooted and ambiguous warfare has reached crisis proportions in that Colombia s Hobbesian Trinity of illegal drug traffickers insurgents and paramilitary organizations are creating a situation in which life is indeed nasty brutish and short The first step in developing a macro level vision policy and strategy to deal with the Colombian crisis in a global context is to be clear on what the Colombian crisis is and what the fundamental threats implicit and explicit in it are Political and military leaders can start thinking about the gravity of the terrorist strategy employed by Colombia s stateless adversaries from this point It is also the point from which leaders can

begin developing responses designed to secure Colombian Hemispheric and global stability The author seeks to explain the Colombian crisis in terms of nonstate threats to the state and to the region and appropriate strategic level responses

Guerrilla Warfare Anthony J. Joes, 1996-08-13 From the Carolina Swamp Fox to the Afghan Mujahideen this book analyzes 40 guerrilla struggles across five continents profiles important figures and gives extensive bibliographical information With an emphasis on causes and effects Part I surveys and analyzes all major guerrilla struggles and many less well known wars from the American Revolution to 20th century post colonial conflicts Drawing a distinction between guerrilla warfare and terrorism the author focuses on guerrilla activity He seeks to answer such questions as the genesis and context of an insurgency its resemblance to other guerrilla conflicts what factors contributed to victory or defeat which factors are unique to a conflict and what factors are common to many conflicts Part II profiles individuals who are important to the subject including guerrilla chieftains military commanders government officials party leaders theorists and instructors who exerted notable influence Part III surveys the major English language literature on guerrilla warfare providing a wide ranging representative and intensive collection of works

Restoring and Maintaining Order in Complex Peace Operations Michael J. Kelly, 2023-09-20 This volume contains a detailed study of the applicable international law relevant to peace operations in the context of collapsed states in the establishment of safe havens or in a general enforcement role It discusses the interaction and the often complex legal relationships between non government humanitarian actors relevant UN agencies the warring parties and international peace forces under international law and practice In particular the book deals with issues concerning the implications of contemporary peace operations for military forces in terms of force structure operating procedures and training The book focuses on the often overlooked but critical issues of the interim administration of law and order in complex operations and on the reconstruction of a local capability in this regard Many contemporary operational challenges are analysed including the Balkans and the Middle East In particular the book includes a detailed case study of Somalia based on the author's personal knowledge experience and access to information on the ground in his capacity as military legal adviser to the Australian Defence Force Contingent in Somalia

Historical Dictionary of the U.S. Army Jerold E. Brown, 2000-12-30 Having evolved over the past two and a quarter centuries to become the premier military force in the world the U S Army has a heritage rich in history and tradition This historical dictionary provides short clear authoritative entries on a broad cross section of military terms concepts arms and equipment units and organizations campaigns and battles and people who have had a significant impact on Army It includes over 900 entries written by some 100 scholars providing a valuable resource for the interested reader student and researcher For those interested in pursuing specific subjects further the book provides sources at the end of each entry as well as a general bibliography Appendixes provide a useful list of abbreviations and acronyms and a listing of ranks and grades in the U S Army

Essentials of Counterterrorism James J. F. Forest, 2015-10-21 A comprehensive overview of counterterrorism that examines key aspects of

the fight against terrorism including intelligence law enforcement the military financial and criminal activity ethics and social media Recent terrorist actions in the United States and abroad make it clear that the subject of counterterrorism is as vital and as timely as ever Edited by a leading authority on terrorism and security studies this compendium offers a wide ranging look at the most vital aspects of counterterrorism from diplomacy and military action to the investigation and interdiction of terrorist finances Following an introduction chapters offer insightful discussions of strategy policy tactical and operational dimensions of counterterrorism An interdisciplinary team of expert contributors examine a wide range of topics including lone wolf and homegrown terrorists intelligence cooperation social media community policing terrorism finance and the shadow economy Case studies from Europe Latin America South Asia the Middle East and the United States provide clear practical examples of effective and sometimes not so effective approaches to combating terrorism The volume will serve as a central textbook for professional development courses workshops and academic degree programs on terrorism

counterterrorism and security studies *Internal Wars: Rethinking Problem and Response* Max G. Manwaring, 2022

Preparing America's Foreign Policy for the 21st Century David Boren, Edward Joseph Perkins, 1999 A select group of analysts practitioners and scholars assembled in 1997 and 1999 at the University of Oklahoma to lay the groundwork for a new foreign policy This carefully edited collection includes those major policy statements and discussions by the best minds of our time Index **Gray Area Phenomena** Max G. Manwaring, 2019-04-11 This book addresses the challenge of international narcotics control by applying the Manwaring paradigm The paradigm is the basis for an improved strategy and theory of engagement for weak governments of the developing world built around the concept of the gray area phenomenon

A Revolution in Military Adaptation Chad C. Serena, 2011-09-01 During the early years of the Iraq War the US Army was unable to translate initial combat success into strategic and political victory Iraq plunged into a complex insurgency and defeating this insurgency required beating highly adaptive foes A competition between the hierarchical and vertically integrated army and networked and horizontally integrated insurgents ensued The latter could quickly adapt and conduct networked operations in a decentralized fashion the former was predisposed to fighting via prescriptive plans under a centralized command and control To achieve success the US Army went through a monumental process of organizational adaptation a process driven by soldiers and leaders that spread throughout the institution and led to revolutionary changes in how the army supported and conducted its operations in Iraq How the army adapted and the implications of this adaptation are the subject of this indispensable study Intended for policymakers defense and military professionals military historians and academics this book offers a solid critique of the army's current capacity to adapt to likely future adversary strategies and provides policy recommendations for retaining lessons learned in Iraq
