and Viktor Lowenfeld this book reveals how these ideas developed in postwar America through a focus on child centered methods of learning by doing in artistic practice By centring the visual arts as a vital educational medium we see how these teachings have been popularized as a means of nurturing creativity in childhood Across three chapter length case studies interspersed with three mini chapters on the reception of each artist educator's radical teachings in the American education system *Child Creativity and the Visual Arts* provides new interpretations into the impact of these three luminaries differing philosophies on a broader program of socio political activism in the USA Drawing on previously untapped archival and primary source materials it blends deep material culture analysis with narrative elements to present a compelling account of the unrecognized influence of migr art pedagogy on progressive international art education In doing so it provides fresh transregional and thematic perspectives on early 1900s Vienna as a hotbed of creative and cultural experimentation and mecca of progressive art education

Revitalizing History Paul E. Bolin, Ami Kantawa, 2021-03-09 Historical inquiry forms the foundation for much research undertaken in art education While traversing paths of historical investigation in this field we may discover undocumented moments and overlooked or hidden individuals as well as encounter challenging ideas in need of exploration and critique In doing so history is approached from multiple and at times vitally diverse perspectives Our hope is that the conversations generated through this text will continue to strengthen and encourage more interest in histories of art education but also more sophisticated and innovative approaches to historical research in this field The overarching objective of the text is to recognize the historical role that many overlooked individuals particularly African Americans and women have played in the field of art education and acknowledge the importance of history and historical research in this digital age This text opens up possibilities of faculty collaborations across programs interested in history and historical research on a local national and international level By assembling the work of various scholars from across the United States this text is intended to elicit rich conversations about history that would be otherwise beyond what is provided in general art education textbooks

Henley, 2024-03-26

Although this is a clinical text it is also more a conversation than a book It is a means of sharing the work of artists most of whom have varying degrees of special needs It emphasizes that handicapping conditions do not constitute a barrier for creating therapeutically meaningful art The precepts of Edith Kramer focus on subtly suggesting media content or techniques all without interfering with the artist s preferences This intervention came to be known as the Third Hand where the artist in therapy is free to accept reject or ignore the therapist s suggestions The case vignettes describe how aesthetic richness is also illustrative of the uniqueness of clients clinical stories with the artists emotional or behavioral challenges overcoming and even benefiting by their conditions The work of early pioneers who influenced Kramer s illustrate how her own analytical methods later shaped her approach The format in this book also questions the author as being the ultimate authority by posing questions to the reader says a kind of dialogue that emphasizes there are no absolutes in art behavioral science or therapy While espousing Kramer s and his own ideas Henley also includes those of other art therapists who contribute their own expertise in the hope that the analyses will be enriched from multiple perspectives Dr Henley describes how her therapeutic interventions were debated during their many years of collegial interaction By describing Kramer s early influences and personal art history he describes how Kramer s interventions helped innumerable clients and trained hundreds of student therapists These facets will hopefully enable creative arts therapists to implement her patented artist centered interventions The processes and artistic outcomes will lead the way guiding the reader toward the uses of the Third Hand and hopefully bring alive the uniqueness of these special artists stories Young at Art Susan Striker, 2011-04-01

From the creator of the bestselling Anti Coloring Book series with more than 600 000 copies sold a new parenting guide to encouraging creativity in preschool age children Young at Art is the first and only comprehensive book for the general audience about the nature value and impact of art on very young children Directed towards parents and educators of one to five year olds Susan Striker explains why children s art is not a frill but the very foundation upon which all later fundamental skills are built She drives home the idea that encouraging children s artistic growth will have beneficial effects on all other aspects of their emotional and intellectual development At the core of this practical guide is the understanding that art is an

important tool in teaching young children crucial concepts related to self expression reading and writing As opposed to more structured exercises such as coloring on dittos and underlining pictures in workbooks Striker stresses that scribbling and free drawing experiments are the most important art activities a child can engage in they better prepare children to read independently as they grow Young at Art provides descriptions for age appropriate art activities tips for carrying them out safely and helps parents recognize what a child s art work should look like at each stage of development With Young at Art parents will develop realistic expectations of their children s work learn how to speak to their children about their art and facilitate skills well beyond their creativity that will benefit children *Young People's Visions of the World: Title.pdf; 02 Cover-MS1; 03 REVISED eBooks End User License Agreement-Website; 04 Contents-MS; 05 About the Editors-; 06 Foreword-DONE; 07 Preface-DONE; 08 Contributors-MS1; 09 Acknowledgements-DONE; 10 Introduction; 11 Chapter 1; 12 Chapter 2; 13 Chapter 3; 14 Chapter 4; 15 Chapter 5; 16 Chapter 6; 17 Chapter 7; 18 Chapter 8; 19 Chapter 9; 20 Chapter 10; 21 chapter 11; 22 Chapter 12; 23 Chapter 13; 24 Chapter 14; 25 Chapter 15; 26 Chapter 16; 27 index* Teresa Torres De Eca,Rachel Kroupp,Bick Har Lam,2011 It is widely agreed in art education literature that art educators need to think about the possibility of widening the concept of art education Educators need to understand the context of learning and for that they need to understand student interests in both local and global aspects This book values young people s expression of their own culture and personal interests It is unique in that the starting point is the drawings of the young people not to illustrate a predetermined theory but to enable young people from different countries to express their visions about the world illustrati **The Journal of General Education** ,1982 **Studies in Art Education** ,2004
