Living Words Terence J. Martin, 1998 In particular Martin commends the habit of critical thinking and an appreciation for irony and an irenic approach to opposition as helpful stances for improving people's efforts to talk about religion In addressing rhetorical and hermeneutical issues commonly found in philosophical theology and the philosophy of religion this work's approach through the genre of dialogue will interest those concerned with the intersection of religion and literature

The Oxford Handbook of Eighteenth-Century Satire Paddy Bullard, 2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century's novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period's philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period's texts can come together

Leon Battista Alberti Martin McLaughlin, 2024-06-18 A fresh accessible and rounded synthesis of the life and literary work of an important Renaissance figure [Nietzsche and the Becoming of Life](#) Vanessa Lemm, 2014-10-15 This exciting collection of essays challenges existing interpretations of several key moments of Nietzsche's philosophy Paul Patton Scientia Professor of Philosophy University of New South Wales Australia Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes

stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life's becoming on Earth by engaging various interpretative paradigms reaching from existentialist to Darwinist readings of Nietzsche. In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life, the essays in this volume propose a more skeptical view. Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism. Nietzsche's philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living.

Early Classical Authors on Jesus Margaret H. Williams, 2022-10-20 Margaret H. Williams examines how classical writers saw and portrayed Jesus, engaging with the fact that as the originator of a new and still existing world religion, Jesus of Nazareth, otherwise known as Christus Christ, is an individual of indisputable historical significance. Williams shows how from the outset, Jesus was a controversial figure. Contemporary Jews in the Roman province of Judaea tended either to adore or to abhor him. When, indeed, his fame spread throughout the wider Roman empire, reactions to him there, among both Jews and non-Jews, were no less divergent. Each of the early classical writers who makes mention of him, the historian Tacitus, the biographer Suetonius, the epistolographer Pliny, and the satirist Lucian, takes a different view of him and presents him in a different way. Williams considers these different depictions and questions why these writers had such differing views of Jesus. To answer this question, Williams examines not only the different literary conventions by which each of these writers was bound, but also to the social, cultural, and religious contexts in which they operated.

Among Women Nancy Sorkin Rabinowitz, Lisa Auanger, 2009-06-03 Women's and men's worlds were largely separate in ancient Mediterranean societies, and in consequence, many women's deepest personal relationships were with other women. Yet relatively little scholarly or popular attention has focused on women's relationships in antiquity, in contrast to recent interest in the relationships between men in ancient Greece and Rome. The essays in this book seek to close this gap by exploring a wide variety of textual and archaeological evidence for women's homosocial and homoerotic relationships from prehistoric Greece to fifth century CE Egypt. Drawing on developments in feminist theory, gay and lesbian studies, and queer theory, as well as traditional textual and art historical methods, the contributors to this volume examine representations of women's lives with other women, their friendships, and sexual subjectivity. They present new interpretations of the evidence offered by the literary works of Sappho, Ovid, and Lucian, Bronze Age frescoes, and Greek vase painting, funerary reliefs, and other artistic representations, and Egyptian legal documents.

Walt Whitman and the Class Struggle Andrew Lawson, 2009-11 By reconsidering Whitman not as the proletarian voice of American diversity but as a historically specific poet with roots in the antebellum lower middle class Andrew Lawson in *Walt Whitman and the Class Struggle* defines the tensions and ambiguities about culture class and politics that underlie his poetry Drawing on a wealth of primary sources from across the range of antebellum print culture Lawson uses close readings of *Leaves of Grass* to reveal Whitman as an artisan and an autodidact ambivalently balanced between his sense of the injustice of class privilege and his desire for distinction Consciously drawing upon the languages of both the elite culture above him and the vernacular culture below him Whitman constructed a kind of middle linguistic register that attempted to filter these conflicting strata and defuse their tensions You shall not look through my eyes either nor take things from me You shall listen to all sides and filter them from yourself By exploring Whitman s internal struggle with the contradictions and tensions of his class identity Lawson locates the source of his poetic innovation By revealing a class conscious and conflicted Whitman he realigns our understanding of the poet s political identity and distinctive use of language and thus valuably alters our perspective on his poetry

Studies of Skin Color in the Early Royal Society Cristina Malcolmson, 2016-04-01 Arguing that the early Royal Society moved science toward racialization by giving skin color a new prominence as an object of experiment and observation Cristina Malcolmson provides the first book length examination of studies of skin color in the Society She also brings new light to the relationship between early modern literature science and the establishment of scientific racism in the nineteenth century Malcolmson demonstrates how unstable the idea of race remained in England at the end of the seventeenth century and yet how extensively the intertwined institutions of government colonialism the slave trade and science were collaborating to usher it into public view Malcolmson places the genre of the voyage to the moon in the context of early modern discourses about human difference and argues that Cavendish s *Blazing World* and Swift s
