- Spurred innovative scientific thought in the sixteenth/seventeenth century
- ♦Neo-Epicurean philosopher Pierre Gassendi (1592-1655)
 - ♦Published elaboration of Epicurean science
- ♦Milton, Whitman, Wordsworth
- ♦Darwin

Lucretius And Scientific Thought

Dean Swinford

Lucretius And Scientific Thought:

Lucretius and Scientific Thought Alban Dewes Winspear, 1963 Lucretius and Scientific Thought Alban D. Lucretius and Scientific Thought Alban Dewes 1899-1973 Winspear, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Herder and Scientific Thought H. B. Nisbet.1970 Shortened version of Herder and the Philosophy and History of Science The Scientific 100 John G. Simmons, 2000 In vivid biographical sketches the author chronicles the lives and accomplishments of the world s most influential figures in science chosen in consultation with members of the New York Academy of Sciences Photos On the **Nature of Things** Lucretius, 2025-02-22 Embark on a timeless journey with Lucretius masterpiece Rerum Natura Bonnie A. Catto, 1998-01-01 A brief biography of Lucretius History of materialist theory of the universe Detailed discussion of Lucretian originality and style Section on meter Bibliography The text includes 53 passages 1291 lines The Genius of Erasmus Darwin Christopher Upham Murray Smith, Robert Arnott, 2005 The total spanning the entire Genius of Erasmus Darwin provides insight into the full extent of Erasmus Darwin's exceptional intellect He is shown to be a major creative thinker and innovator one of the minds behind the late eighteenth century industrial revolution and one of the first if not the first to perceive the living world including humans as part of a unified evolutionary scenario The contributions here provide contextual understandings of Erasmus Darwin s thought as well as studies of particular works and accounts of the later reception of his writings In this way it is possible to see why the young Samuel Taylor Coleridge was moved to describe Darwin as the first literary character in Europe and the most original minded man Erasmus Darwin Charles Darwin s grandfather was one of the leading intellectuals of eighteenth century England He was a man with an extraordinary range of interests and activities he was a doctor biologist inventor poet linguist and botanist He was also a founding member of the Lunar Society an intellectual community that included such eminent men as James Watt and Josiah Wedgwood The Atomic Theory of Lucretius Contrasted with Modern Doctrines of Atoms and Evolution John Masson, 1884 Blood, Sweat and Tears - The Changing Concepts of Physiology from Antiquity Into Early Modern Europe Manfred Horstmanshoff, Helen King, Claus Zittel, 2012-06-22 Drawing on the methods of a wide range of academic disciplines this volume shifts the focus of the history of the body exploring the many different ways in which its physiology and its fluids were

understood in pre modern European thought The Aeneid of Virgil: book vi, ed. by H.B. Cotterill Publius Vergilius David Lynch Swerves Martha P. Nochimson, 2013-04-15 Beginning with Lost Highway director David Maro, Virgil, 1901 Lynch swerved in a new direction one in which very disorienting images of the physical world take center stage in his films Seeking to understand this unusual emphasis in his work noted Lynch scholar Martha Nochimson engaged Lynch in a long conversation of unprecedented openness during which he shared his vision of the physical world as an uncertain place that masks important universal realities He described how he derives this vision from the Holy Vedas of the Hindu religion as well as from his layman's fascination with modern physics With this deep insight Nochimson forges a startlingly original template for analyzing Lynch's later films the seemingly unlikely combination of the spiritual landscape envisioned in the Holy Vedas and the material landscape evoked by quantum mechanics and relativity In David Lynch Swerves Nochimson navigates the complexities of Lost Highway The Straight Story Mulholland Drive and Inland Empire with uncanny skill shedding light on the beauty of their organic compositions their thematic critiques of the immense dangers of modern materialism and their hopeful conceptions of human potential She concludes with excerpts from the wide ranging interview in which Lynch discussed his vision with her as well as an interview with Columbia University physicist David Albert who was one of Nochimson's principal tutors in the discipline of quantum physics On the Literature and Thought of the German Classical Era Hugh Barr Nisbet, 2021-05-20 This volume provides a valuable contribution to our knowledge of eighteenth and nineteenth century intellectual life inside and outside Germany Prof Karl S Guthke Harvard University This elegant collection of essays ranges across eighteenth and nineteenth century thought covering philosophy science literature and religion in the Age of Goethe A recognised authority in the field Nisbet grapples with the major voices of the Enlightenment and gives pride of place to the figures of Lessing Herder Goethe and Schiller These eleven essays range widely in their compass of thought and intellectual discourse dealing incisively with themes including the philosophical implications of literature and the relationship between religion science and politics. The result is an accomplished reflection on German thought but also on its rebirth as Nisbet argues for the relevance of these Enlightenment thinkers for the readers of today The first half of this collection focuses predominantly on eighteenth century thought where names like Lessing Goethe and Herder but also Locke and Voltaire feature The second has a wider chronological scope discussing authors such as Winckelmann and Schiller while branching out from discussions of religion philosophy and literature to explore the sciences Issues of biology early environmentalism and natural history also form part of this volume The collection concludes with an examination of changing attitudes towards art in the aftermath of the Age of Goethe The essays in this volume have been previously published separately but are brought together in this collection to present Nisbet's widely acclaimed perspectives on this fascinating period of German thought It will be of interest to scholars and students of the intellectual life of Europe during the Enlightenment while its engaging and lucid style will also appeal to the general reader Science and

Civilisation in China: Volume 2, History of Scientific Thought Joseph Needham, Ling Wang, 1956-01-03 The second volume of Dr Joseph Needham's great work Science and Civilisation in China is devoted to the history of scientific thought Beginning with ancient times it describes the Confucian milieu in which arose the organic naturalism of the great Taoist school the scientific philosophy of the Mohists and Logicians and the quantitative materialism of the Legalists Thus we are brought on to the fundamental ideas which dominated scientific thinking in the Chinese middle ages. The author opens his discussion by considering the remote and pictographic origins of words fundamental in scientific discourse and then sets forth the influential doctrines of the Two Forces and the Five Elements Subsequently he writes of the important sceptical tradition the effects of Buddhist thought and the Neo Confucian climax of Chinese naturalism Last comes a discussion of the conception of Laws of Nature in China and the West **Through the Daemon's Gate** Dean Swinford, 2013-10-08 This book tells the story of the early modern astronomer Johannes Kepler's Somnium which has been regarded by science historians and literary critics alike as the first true example of science fiction Kepler began writing his complex and heavily footnoted tale of a fictional Icelandic astronomer as an undergraduate and added to it throughout his life The Somnium fuses supernatural and scientific models of the cosmos through a satirical defense of Copernicanism that features witches lunar inhabitants and a daemon who speaks in the empirical language of modern science Swinford's looks at the ways that Kepler's Somnium is influenced by the cosmic dream a literary genre that enjoyed considerable popularity among medieval authors including Geoffrey Chaucer Dante John of Salisbury Macrobius and Alan of Lille He examines the generic conventions of the cosmic dream also studying the poetic and theological sensibilities underlying the categories of dreams formulated by Macrobius and Artemidorus that were widely used to interpret specific symbols in dreams and to assess their overall reliability Swinford develops a key claim about the form of the Somnium as it relates to early science Kepler relies on a genre that is closely connected to a Ptolemaic or earth centered model of the cosmos as a way of explaining and justifying a model of the cosmos that does not posit the same connections between the individual and the divine that are so important for the Ptolemaic model In effect Kepler uses the cosmic dream to describe a universe that cannot lay claim to the same correspondences between an individual s dream and the order of the cosmos understood within the rules of the genre itself To that end Kepler s Somnium is the first example of science fiction but the last example of Neoplatonic allegory Shakespeare's Treatment of Love & Marriage; And Other Essays C. H. Herford, 2025-08-23 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage The Gentleman's Magazine, 1894 Spenser's Cosmic Philosophy and His Religion Evelyn May Albright, 1929 Francis Bacon and Scientific Poetry Robert M. Schuler, 1992

The Mind of Rome Cyril Bailey, 1926
