Ludwig van Beethoven (Biography in 3 Volumes) Alexander Wheelock Thayer, 2023-12-17 In his monumental biography Ludwig van Beethoven Alexander Wheelock Thayer offers an intricate portrait of the composer meticulously assembling over

a thousand pages spread across three volumes Combining extensive archival research with a narrative style that balances scholarly rigor and engaging storytelling Thayer contextualizes Beethoven's life against the backdrop of the late 18th and early 19th centuries an era ripe with revolutionary ideas in music and society The biography delves deeply into Beethoven s artistic development personal struggles and enduring legacy while showcasing Thayer's profound appreciation for both the composer's genius and the cultural shifts occurring around him Alexander Wheelock Thayer an American musicologist born in 1817 was notably influenced by both the Romantic ideals of his time and the burgeoning field of music scholarship His dedication to uncovering the truth behind Beethoven's life was fueled by a fascination with how the composer's works reflected the tumult and triumph of human experience Thayer's meticulous attention to detail and insistence on accuracy stem from his belief that such a significant figure in music history deserved nothing less than a comprehensive and honest portrayal This biography is essential reading for anyone interested in the intersection of music history and biography Thayer s insights and the wealth of information presented provide not only a thorough understanding of Beethoven as an artist but also a glimpse into the personal challenges he faced For students musicians and general readers alike Ludwig van Beethoven is a definitive work that shines a light on the complexities of one of the world's greatest composers Beethoven Ludwig van Beethoven, 2017-11-23 This little book came into existence as if it were by chance The author had devoted himself for a long time to the study of Beethoven and carefully scrutinized all manner of books publications manuscripts etc in order to derive the greatest possible information about the hero He can say confidently that he conned every existing publication of value His notes made during his readings grew voluminous and also his amazement at the wealth of Beethoven s observations comparatively unknown to his admirers because hidden away like concealed violets in books which have been long out of print and for whose reproduction there is no urgent call These observations are of the utmost importance for the understanding of Beethoven in whom man and artist are inseparably united Within the pages of this little book are included all of them which seemed to possess value either as expressions of universal truths or as evidence of the character of Beethoven or his compositions Beethoven is brought more directly before our knowledge by these his own words than by the diffuse books which have been written about him For this reason the compiler has added only the necessary explanatory notes and on the advice of professional friends the remarks introductory to the various subdivisions of the book He dispensed with a biographical introduction there are plenty of succinct biographies which set forth the circumstances of the master s life easily to be had Those who wish to penetrate farther into the subject would do well to read the great work by Thayer the foundation of all Beethoven biography in the new revision now making by Deiters or the critical biography by Marx as revised by Behncke In sifting the material it was found that it fell naturally into thirteen subdivisions In arranging the succession of utterances care was had to group related subjects By this means unnecessary interruptions in the train of thought were avoided and interesting comparisons made possible To this end it was important that time place and circumstances of every

word should be conscientiously set down Ludwig Van Beethoven Charles River Charles River Editors, 2018-01-11 Analyzes the themes and progression of Beethoven's most famous works comparing and contrasting them to each other and other composers great works Includes pictures of important people and places in Beethoven's life Includes a bibliography for further reading Includes a list of Beethoven's works Don't only practise your art but force your way into its secrets art deserves that for it and knowledge can raise man to the Divine Beethoven Among all of history's greatest musicians few have been as admired or influential as Ludwig van Beethoven whose name remains synonymous with composing Works like his Fifth and Ninth symphonies remain instantly recognizable over 200 years after they were composed and their sweeping and grandiose nature are made all the more amazing by the fact that their author was gradually going deaf and couldn t hear music very well by the time he was composing them Similarly the Moonlight Sonata and Fur Elise are renowned across the world and are some of the most famous piano pieces of all time At the same time Beethoven's work ushered in a new era in art helping the transition from the Classical era to the Romantic era In the 180 years since his death Beethoven has been enshrined by modern society as one of the most esteemed classical composers in the history of civilization but he had a profound and immediate influence on the German musical lineage that would pass through Robert Schumann Richard Wagner Gustav Mahler and Richard Strauss all the way to composers of the 20th and early 21st centuries At a time when music was very much viewed as science Beethoven was a giant in the field and as such he was viewed as a genius As Beethoven himself once put it Music is the one incorporeal entrance into the higher world of knowledge which comprehends mankind but which mankind cannot comprehend In terms of assessing the essence of Beethoven's era character or musical output no unqualified categorization is possible for he straddled a titanic shifting of social ideologies performance and compositional practices intra continental upheavals and an emergence of the championed self in all forms of civic and artistic expressions The ideals of the Enlightenment an intellectual tide that swept throughout the late 18th century and opened the door to a new individualism did not remain static through his lifetime Beethoven was shaped by the internal and societal bent for revolutionary thought and he was eager to play his part as a public figure in reflecting and furthering its development Indeed by the late Classical age which largely deemed music a science it came to be admitted in even academic circles that music is the inarticulate outpouring of emotion Such a changing state of music s relationship to society allowed what some have called Beethoven's Promethean personality to prosper in his creative work Ludwig van Beethoven The Life and Music of the Great Composer comprehensively analyzes the themes and revolutionary advancements of Beethoven's music looking at his most famous works and comparing and contrasting them Along with pictures of important people places and events you will learn about Beethoven and his music like never before in no time at all Beethoven Maynard Solomon, 1998 Biography of Ludwig van Beethoven discussing his life music and career The Life of Ludwig van Beethoven ,1921 This authoritative biography of Ludwig van Beethoven 1770 1827 was a landmark in its meticulous research and use of source

material For the American author Alexander Wheelock Thayer 1817 97 it represented a lifelong labour of love yet it remained unfinished at his death His friend Hermann Deiters 1833 1907 edited and translated Thayer's work into German publishing three volumes which covered Beethoven's life to 1816 Since Deiters also died before the biography could be completed musicologist Hugo Riemann 1849 1919 was called upon to conclude the work The final German volumes appeared in 1907 and 1908 It was the American critic Henry Edward Krehbiel 1854 1923 who prepared the present work the first and considerably revised English version published in three volumes in 1921 Volume 1 covers Beethoven s career through to 1802 the year of the Heiligenstadt Testament The Life of Ludwig Van Beethoven; Volume 2 Alexander Wheelock Thayer, Henry Edward Krehbiel, Hugo Riemann, 2018-10-28 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Life of Beethoven Anton Schindler, 2014-10-22 ALTHOUGH on appearing for the first time as the Editor of a literary publication my feelings may be somewhat like those of a child putting on a new dress yet I feel the responsibility of my position far more than its novelty for the subject of my first essay is one not to be approached by me at least without seriousness and reverence That the amount however of this editorial responsibility may be thought neither greater nor less than it really is I must beg leave to state my precise share in this publication and to advert to the qualifications with which I have entered on my task In acceding to Mr Colburn's request that I would add to the English translation of Schindler's Biography of Beethoven which he was about to publish such explanatory notes characteristics and letters as might tend more fully to illustrate and complete the whole I had to subscribe to one clause in the agreement between Mr Schindler and the publisher namely that the work should be given as he wrote it without omission or alteration The Notes bearing my signature then are all that belong to me in these volumes The Appendix is however of my collection and will be found to consist of the following documents Beethoven, the Man and the Artist, as Revealed in His Own Words LUDWIG VAN.
