Community Nadia Awal, Jessica Field, 2024-06-28 Retail has never existed in a vacuum This interdisciplinary volume explores how English commercial co operative and charity retailing were shaped by and in turn influenced their social and political environments from the local to the global between the late nineteenth and early twenty first centuries Historians sociologists archivists and heritage professionals engage with current debates on the rise of modern business and the decline of the high street class and credit professionalisation in the voluntary sector migration and the end of empire This book will be a key resource to better understand retail and community in an era defined by social change shedding new light on the enduring centrality of community relationships to modern retailers *The Routledge Companion to the History of Retailing* Jon

Stobart, Vicki Howard, 2018-11-08 Retail history is a rich cross disciplinary field that demonstrates the centrality of retailing to many aspects of human experience from the provisioning of everyday goods to the shaping of urban environments from earning a living to the construction of identity Over the last few decades interest in the history of retail has increased greatly spanning centuries extending to all areas of the globe and drawing on a range of disciplinary perspectives By offering an up to date comprehensive thematic spatial and chronological coverage of the history of retailing this Companion goes beyond traditional narratives that are too simplistic and Euro centric and offers a vibrant survey of this field It is divided into four broad sections 1 Contexts 2 Spaces and places 3 People processes and practices and 4 Geographical variations Chapters are written in an analytical and synthetic manner accessible to the general reader as well as challenging for specialists and with an international perspective This volume is an important resource to a wide range of readers including marketing and management specialists historians geographers economists sociologists and urban planners *Mail Order Retailing in*

Britain Richard Coopey, Sean O'Connell, Dilwyn Porter, 2005-01-27 This book traces the rise of firms including Kay and Co Grattan Empire Stores and Littlewoods It examines the ways in which these firms created and exploited social networks through the agency system and credit provision among the British working class The book also traces the origins of internet based home shopping in the UK Provided by publisher Consuming Behaviours Erika Rappaport, Sandra Trudgen

Dawson, Mark J. Crowley, 2020-05-26 In twentieth century Britain consumerism increasingly defined and redefined individual and social identities New types of consumers emerged the idealized working class consumer the African consumer and the teenager challenged the prominent position of the middle and upper class female shopper Linking politics and pleasure Consuming Behaviours explores how individual consumers and groups reacted to changes in marketing government control popular leisure and the availability of consumer goods From football to male fashion tea to savings banks leading scholars

consider a wide range of products ideas and services and how these were marketed to the British public through periods of imperial decline economic instability war austerity and prosperity The development of mass consumer society in Britain is examined in relation to the growing cultural hegemony and economic power of the United States offering comparisons between British consumption patterns and those of other nations Bridging the divide between historical and cultural studies approaches Consuming Behaviours discusses what makes British consumer culture distinctive while acknowledging how these consumer identities are inextricably a product of both Britain s domestic history and its relationship with its Empire with Europe and with the United States *Wanting and having* Peter Gurney,2015-11-01 Nineteenth century England witnessed the birth of capitalist consumerism Early department stores shopping arcades and provision shops of all kinds proliferated from the start of the Victorian period testimony to greater diffusion of consumer goods However while the better off enjoyed having more material things masses of the population were wanting even the basic necessities of life during the Hungry Forties and well beyond Based on a wealth of contemporary evidence and adopting an interdisciplinary approach *Wanting and having* focuses particularly on the making of the working class consumer in order to shed new light on key areas of major historical interest including Chartism the Anti Corn Law League the New Poor Law popular liberalism and humanitarianism It will appeal to scholars and general readers interested in the origins and significance of consumerism across a range of disciplines including social and cultural history literary studies historical sociology and politics

Shopping and Crime J. Bamfield,2012-03-13 An interdisciplinary study of retail crime as a cultural phenomenon drawing on economics criminology and management to present a comprehensive explanation for the growth in retail thefts This topical study explores crime prevention as a management issue using criminomics a concept based on commercial realities rather than maximising arrests **The Social Cost of Cheap Food** Sébastien Rioux,2019-09-26 The distribution of food played a considerable yet largely unrecognized role in the economic history of Victorian and Edwardian Britain In the midst of rapid urbanization and industrialization retail competition intensified and the channels by which food made it to the market became vital to the country s economic success Illustrating the pivotal importance of food distribution in Britain between 1830 and 1914 *The Social Cost of Cheap Food* argues that labour exploitation in the distribution system was the key to cheap food Through an analysis of labour dynamics and institutional changes in the distributive sector S bastien Rioux demonstrates that economic development and the rising living standards of the working class were premised upon the growing insecurity and chronic poverty of street sellers shop assistants and small shopkeepers Rioux reveals that food distribution far from being a passive sphere of economic activity provided a dynamic space for the reduction of food prices Positing food distribution as a core element of social and economic development under capitalism *The Social Cost of Cheap Food* reflects on the transformation of the labour market and its intricate connection to the history of food and society

Strategic Transformation M. Hensmans,G. Johnson,G. Yip,2012-12-11 Very few companies are successful in

undertaking strategic transformation while maintaining long term superior financial performance This book by leading strategy experts draws upon extensive interviews with business leaders and insights from companies faced with this challenge

Sugar and Spice Jon Stobart, 2016-12-01 Consumers in eighteenth century England were firmly embedded in an expanding world of goods one that incorporated a range of novel foods tobacco chocolate coffee and tea and new supplies of more established commodities including sugar spices and dried fruits Much has been written about the attraction of these goods which went from being novelties or expensive luxuries in the mid seventeenth century to central elements of the British diet a century or so later They have been linked to the rise of Britain as a commercial and imperial power whilst their consumption is seen as transforming many aspects of British society and culture from mealtimes to gender identity Despite this huge significance to ideas of consumer change we know remarkably little about the everyday processes through which groceries were sold bought and consumed In tracing the lines of supply that carried groceries from merchants to consumers Sugar and Spice reveals how changes in retailing and shopping were central to the broader transformation of consumption and consumer practices but also questions established ideas about the motivations underpinning consumer choices It demonstrates the dynamic nature of eighteenth century retailing the importance of advertisements in promoting sales and shaping consumer perceptions and the role of groceries in making shopping an everyday activity At the same time it shows how both retailers and their customers were influenced by the practicalities and pleasures of consumption They were active agents in consumer change shaping their own practices rather than caught up in a single socially inclusive cultural project such as politeness or respectability
