Nationalsozialistische Herrschaft:

Nationalsozialistische Herrschaft Ulrich von Hehl, 2010-10-01 An Darstellungen ber das Dritte Reich besteht kein Mangel Umso erw nschter ist eine Optimierung die einen raschen Zugriff auf die Fakten und ihre Einordnung und Bewertung erlaubt Der vorliegende Band gibt daher nicht nur einen enzyklop dischen berblick zur inneren Herrschaftsgeschichte des Nationalsozialismus mitsamt einer wohlabgewogenen Literatúrauswahl Im zweiten Teil werden zeitliche Schwerpunkte und perspektivische Blickverlagerungen in der Forschung ebenso angesprochen wie zentrale Forschungskontroversen Gerade der bis in die Lebenswelt reichende Streit um die Deutung erweist sich als ein ungemein belebendes Element der NS

Forschung zeigt er doch deren Bedeutung f r das aktuelle Geschichtsbild der Deutschen **Die nationalsozialistische**

Herrschaft 1933-1939 Magnus Brechtken, 2013-05-01 Die sechs Jahre der so genannten Friedenszeit der nationalsozialistischen Herrschaft 1933 1939 sind eine der komprimiertesten ereignisreichsten Epochen der Geschichte Magnus Brechtken bietet einen optimierten berblick ber die wichtigsten Ereignisse gesellschaftlichen Entwicklungen sowie ber den Radikalisierungsprozess Anhand thematisch gegliederter Kapitel zu den Bereichen Ideologie Herrschaftstechnik Außenpolitik Wirtschaft und Arbeit Rassenpolitik und Verfolgung Vertreibung und Emigration sowie Kunst Kultur und Wissenschaft gelingt ihm eine strukturierte Gesamtdarstellung nationalsozialistischer Herrschaft von der Machtergreifung bis zum Beginn des Zweiten Weltkrieges Damit legt er zugleich eine konzise Interpretation dieser Zeit vor die vor allem auf der Analyse des Wechselverh ltnisses von Machtpragmatismus und der Umsetzung der nationalsozialistischen Ideologie basiert The Faustian Bargain Jonathan Petropoulos, 2000 This book follows the careers of five prominent individuals who chose to pursue artistic ends through collaboration with Nazi Germany and put their talents to work for Hitler 50 halftones

The Law in Nazi Germany Alan E. Steinweis, Robert D. Rachlin, 2013-03-01 While we often tend to think of the Third Reich as a zone of lawlessness the Nazi dictatorship and its policies of persecution rested on a legal foundation set in place and maintained by judges lawyers and civil servants trained in the law This volume offers a concise and compelling account of how these intelligent and welleducated legal professionals lent their skills and knowledge to a system of oppression and domination The chapters address why German lawyers and jurists were attracted to Nazism how their support of the regime resulted from a combination of ideological conviction careerist opportunism and legalistic selfdelusion and whether they were held accountable for their Nazi era actions after 1945 This book also examines the experiences of Jewish lawyers who fell victim to anti Semitic measures The volume will appeal to scholars students and other readers with an interest in Nazi Germany the Holocaust and the history of jurisprudence Nationalsozialistische Herrschaft in der Provinz Ernst

Hanisch, 1983 **Slavs in Post-Nazi Austria** Robert Knight, 2017-02-09 Robert Knight s book examines how the 60 000 strong Slovene community in the Austrian borderland province of Carinthia continued to suffer in the wake of Nazism s fall It explores how and why Nazi values continued to be influential in a post Nazi era in postwar Central Europe and provides

valuable insights into the Cold War as a point of interaction of local national and international politics Though Austria was re-established in 1945 as Hitler's first victim many Austrians continued to share principles which had underpinned the Third Reich Long treated as both inferior and threatening prior to the rise of Hitler and then persecuted during his time in power the Slovenes of Carinthia were prevented from equality of schooling by local Nazis in the years that followed World War Two behavior that was tolerated in Vienna and largely ignored by the rest of the world Slavs in Post Nazi Austria uses this vital case study to discuss wider issues relating to the stubborn legacy of Nazism in postwar Europe and to instill a deeper understanding of the interplay between collective and individual liberal rights in Central Europe This is a fascinating study for anyone interested in knowing more about the disturbing imprint that Nazism left in some parts of Europe in the postwar years

The Origins of the Second World War: An International Perspective Frank McDonough, 2011-09-22 Many major world events have occurred since the last key anniversary of the beginning of the Second World War and these events have had a dramatic impact on the international stage 9 11 the Iraq War climate change and the world economic crisis This is an opportune moment to bring together a group of major international experts who will offer a series of new interpretations of the key aspects of the origins of the Second World War Each chapter is based on original archival research and written by scholars who are all leading experts in their fields This is a truly international collection of articles with wide breadth and scope which includes contributions from historians and also political scientists gender theorists and international relations experts This is an important contribution to scholarly debate on one of the most important events of the 20th century and a subject of major interest to the general reader historians students and researchers policy makers and conflict prevention experts

Visions of Community in Nazi Germany Martina Steber, Bernhard Gotto, 2018-07-16 When the Nazis seized power in Germany in 1933 they promised to create a new harmonious society under the leadership of the Führer Adolf Hitler The concept of Volksgemeinschaft the people's community enshrined the Nazis vision of society a society based on racist social Darwinist anti democratic and nationalist thought The regime used Volksgemeinschaft to define who belonged to the National Socialist community and who did not Being accorded the status of belonging granted citizenship rights access to the benefits of the welfare state and opportunities for advancement while those who were denied the privilege of belonging lost their right to live They were shamed excluded imprisoned murdered Volksgemeinschaft was the Nazis project of social engineering realized by state action by administrative procedure by party practice by propaganda and by individual initiative Everyone deemed worthy of belonging was called to participate in its realization Indeed this collective notion was directed at the individual and unleashed an enormous dynamism which gave social change a particular direction The Volksgemeinschaft concept was not strictly defined which meant that it was rather marked by a plurality of meaning and emphasis which resulted in a range of readings in the Third Reich drawing in people from many social and political backgrounds *Visions of Community in Nazi Germany* scrutinizes Volksgemeinschaft as the Nazis central vision of community The contributors

engage with individual appropriations examine projects of social engineering analyze the social dynamism unleashed and show how deeply private lives were affected by this murderous vision of society **Nazi Germany** Harald

Kleinschmidt, 2017-05-15 The volume reproduces a set of recently published articles demonstrating the embeddedness of Nazi genocide and other crimes against humanity in a German society that was haunted by practices of denunciation Far from being an inexplicable invasion of evil into otherwise sound German society the genocide and other crimes against humanity were committed not merely by members of SS organizations but by common people civilians and military men alike within Germany as well as in occupied territories during the late 1930s and World War II Although analyzing the past the book also seeks contribute to current debates on the causes of genocide and other crimes against humanity *The Remnants of the Rechtsstaat* Jens Meierhenrich, 2018-02-22 This book is an intellectual history of Ernst Fraenkel's *The Dual State* 1941 reissued 2017 one of the most erudite books on the theory of dictatorship ever written Fraenkel's was the first comprehensive analysis of the rise and nature of Nazism and the only such analysis written from within Hitler's Germany His sophisticated not to mention courageous analysis amounted to an ethnography of Nazi law As a result of its clandestine origins *The Dual State* has been hailed as the ultimate piece of intellectual resistance to the Nazi regime In this book Jens Meierhenrich revives Fraenkel's innovative concept of the dual state restoring it to its rightful place in the annals of public law scholarship Blending insights from legal theory and legal history he tells in an accessible manner the remarkable gestation of Fraenkel's ethnography of law from inside the belly of the behemoth In addition to questioning the conventional wisdom about the law of the Third Reich Meierhenrich explores the legal origins of dictatorship elsewhere then and now The book sets the parameters for a theory of the authoritarian rule of law a cutting edge topic in law and society scholarship with immediate policy implications
