Radio for the Millions Isabel Huacuja Alonso, 2023-01-03 Co winner 2023 AIPS Book Prize American Institute of Pakistan Studies Finalist 2023 Richard Wall Memorial Award Theatre Library Association From news about World War II to the broadcasting of music from popular movies radio played a crucial role in an increasingly divided South Asia for more than half a century Radio for the Millions examines the history of Hindi Urdu radio during the height of its popularity from the 1930s to the 1980s showing how it created transnational communities of listeners Isabel Huacuja Alonso argues that despite British Indian and Pakistani politicians efforts to usurp the medium for state purposes radio largely escaped their grasp She demonstrates that the medium enabled listeners and broadcasters to resist the cultural linguistic and political agendas of the British colonial administration and the subsequent independent Indian and Pakistani governments Rather than being merely a tool of nation building in South Asia radio created affective links that defied state agendas policies and borders It forged an enduring transnational soundscape even after the 1947 Partition had made a united India a political impossibility Huacuja Alonso traces how people engaged with radio across news music and drama broadcasts arguing for a more expansive definition of what it means to listen She develops the concept of radio resonance to understand how radio relied on circuits of oral communication such as rumor and gossip and to account for the affective bonds this talk created By analyzing Hindi film song radio programs she demonstrates how radio spurred new ways of listening to cinema Drawing on a rich collection of sources including newly recovered recordings listeners letters to radio stations original interviews with broadcasters and archival documents from across three continents Radio for the Millions rethinks assumptions about how the medium connects with audiences

The Art of Self-Improvement Anna Katharina Schaffner, 2021-01-01 A brilliant distillation of the key ideas behind successful self improvement practices throughout history showing us how they remain relevant today Schaffner finds more in contemporary self improvement literature to admire than criticize A revelatory book Kathryn Hughes Times Literary Supplement Self help today is a multi billion dollar global industry one often seen as a by product of neoliberalism and capitalism Far from being a recent phenomenon however the practice of self improvement has a long and rich history extending all the way back to ancient China For millennia philosophers sages and theologians have reflected on the good life and devised strategies on how to achieve it Focusing on ten core ideas of self improvement that run through the world s advice literature Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras and why they continue to resonate with us today Reminding us that there is much to learn from looking at time honed models Schaffner also examines the ways that self improvement practices provide powerful barometers of the values anxieties and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature

Ventimiglia, 2016-09-22 Free to Run the Race describes the living out of our life in Christ Hebrews 12 1 It speaks of running with endurance the race that is set before us This can be done by fixing our eyes on Jesus Undoing the Burden of Parental Disregard speaks to a specific encumbrance that weighs the runner down making it harder to keep focus and finish the race The burden is called parental disregard It is not being allowed to be oneself to pursue one s inner direction or natural proclivity in one s life It is the experience of developmental woundedness that says being oneself in temperament aptitudes natural talents and the expressing of this is prohibited Prov 22 6 says train up a child according to his own way The burden of parental disregard is the emotional pain in living out an identity that is not based on any expression of one s natural way s or bent s This makes the development of trust in a heavenly Father parent difficult The relieving of this burden takes a ruthlessly honest focus on this woundedness and its working out its implications honestly that allows a more truthful understanding of God s love for our lives **Catholic Higher Education in Protestant America** Kathleen A. Mahoney, 2004-12-01 Winner of the 2005 New Scholar Book Award given by Division F History and Historiography of the American Educational Research Association In 1893 Harvard University president Charles W Eliot the father of the modern university helped implement a policy that in effect barred graduates of Jesuit colleges from regular admission to Harvard Law School The resulting controversy bitterly contentious and widely publicized was a defining moment in the history of American Catholic education illuminating on whose terms and on what basis Catholics and Catholic colleges would participate in higher education in the twentieth century In Catholic Higher Education in Protestant America Kathleen Mahoney considers the challenges faced by Catholics as the age of the university opened She describes how liberal

Protestant educators such as Eliot linked the modern university with the cause of a Protestant America and how Catholic students and educators variously resisted accommodated or embraced Protestant inspired educational reforms Drawing on social theories of cultural hegemony and insider outsider roles Mahoney traces the rise of the Law School controversy to the interplay of three powerful forces the emergence of the liberal nonsectarian research university the development of a Catholic middle class whose aspirations included attendance at such institutions and the Catholic church s increasingly strident campaign against modernism and by extension the intellectual foundations of modern academic life

Thinking Through Revelation Robert J. Dobie,2019-01-09 Navigating the seemingly competing claims of human reason and divine revelation to truth is without a doubt one of the central problems of medieval philosophy Medieval thinkers argued a whole gamut of positions on the proper relation of religious faith to human reason Thinking Through Revelation attempts to ask deeper questions what possibilities for philosophical thought did divine revelation open up for medieval thinkers How did the contents of the sacred scriptures of Judaism Christianity and Islam put into question established philosophical assumptions But most fundamentally how did not merely the content of the sacred books but the very mode in which revelation itself is understood to come to us as a book sent down from on high as a covenant between God and his people or as incarnate person create or foreclose possibilities for the resolution of the philosophical problems that the Abrahamic revelations themselves raised
