Options For Managing And Financing Rural Transport Infrastructure:

Options for Managing and Financing Rural Transport Infrastructure Christina Malmberg Calvo, 1998-01-01 World Bank Technical Paper No 409 In developing and transition economies 60 to 80 percent of all passenger and freight transport moves by road the main form of access for most rural communities Yet most of the 11 million kilometers of roads in these economies are badly maintained and poorly managed This paper discusses one of the most effective ways to promote sound policies for managing and financing road networks commercialization It discusses the emerging central concept of bringing roads into the marketplace putting them on a fee for service basis and managing them like a business *Design and Appraisal of Rural Transport Infrastructure* Jerry Lebo, Dieter Schelling, 2001-01-01 Printed on Demand Limited stock is held for this title If you would like to order 30 copies or more please contact books worldbank org Contact books worldbank org if currently unavailable This paper is part of a four volume series of publications on rural transport promoted by the World Bank s Rural Transport Thematic Group under the aegis of its knowledge management activities The four volumes are Options for Managing and Financing Rural Transport Infrastructure Improving Rural Mobility Developing Rural Transport Policies and Strategies and this paper on Design and Appraisal of Rural Transport Infrastructure [Africa's Transport Infrastructure](#) Heinrich Bofinger, 2011-01-01 This book will be of interest to governments in the region and to multilateral and bilateral aid and lending agencies as well as to graduate students faculty and researchers in African studies and transport studies Book Jacket **Management of Water Resources** Musa Asad, 1999-01-01 Although procedures for pricing retail distribution have been established for a long time methods for pricing bulk or wholesale water supplies are still evolving How to finance the infrastructure and service of bulk water supply and how to use pricing to achieve efficient allocation and use of water as a resource are the central issues that emerge from discussions about bulk water pricing Efficiency will lead to allocating water resources better reducing water losses caused by poor maintenance of the supply systems and increased monitoring of water quality At first glance Brazil may not appear to be a relevant country from which to draw lessons in distributing scarce water resources since it contains 12 percent of the world s fresh water supply However with its vast territory and issues of regional drought and population explosion Brazil provides a unique environment in which to demonstrate how adequate pricing of bulk water on a regional level can help allocate water efficiently This paper offers a framework for bulk water pricing reform and examines the lessons from recent analytical work and practice in Brazil as well as relevant international experience It then offers recommendations for the development of both water pricing and allocation policies to facilitate continued implementation of bulk water pricing in Brazil **Subnational Budgeting in Russia** Lev M. Freinkman, Daniel Treisman, Stepan Titov, 1999-01-01 Not only are Russia s regions economically diverse but the policies that regional governments have adopted to deal with the strains of economic transition also vary widely Some regions have generally embraced market reforms while others have sought to preserve enclaves of socialism with price restrictions large

subsidies and barriers to trade Reforms of Russia's budgetary system at the subnational level are vital to preserve macroeconomic stability improve the efficiency and accountability of government and enhance incentives for local and regional governments to vigorously support economic growth Previous analytical and reform efforts have focused on possible changes at the federal level and in the system of center region relations An opportunity now exists to make progress by providing reform advice and conditional aid to policymakers at the regional and subregional level This report focuses on opportunities for reform at the subnational level It reviews recent trends in fiscal adjustment budgeting and government debt at the regional and local levels in Russia It analyzes major problems and suggests a number of measures and performance indicators that could form part of a reform strategy initiated by the Government of Russia **Trade and Cost**

Competitiveness in the Czech Republic, Hungary, Poland, and Slovenia Peter Havlik, 2000-01-01 Although the four countries considered in this study are the most developed transition countries in Europe their average wages are only a fraction of West European levels While the labor costs would theoretically give the Central and Eastern European CEEC countries an advantage capital shortages and the lack of skills required for a market economy prevent its use The report was prepared under the auspices of the World Bank by Peter Havlik Deputy Director of the Vienna Institute for International Economic Studies WIIW This report reviews wage and labor productivity developments and examines the evolution of export competitiveness It also summarizes the main findings from the ongoing research by WIIW on the impact of foreign direct investment on restructuring and provides some policy recommendations **Hungary**, 1999-01-01 Published by Oxford University Press for the World Bank Some people may believe that crises are an inevitable feature of the capitalist system Others hold that exchange rate crises will vanish as more and more countries adopt floating exchange rates But some of us believe that crises can be avoided or at least limited by good economic management and that having a reasonable idea of where the equilibrium exchange rate lies is an essential requirement for good macro management John Williamson Chief Economist South Asia Region World Bank Exchange Rate Misalignment provides a comprehensive treatment of the conceptual and empirical issues concerning measuring exchange rate misalignment in developing countries The report hopes to provide policymakers and their advisors with a compendium of practical techniques for estimating equilibrium real exchange rates The book analyzes in detail four methodologies for the empirical estimation of the long run equilibrium real exchange rate The findings of the report include An assessment of alternative empirical measures of the internal and external real exchange rates An up to date survey of the literature on estimating equilibrium exchange rates in both industrial and developing countries A detailed presentation of currently available methodologies for empirically estimating the equilibrium exchange rate in developing countries The analytical depth and practical techniques provided in Exchange Rate Misalignment make this book an invaluable resource for policymakers and foreign exchange specialists in the public and private sector **Farm Sector Restructuring in Belarus** Csaba Csáki, Zvi Lerman, Serge? Sotnikov, 2000 Agriculture

remains the main source of employment and livelihood for the large rural population of many transition countries especially among the former Soviet republics Accordingly the World Bank continuously monitors the progress of land reform and farm restructuring in the region because of the potential impact of these processes on rural development and poverty alleviation in rural areas The present study on Belarus is the latest addition to a long and growing series of World Bank publications on land reform and farm restructuring in the former socialist countries of Europe and Central Asia The unique features of all these publications is their reliance on first hand empirical information collected through extensive farm surveys of various rural constituencies Analysis of survey findings enables the World Bank to base its policy dialogue with governments in the region on solid empirical facts making the Bank's recommendations more credible and relevant The survey findings in this volume will provide a platform for useful policy discussions with this country's government and supply international donors that are active there with essential information to design their strategic programs *Himalayan Mobilities* Robert E.

Beazley, James P. Lassoie, 2017-06-22 The goals of this book are to update information on the effects of rural road development both in Nepal and globally explain the environmental socioeconomic and sociocultural impacts of expanding rural road networks in the Nepalese Himalaya and to promote further studies on rural road development throughout the world based on studies and investigations performed in Nepal Readers will learn about the history of rural road development as well as the challenges to effectively design and construct rural roads and how these obstacles may be overcome Chapter one offers a global review of road development and both the positive and negative impacts of rural road implementation Chapter two defines mobilities within the context of coupled social and ecological systems specifically in the Nepalese Himalaya Chapters three through five detail the environmental socioeconomic and sociocultural impacts expanding rural road networks through several case studies The concluding chapter summarizes the findings of the book discussing the need for interdisciplinary cooperation and collaboration to avoid negative consequences This book will be of interest to teachers researchers policy makers and development organizations **The City Poverty Assessment** Jesko Hentschel, Radha

Seshagiri, 2000-01-01 Cities and towns are increasingly becoming the primary locus of poverty in many countries Rural urban migration and low urban mortality rates have contributed to the rapid population growth of cities in many parts of the world With such rapid growth comes an increasing concentration of poverty in urban areas In parallel more countries assign local governments increased responsibility in fighting poverty With decentralization the responsibility of local social policy goes beyond the execution of centrally designed and funded education and health programs In many countries local policymakers today decide on tax rates expenditure policies development of new assistance programs incentives for local economic development land and zoning laws and more The formulation of pro poor local policies requires good information analyses Local governments and their partners have both an opportunity and a need to understand the determinants of poverty and impediments for its reduction This paper is an introduction to how such local information on poverty can be gathered and

analyzed It provides local policy makers with a broad overview of the type of questions typically asked and answered in City Poverty Assessments As the nature of poverty differs widely between cities and countries so will the content of such poverty assessments as they have to be adapted to local needs This publication will be of interest to city policy makers international organizations nongovernmental organizations and urban practitioners

Court Performance Around the World Maria Dakolias,1999-01-01 World Bank Technical Paper no 430 QUOTEMany countries are undertaking legal and judicial reforms as part of their overall development programs there is increasing recognition that economic and social progress requires consolidation of democracy as well as respect for the rule of law and human rights without these development is not sustainable QUOTEMany developing countries find that their judiciaries are inconsistent in conflict resolution and carry a large backlog of cases thus stifling private sector growth eroding individual and property rights and perhaps even violating human rights Delays affect both the fairness and the efficiency of the system They impede the public s access to the courts which in effect weakens democracies the rule of law and the ability to enforce human rights This paper aims to describe and explain the performance of court systems in a sample of developing and developed countries in order to provide data to those designing or evaluating reforms The study also seeks to show areas in which international comparison of judicial performance can be fruitful suggesting indicators that can be used in such comparisons Finally it endeavors to provide comparisons of performance within individual countries over time

Municipal Solid Waste Incineration T. Rand,J. Haukohl,U. Marxen,2000-01-01 Ever increasing amounts of solid waste and dwindling space for disposal is a problem reaching crisis level in many of the world s largest urban areas Incineration as an alternative to landfill has come under scrutiny though the capital and operating costs generally exceed those associated with landfill This report provides background information for the Decision maker guide to municipal solid waste MSW incineration Key criteria for a solid waste incineration scheme are identified and the report gives decision makers information on how to investigate and assess the degree to which they are fulfilled

Food and Agriculture in Bulgaria Csaba Csáki,2000 Agriculture traditionally played a significant role in the Bulgarian economy Before the present decade Bulgaria was a major exporter of fresh and processed fruits and vegetables within Eastern and Central Europe While the Bulgarian government has progressed rapidly since 1997 the delay in reforms has rendered Bulgarian food products as noncompetitive on the international market Also many important components of the transition are not completed This report reviews the recent history and current state of Bulgarian agriculture and agroindustry It examines the status of the sectoral reforms program including reforms affecting pricing and trade rural finance land markets and agroindustry with emphasis on evaluating its progress toward meeting the criteria for EU accession It highlights the tremendous advances made recently and also suggests an agenda for prioritizing the remaining obstacles This report is intended for agricultural scientists public officials politicians agricultural and agroindustrial leaders economic researchers and others interested in the transformation of agriculture in the transition

economies and in issues pertaining to accession of Central and East European candidate countries to the European Union

A Diagnostic Framework for Revenue Administration Jit B. S. Gill, 2000-01-01 A systematic diagnosis of a revenue administration is a prerequisite to developing a successful strategy for its reform. However, given the complexity of tax and customs administration, this is not a simple task. A host of external and internal factors need to be analyzed to uncover the roots of organizational and institutional dysfunction. Also, the diagnosis needs to be done in a participatory manner to build consensus around the causes for inadequate performance and their remedies. This framework enables a step-by-step analysis of the environment, history, resources, strategy, transformation processes, outputs, and feedback mechanisms of the revenue administration system with a view to identifying systemic deficiencies that lead to inefficiency and ineffectiveness in its operations. Besides a detailed set of diagnostic questions for each area of analysis, the framework provides illustrations of frequently encountered problems and their possible remedies. The framework can be used in a group setting involving different stakeholders to guide brainstorming sessions and draft reform strategies.

Assessment of Corporate Sector Value and Vulnerability Dale F. Gray, 1999-01-01 Once equity has fallen below a certain threshold for a significant period of time, it triggers a suspension of debt payments and distorts incentives for equity holders and managers. But what is a significant period of time? You or I could pay a 10 million annual mortgage payment for a day or two but not two or three months. Similarly, owners and managers can withstand short periods of illiquidity or negative equity but not longer ones. At some point in time, the inability to meet obligations and perception of continued difficulties creates a system-wide breakdown in debt payments. The relationship between the corporate sector and a country's macroeconomy is receiving increased attention from policymakers and investors, especially those affected by the Asian crisis. Recent crises have pointed out the importance of improving our understanding of the links between the corporate sector, the financial sector, and the macroeconomy in a world of volatile capital flows. Assessing the vulnerability of the corporate sector and its links to financial and exchange rate crisis is important for both improved surveillance and in the design of policies in crisis countries. However, the analytical and operational tools available to policymakers and investors to analyze this problem have been limited. This Technical Paper was prepared as part of an initiative to develop new frameworks which can integrate state-of-the-art corporate finance principles, macroeconomic and financial sector analysis. An innovative yet practical framework is provided which has numerous applications for assessing corporate sector vulnerability, design of corporate restructuring strategies, as well as financial sector and macroeconomic policies. It will be of interest to bankers, economic policymakers, corporate finance specialists, and macroeconomists.

Groundwater Salman M. A. Salman, 1999-01-01 Water is becoming an increasingly scarce resource for most of the world's citizens. The current trends indicate that the overall situation is likely to deteriorate further at least for the next decade unless the water profession eschews business as usual practices which can only allow incremental changes to occur. Groundwater is the least understood and least appreciated yet the most important natural resource available to

mankind Groundwater represents about 97% of the existing fresh water resources excluding the resources locked in polar ice More than one and a half billion people in the urban parts of the world today depend on groundwater Groundwater supply is more reliable than the seasonal and sometimes erratic surface water and provides the main line of defense against drought Moreover the quality of groundwater is by and large superior to surface water and cheaper to develop However when available data on groundwater is very scanty As a result the World Bank is now paying increasing attention to this valuable resource through both operations and sector work This publication represents the proceeding of the seminar Groundwater Legal and Policy Perspectives that was organized by the Legal Vice Presidency of the World Bank It explains some basic technical aspects of groundwater surveys the regulatory framework for it and discusses the World Bank experience and international law regarding this precious resource It is a timely publication and should also assist in a better understanding and appreciation of this valuable source It will be of interest to Bank staff borrowing country officials international agencies and research organizations working on groundwater

The Role of Foreign Direct Investment and Trade Policies in Poland's Accession to the European Union, 1999-01-01 This study examines the role of Foreign Direct Investment FDI and trade policies with regard to Poland's accession to the EU It also discusses developments in foreign trade market access for Polish products and foreign trade institutions and policies It outlines the premises of a strategy that would assist Poland in its aim for accession This publication is a Technical Paper sponsored by the Poverty Reduction and Economic Management Network of the World Bank's Europe and Central Asia Division It is part of a comprehensive series regarding the many important factors that influence European Union EU accession in the Central and East European countries CEEC The topics in the series cover both the social and economic aspects of accession across a broad range of sectors The series also provides background information for specific acceding countries These publications will be of interest to EU member and candidate countries their ministries and any one studying the accession issue

Forest Management in Nepal Ian Hill, 1999-01-01 Forests play a vital role in maintaining Nepal's impressive biodiversity which has global significance With only 0.1 percent of the world's total area Nepal contains 2 percent of the planet's flowering plants 8 percent of its birds and 4 percent of its mammals As Nepal develops its forest resources it needs to minimize the biotic pressures affecting the structure and dynamics of forest plant communities and wildlife populations and thereby reverse the current destructive pressures on the country's biodiversity The study aims to provide a better understanding of the ways in which forest resources are used in Nepal Its focus is to examine systematically the costs and benefits of present and possible future sustainable and biodiversity friendly management practices from household national and global perspectives The authors define the analytical framework and the costs of financial and economic alternatives They also present the economic social institutional and legal issues and recommend strategies for change The report should be of use to national and donor agencies concerned with the management of natural resources and conservation of biodiversity in Nepal providing a framework for possible future donor

support to the sector It highlights issues that are of importance in the formulation and implementation of natural resource management programs by government and non government agencies Historical Dictionary of the World Bank Sarah Tenney, Anne C. Salda, 2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies Natural Resource Management Strategy , 2000-01-01 Arable land deserts mountains forests rivers and coastal zones characterize the diverse regions in Eastern Europe and Central Asia ECA As varied as the geography is so are the policy directions taken by the region's governments concerning natural resource management A lack of conservation measures misuse and poor management have impaired many of the natural resources now available in these countries Although the pressure on natural resources in ECA is less than in other regions and the area has more abundant resources the accessibility and utility of those resources belie the figures Where there is arable land the growing season is short Where there are immense forests the climate is harsh To assist the Bank's client countries in ECA with sustainable use of natural resources this volume identifies the various challenges provides a history of the Bank's regional natural resource strategy outlines a strategic framework and proposes new strategies and policy instruments to implement them Natural resources in this publication refer to non mineral resources such as forests rivers and land

This Enthralling Realm of E-book Books: A Detailed Guide Revealing the Benefits of Kindle Books: A World of Ease and Versatility E-book books, with their inherent mobility and simplicity of access, have liberated readers from the limitations of physical books. Gone are the days of carrying cumbersome novels or meticulously searching for particular titles in bookstores. E-book devices, sleek and portable, seamlessly store an extensive library of books, allowing readers to immerse in their preferred reads whenever, everywhere. Whether commuting on a busy train, relaxing on a sun-kissed beach, or simply cozying up in bed, Kindle books provide an exceptional level of ease. A Literary World Unfolded: Discovering the Wide Array of E-book Options For Managing And Financing Rural Transport Infrastructure Options For Managing And Financing Rural Transport Infrastructure The Kindle Store, a virtual treasure trove of literary gems, boasts an extensive collection of books spanning varied genres, catering to every reader's preference and choice. From gripping fiction and thought-provoking non-fiction to timeless classics and modern bestsellers, the Kindle Shop offers an exceptional abundance of titles to discover. Whether looking for escape through immersive tales of imagination and exploration, diving into the depths of historical narratives, or broadening one's knowledge with insightful works of scientific and philosophy, the Kindle Shop provides a gateway to a literary world brimming with limitless possibilities. A Transformative Force in the Bookish Landscape: The Enduring Influence of Kindle Books Options For Managing And Financing Rural Transport Infrastructure The advent of E-book books has certainly reshaped the literary scene, introducing a paradigm shift in the way books are published, distributed, and consumed. Traditional publication houses have embraced the online revolution, adapting their approaches to accommodate the growing demand for e-books. This has led to a rise in the accessibility of Kindle titles, ensuring that readers have access to a wide array of bookish works at their fingertips. Moreover, E-book books have equalized access to books, breaking down geographical limits and providing readers worldwide with similar opportunities to engage with the written word. Regardless of their place or socioeconomic background, individuals can now engross themselves in the intriguing world of books, fostering a global community of readers. Conclusion: Embracing the Kindle Experience Options For Managing And Financing Rural Transport Infrastructure Kindle books Options For Managing And Financing Rural Transport Infrastructure, with their inherent ease, flexibility, and wide array of titles, have unquestionably transformed the way we experience literature. They offer readers the freedom to discover the boundless realm of written expression, whenever, anywhere. As we continue to navigate the ever-evolving online scene, Kindle books stand as testament to the enduring power of storytelling, ensuring that the joy of reading remains reachable to all.
