Romance for Sale in Early Modern England Steve Mentz, 2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period's narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus's *Aethiopian History* In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel

The Heroines of English Pastoral Romance Sue P. Starke, 2007 The figure of the woman as hero in pastoral romance is shown to grow in importance and complexity in this important new study The genre of pastoral romance flourished dramatically in Renaissance England between 1590 and 1650 One of its key elements is that it is the daughter not the son of the gentle family who increasingly becomes the subject of the romance's attempt to define and illustrate heroism The pastoral heroine's task is paradoxical to break out of her pastoral paradise in order to ensure its reconstitution She is the

princess the shepherdess the Lady or the virtuous daughter who becomes a repository of honor and virtue in a changing society where traditional chivalric definitions of honor hold decreasing purchase This groundbreaking book examines the typical challenges faced by the pastoral romance heroine as she matures within the pastoral locus amoenus the foundling dilemma the loop shaped quest the rhetorical battle the chastity threat the reconciliation of beauty to virtue and familial reunification It illustrates how the allegorical symbolic and psychological characterizations of pastoral heroines in the works of Sidney Spenser Wroth Fletcher Milton and Marvell anticipate developments in the representation of female subjectivities normally associated with the novel SUE P STARKE is Associate Professor of English at Monmouth University New Jersey

Job, Boethius, and Epic Truth Ann W. Astell, 2019-03-15 Calling into question the common assumption that the Middle Ages produced no secondary epics Ann W Astell here revises a key chapter in literary history She examines the connections between the Book of Job and Boethius's Consolation of Philosophy texts closely associated with each other in the minds of medieval readers and writers and demonstrates that these two works served as a conduit for the tradition of heroic poetry from antiquity through the Middle Ages and into the Renaissance As she traces the complex influences of classical and biblical texts on vernacular literature Astell offers provocative readings of works by Dante Chaucer Spenser Malory Milton and many others Astell looks at the relationship between the historical reception of the epic and successive imitative forms showing how Boethius's Consolation and Johan biblical commentaries echo the allegorical treatment of epic truth in the poems of Homer and Virgil and how in turn many works classified as romance take Job and Boethius as their models She considers the influences of Job and Boethius on hagiographic romance as exemplified by the stories of Eustace Custance and Griselda on the amatory romances of Abelard and Heloise Dante and Beatrice and Troilus and Criseyde and on the chivalric romances of Martin of Tours Galahad Lancelot and Redcrosse Finally she explores an encyclopedic array of interpretations of Job and Boethius in Milton's Paradise Lost Paradise Regained and Samson Agonistes
