Attisani,2024-04-05T00:00:00+02:00 he theatrical culture of Tibet is probably the last to remain virtually unknown to the outside world and to the West in particular As well as describing the current situation of studies on Tibetan theatre the current volume also provides an essay on imagination and how it is concretely manifested by the Tibetan people and their actors Recent decades have seen radical change for Tibetan theatre ache lhamo now performed by a diaspora for whom a declining artistic and technical change derives from an uncertain politics concerning secular and popular culture as well as the ongoing cultural genocide caused by China s subjection of Tibet *The Nyingma School of Tibetan Buddhism*

Dudjom,2012-07-23 Written by a great modern Nyingma master Dudjom Rinpoche s The Nyingma School of Tibetan Buddhism covers in detail and depth both the fundamental teachings and the history of Tibetan Buddhism s oldest school This the first English translation of His Holiness masterwork constitutes the most complete work of its type in the West An absolute treasure for students of the tradition it is also an indispensable reference for anyone with an interest in Buddhism The book includes chronologies and glossaries that elucidate Buddhist doctrine and it provides fascinating insights into the Buddhist history of Tibet Two treatises form the present volume namely the Fundamentals of the Nyingma School and the History of the Nyingma School Among the most widely read of all His Holiness Dudjom Rinpoche s works these treatises were composed during the years immediately following his arrival in India as a refugee His intention in writing them was to preserve the precise structure of the Nyingma philosophical view within its own historical and cultural context This is the first time this text has been available in a trade edition Beautifully presented this single volume edition represents a truly wonderful gift and features illustrations in black and white and in color plus maps bibliographic information and useful annotations **The Origins of Religious Violence** Nicholas F. Gier,2014-08-20 Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan but interfaith conflict also followed colonial incursions in India Sri Lanka and Burma Before that time there was a general premodern harmony among the resident religions of the latter countries and only in the late nineteenth and twentieth centuries did religiously motivated violence break out While conflict caused by Hindu fundamentalists has been serious and widespread a combination of

medieval Tibetan Buddhists and modern Sri Lankan Japanese and Burmese Buddhists has caused the most violence among the Asian religions. However, the Chinese Taiping Christians have the world record for the number of religious killings by one single sect. A theoretical investigation reveals that specific aspects of the Abrahamic religions, an insistence on the purity of revelation, a deity who intervenes in history but one who still is primarily transcendent, may be primary causes of religious conflict. Only one factor, a mystical monism not favored in Judaism, Christianity, and Islam, was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler.

**The Origins of Religious Violence: An Asian Perspective** uses a methodological heuristic of premodern, modern, and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence. **The Circle of Bliss** John C. Huntington, Dina Bangdel, 2003. This publication is issued in conjunction with the exhibition *The circle of bliss* Buddhist meditational art, co-organized by the Columbus Museum of Art and the Los Angeles County Museum of Art, Los Angeles County Museum of Art, October 5–January 11, 2003; Columbus Museum of Art, February 6–May 9, 2004. **Ruthless Compassion** Robert N. Linrothe, 1999. The historical development of Esoteric Buddhism in India is still known only in outline. A few verifiably early texts do give some insight into the origin of the ideas which would later develop and spread to East and Southeast Asia and to Tibet. However, there is another kind of evidence which can be harnessed to the project of reconstructing the history of Esoteric Buddhist doctrines and practice. This evidence consists of art objects, mainly sculpture, which survive in significant numbers from the 6th to the 13th century. *Glimpses of Tibetan Divination*, 2019-11-04. *Glimpses of Tibetan Divination: Past and Present* is the first book of its kind in that it contains articles by a group of eminent scholars who approach the subject matter by investigating it through various facets and salient historical figures. Over the centuries, Tibetans developed many practices of prognostication and adapted many others from neighboring cultures and religions. In this way, Tibetan divination evolved into a vast field of ritual expertise that has been largely neglected in Tibetan Studies. The Tibetan repertoire of divinatory techniques is rich and immensely varied. Accordingly, the specimen of practices discussed in this volume, many of which remain in use today, merely serve as examples that offer glimpses of divination in Tibet. Contributors are Per Kværne, Brandon Dotson, Ai Nishida, Dan Martin, Petra Maurer, Charles Ramble, Donatella Rossi, Rolf Scheuermann, Alexander Smith, and Agata Bareja Starzynska. *A Communion of Subjects* Paul Waldau, Kimberley Patton, 2009-05-22. *A Communion of Subjects* is the first comparative and interdisciplinary study of the conceptualization of animals in world religions. Scholars from a wide range of disciplines, including Thomas Berry (cultural history), Wendy Doniger (study of myth), Elizabeth Lawrence (veterinary medicine, ritual studies), Marc Bekoff (cognitive ethology), Marc Hauser (behavioral science), Steven Wise (animals and law), Peter Singer (animals and ethics), and Jane Goodall (primatology), consider how major religious traditions have incorporated animals into their belief systems, myths, rituals, and art. Their findings offer profound insights into the relationship between human beings and animals and a deeper understanding of the social and ecological
