Structuring the Void Jerome Klinkowitz,1992 If as the

literary theorists of postmodernism contend content does not exist then how can fiction continue to be written Jerome Klinkowitz himself a veteran practitioner and theorist of fiction addresses this question in *Structuring the Void* an account of what today's novelists and short story writers do when they produce a fictive work Klinkowitz focuses on the ways in which writers finding themselves in the same position as abstract painters and death of God theologians have turned their inquiry itself into subject matter and he shows how this approach has in recent years produced something more than mere metafictional self questioning With no subject to structure the writers Klinkowitz discusses nonetheless persist in the act of structuring For Kurt Vonnegut this has meant finding a form for an otherwise unrepresentable world by organizing his autobiography as a narrative device In the generation following Vonnegut Max Apple makes a similar move in the ritualization of a national history and popular culture while Gerald Rosen and Rob Swigart invent a style of literary comedy based on their comic response to a new imaginative state the state of California Klinkowitz also considers subjects that though they cannot be represented nevertheless exercise constraints on a writer's intention to structure In recent decades two of these pressing themes have been gender as seen here in the works of Grace Paley and war the Vietnam conflict itself as well as the struggles of two generations to come to terms with it *Structuring the void* left when content collapses these writers have as Klinkowitz demonstrates developed an entirely new style of fiction one that necessarily privileges space over time and self invention over representation

The Copperhead and Other Stories of the North During the American War Harold Frederic, 1894 **Vietnam and the West** Wynn Wilcox, 2010-11-15 This sound interpretation of Vietnamese cultural attitudes contends that a major reason for American difficulties in Viet Nam has been the failure to appreciate how wide the gulf is between Viet Nam and the West Professor Smith first describes Vietnamese political and social traditions and shows how they were challenged by the West after 1858 He examines Viet Nam's search for independence and modernization in the first half of this century contrasts the two governments of the partitioned country during the years 1954-1963 and stresses the critical need to reassess attitudes toward Viet Nam His sophisticated ambitious survey of Viet Nam history will have a lasting value that sets it apart from the scores of ephemeral books on this country
