Caesar: Bellum Gallicum Book VII Christopher B. Krebs, 2023-07-27 This is the first commentary on Caesar's *Bellum Gallicum* to approach it as a literary text. It attempts a contextualized reading of the work through the eyes of a contemporary Roman reader who was trained in rhetoric, versed in Greek and Roman literature, and familiar with the same political and cultural conventions and discourses as its author. In appreciating Caesar as a writer and situating the seventh book of the *Bellum Gallicum* within its horizon of expectations and especially its historiographical tradition, it reveals much that rewards careful attention, including a dramatized narrative, sustained intertextual borrowings and allusions, especially from and to Thucydides and Polybius, in direct speeches, telling of Rome's second greatest speaker, and word and sound play, telling of the leading linguist, not to mention artful technical descriptions that lack parallels in the Roman republic. Ultimately, both author and text emerge as quite different from their grossly generalized reputations. Political Communication in the Roman World, 2017-07-31 This volume aims to address the question of political communication in the Roman world. It draws upon social sciences and the current trend for the historical study of political communication. The book tackles three main problems: What constitutes political communication in the Roman world? In what ways could information be transmitted and represented? What mechanisms made political communication successful or unsuccessful? This edited volume covers questions like speech and mechanisms of political communication, political communication at a distance, bottom-up communication, failure of communication, and representation of political communication. It will be of help to specialists in the Roman world, but also to students and researchers of political sciences and specialists of political communication in pre-industrial times.

The Rhetoric of Conspiracy in Ancient Athens Joseph Roisman, 2006-11-07 The Attic orators whose works are an invaluable source on the social and political history of Classical Athens often filled their speeches with charges of conspiracy involving almost every facet of Athenian life. There are allegations of plots against men's lives, property, careers, and reputations, as well as charges of conspiracy against the public interest, the government, the management of foreign affairs, and more. Until now, however, this obsession with conspiracy has received little scholarly attention. In order to develop the first full picture of this important feature of Athenian discourse, Joseph Roisman examines the range and nature of the conspiracy charges. He asks why they were so popular and considers their rhetorical, cultural, and psychological significance. He also investigates the historical likelihood of the scenarios advanced for these plots and asks what their prevalence suggests about the Athenians and their worldview. He concludes by comparing ancient and modern conspiracy theories. In addition to shedding new light on Athenian history and culture, his study provides an invaluable perspective on the use of conspiracy as a rhetorical ploy. **Rhetoric and Scripture** Thomas H. Olbricht, 2021-03-31 This book offers a unique overview of the development of rhetorical criticism both in North America and internationally through the work of pioneering New Testament scholar Thomas H. Populism, Demagoguery, and Rhetoric in Historical Perspective Giuseppe Ballacci, Research Fellow at the Centre for Ethics Politics and Society (Ceps) Giuseppe Ballacci, Associate Professor of Politics and Public Administration Rob Goodman, Rob Goodman, 2024-10-25 Populism Demagoguery and Rhetoric in Historical Perspective explores the connections between contemporary populism populist rhetoric and a wide range of thinkers and topics in the history of political thought from the ancient to the modern world Throughout the volume contributors demonstrate links between contemporary populism and the tradition of rhetoric as well as new connections between populism and demagoguery a phenomenon that has been discussed by political theorists and philosophers since antiquity With this wide range of connections in mind the volume draws on diverse perspectives and methodologies to theorize populist politics in historical perspective and to enrich the debate surrounding it

The Cambridge Companion to the Writings of Julius Caesar Luca Grillo, Christopher B. Krebs, 2018 Well known as a brilliant general and politician Caesar also played a fundamental role in the formation of the Latin literary language and history of Latin Literature This volume provides both a clear introduction to Caesar as a man of letters and a fresh re assessment of his literary achievements

A Commentary on Lysias, Speeches 1-11 S. C. Todd, 2007-12-20 Lysias was the leading Athenian speech writer of the generation 403 380 BC following the Peloponnesian War and his speeches form a leading source for all aspects of the history of Athenian society during this period The speeches are widely read today not least because of their simplicity of linguistic style This simplicity is often deceptive however and one of the aims of this commentary is to help the reader assess the rhetorical strategies of each of the speeches and the often highly tendentious manipulation of argument This volume includes the text itself reproduced from Carey s OCT and apparatus criticus with a facing translation Each speech receives an extensive introduction covering general questions of interpretation In the lemmatic section of the commentary individual phrases are examined in detail providing a close reading of the Greek text To maximize accessibility the Greek lemmata are accompanied by translation and individual Greek terms are mostly transliterated This is the first part of a projected multi volume commentary on the speeches and fragments which will be the first full commentary on Lysias in modern times

Cicero's Role Models Henriette van der Blom, 2010-07-29 A study of the rhetorical and political strategy adopted by the Roman orator and statesman Cicero as a newcomer in Roman republican politics Henriette van der Blom argues that Cicero advertised himself as a follower of chosen models of behaviour from the past his role models and in turn presented himself as a role model to others
