Orchid Hunting In The Lost World And Elsewhere In Venezuela:

Orchid Hunting in the Lost World G. C. K. Dunsterville, E. Dunsterville, 1988 *Orchid Fever* Eric Hansen, 2016-09-21

The acclaimed author of *Motoring with Mohammed* brings us a compelling adventure into the remarkable world of the orchid and the impossibly bizarre array of international characters who dedicate their lives to it. The orchid is used for everything from medicine for elephants to an aphrodisiac ice cream. A Malaysian species can grow to weigh half a ton while a South American species fires miniature pollen darts at nectar sucking bees. But the orchid is also the center of an illicit international business: one grower in Santa Barbara tends his plants while toting an Uzi and a former collector has been in hiding for seven years after serving a jail sentence for smuggling thirty dollars worth of orchids into Britain. Deftly written and captivatingly researched, *Orchid Fever* is an endlessly enchanting and entertaining tour of an exotic world. A wonderful book I've been up all night reading it, laughing and crying out in horror and clucking at the vivid images of bureaucracy with the bit in its teeth. Annie Proulx: An extraordinary well told tale of botany obsession and plant politics. Hansen's vivid descriptions of the complex techniques some orchids use to pollinate themselves will raise your eyebrows at nature's sexual ingenuity. USA Today

Orchid Biology: Reviews and Perspectives X Tiiu Kull, J. Arditti, Sek Man Wong, 2009-01-21

As stated many times before, the purpose of *Orchid Biology: Reviews and Perspectives* OB is to present reviews on all aspects of orchids. The aim is not to balance every volume but to make a balanced and wide ranging presentation of orchids in the series as a whole. The chapters in this, the last volume of the series, range over a number of topics which were not covered before. Singapore is justly famed for its orchids. They can be seen on arrival or departure in its modern, highly efficient and comfortable Changi Airport and on the way from it to town. Vanda Miss Joaquim, the first hybrid to come from Singapore, became its National Flower. This natural hybrid can be seen on its currency stamps and public and private decorations. Many excellent breeders, starting with Prof. Eric Holttum, who bred the first man-made hybrid *Spathoglottis* Primrose, produced numerous magnificent hybrids and won countless awards in Singapore and elsewhere. These hybrids served to enrich the country's orchid mystique. In the opening chapter of this volume, Dr. Teoh Eng Soon, Western style, Eng Soon Teoh himself, a prize-winning orchid breeder, grower and author, writes about some of the breeders who contributed to the Singapore orchid fame. Prof. Hans Fitting was one of the best known plant physiologists of his time. As a young man, he studied the effects of pollen on orchid flowers.

Anne Troelstra's fine bibliography is an outstanding and groundbreaking work. He has provided the academic world with a long needed bibliographical record of human endeavour in the field of the natural sciences. The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna, flora and fossil remains. Such eyewitness accounts have always fascinated their readers but they were never written solely for entertainment. Fragmentary though they often are, these narratives of

travel and exploration are of immense importance for our scientific understanding of life on earth providing us with a window on an ever changing and often vanishing natural world Without such records of the past we could not track document or understand the significance of changes that are so important for the study of zoogeography With this book Troelstra gives us a superb overview of natural history travel narratives The well over four thousand detailed entries ranging over four centuries and all major western European languages are drawn from a wide range of sources and include both printed books and periodical contributions While no subject bibliography by a single author can attain absolute completeness Troelstra's work is comprehensive to a truly remarkable degree The entries are arranged alphabetically by author and chronologically by the year of first publication under the author's name A brief biography with the scope and range of their work is given for each author every title is set in context the contents including illustrations are described and all known editions and translations are cited In addition there is a geographical index that cross refers between authors and the regions visited and a full list of the bibliographical and biographical sources used in compiling the bibliography **The Orchid Digest**, 2019-04

Embracing the Song of Phrase: An Emotional Symphony within **Orchid Hunting In The Lost World And Elsewhere In Venezuela**

In a world taken by displays and the ceaseless chatter of instantaneous connection, the melodic beauty and psychological symphony produced by the prepared word frequently fade into the background, eclipsed by the constant noise and interruptions that permeate our lives. But, located within the pages of **Orchid Hunting In The Lost World And Elsewhere In Venezuela** a marvelous fictional prize brimming with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, that interesting masterpiece conducts readers on a mental journey, skillfully unraveling the hidden tunes and profound impact resonating within each cautiously constructed phrase. Within the depths with this emotional analysis, we can discover the book is key harmonies, analyze its enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
