Maurice Scève Poet of Love Dorothy Gabe Coleman,2010-06-24 A study of Maurice Scève's sequence of love poems the *Dilectio* the first French canzoniere There are two main themes Scève's rendering of the intensity and complexity of the human experience of love and secondly his exploitation of the European tradition of love poetry Dr Coleman tackles broad issues concerning appreciation of poetry and more particularly difficult poetry Comparing individual poems by Horace Scève and Mallarmé she pinpoints the task of a serious reader to experience sensitively and intellectually human emotions couched in artistic form The book does not offer doctrines about Scève's love instead it looks at the contextual linguistic formulae which create love within the poems themselves the allusiveness the intellectual rigour the tautness the juxtaposition of words combine with the voluptuousness and simplicity of the images rhythm and sound to make out of the poems a timeless and intensely personal experience Augustan Poetry and the Roman Republic Joseph Farrell,Damien P. Nelis,2013-06-13

Augustan Poetry and the Roman Republic explores the liminal status of the Augustan period with its inherent tensions between a rhetoric based on the idea of *res publica restituta* and the expression of the need for a radical renewal of the Roman political system It attempts to examine some of the ways in which the Augustan poets dealt with these and other related issues by discussing the many ways in which individual texts handle the idea of the Roman Republic Focusing on the works of the major Augustan poets Vergil Horace Propertius and Ovid the contributions in this collection look at the understudied aspect of their poetry namely the way in which they constructed and investigated images of the Roman Republic and the Roman past *Rimbaud's Impressionist Poetics* Aimée Israel-Pelletier,2012-10-15 In the mid nineteenth century Arthur Rimbaud the volatile genius of French poetry invented a language that captured the energy and visual complexity of the modern world This book explores some of the technical aspects of this language in relation to the new techniques brought forth by the Impressionist painters such as Monet Morisot and Pissarro *Rimbaud* Cecil Arthur Hackett,1981-06-04

Professor Hackett shows Rimbaud's poetic work had decisive influence on the development of French poetry

Challenging ICT Applications in Architecture, Engineering, and Industrial Design Education Wang, James,2012-08-31 Are Information and Communications Technologies ICTs helpful or detrimental to the process of design According to Aristotle the imagination is a mental power that assists logical sound judgments Design therefore incorporates both reason and imagination Challenging ICT Applications in Architecture Engineering and Industrial Design Education posits imagination as the central feature of design It questions the common assumption that ICTs are not only useful but also valuable for the creation of the visual designs that reside at the core of architecture engineering design and industrial design For readers who believe this assumption is right this book offers an alternative perspective *Collected Poems* Stéphane

Mallarmé, 2011-01-15 In this classic tale Richard Kim paints seven vivid scenes from a boyhood and early adolescence in Korea at the height of the Japanese occupation 1932 to 1945 Taking its title from the grim fact that the occupiers forced the Koreans to renounce their own names and adopt Japanese names instead the book follows one Korean family through the Japanese occupation to the surrender of the Japanese empire *Lost Names* is at once a loving memory of family and a vivid portrayal of life in a time of anguish *Guide to French Poetry Explication* Kathleen Coleman, 1993 Sensibility and Creation Roger Cardinal, 2025-05-01 *Sensibility and Creation* 1977 comprises a dozen critical studies by different contributors on a selection of major French poets of the twentieth century These range from poets of long established reputation such as Paul Valéry Pierre Reverdy Saint John Perse and Paul Eluard to contemporary poets such as Yves Bonnefoy and Jacques Dupin The guiding theme is that of the characteristic sensibility which informs the creative work of each poet the way he has of selecting and patterning the elements which make up the world he inhabits and which in a sense he is also creating In some instances the poetry is examined for its selective textures and shapes and in others the critical focus is more closely directed to the linguistic and stylistic strategies adopted by the writer **Sound and Sense in French Poetry** F. W. Leakey, 1975 Writers Directory NA NA, 2016-03-05 **Baudelaire** F. W. Leakey, 1990-05-25 This book of linked essays contains the first critical study of Baudelaire's development as a poet from his youth onward It also includes studies of the development of Baudelaire's aesthetic detailed commentaries on a number of his finest poems and accounts of three intriguing and crucial encounters with notable contemporaries Three of the essays are previously unpublished and four very recent the other eleven have been thoroughly updated revised and in some cases substantially expanded Together they constitute a new and important contribution to the understanding and appreciation of Baudelaire's work *Pierre Reverdy. A Bibliography. - (London): Grant & Cutler 1976. 88 S. 8°* Michael Bishop, 1976 **Figures of Reality** Roger Cardinal, 2025-05-01 *Figures of Reality* 1981 may be described as a polemic against those who feel poetry to be remote from normal life an abstruse and empty game The author argues from a contrary perspective shared by many poets in the Romantic and Surrealist tradition in which poetry is viewed as being vitally related to our awareness of reality This penetrating discourse on the roots of poetry in the imagination suggests that the fascination of an illusory image lies precisely in our consciousness of its deflection from reality Poets can take hold of and manipulate these moments they are adept in the construction of unreality The deliberate cultivation of such states of awareness has been a preoccupation of many poets and literary theorists among them Coleridge De Quincey and Rimbaud Roger Cardinal's commentaries on the writing of these men as well as other texts drawn from nineteenth and twentieth century European poetry argues that poems have meaning for us to the extent that we recognise the relationship of the figure of speech on the page to the figure of reality as shaped by our perception of the world around us In this way the book uniquely develops an original and subtle theory of the role of imagination in poetry **Guide to Festschriften: A dictionary catalog of Festschriften in the New**

Mallarmé and the Art of Being Difficult Malcolm Bowie, 1978-06-22 Mallarmé is widely regarded as one of the most original and distinctively modern writers of the late nineteenth century. At the same time his fame is accompanied by a certain notoriety and his works are often thought of as unnecessarily complicated. In this study Malcolm Bowie shows that difficulty is of the essence in a number of Mallarmé's major works notably *Prose pour des Esseintes* and *Un Coup de Dés jamais n'abolira le hasard*. He argues that the poems are difficult because they are concerned with complex metaphysical questions and with speculative states of mind. Their closely interwoven multiple meanings, their intricate word play and sound patterning invite us to read inventively on many levels at once. Professor Bowie discusses difficulty as a general critical problem, analyses several major poems in detail and calls attention to a number of techniques for the analysis of verse. He directs the reader away from the question 'What does this poem mean?' and towards the question 'How can this poem be read fully and with enjoyment?' The book contains the complete text of the main poems discussed.

The Orient of Style Beryl Schlossman, 1991 In this study of modernist aesthetics Beryl Schlossman reveals how for such writers as Marcel Proust, Gustave Flaubert and Charles Baudelaire the Orient came to symbolize the highest aspirations of literary representation. She demonstrates that through allegory modernism became a style itself, a style that married the ancient and the modern and that emerged as both a cause and an effect, both an ideal construct and an textual materiality, all symbolized by the Orient, land of style, place of plurality and site of the coexistence of holy lands. Toward the end of *Remembrance of Things Past* the narrator describes the act of creating a work of art as a conversion of sensation into a spiritual equivalent. By means of such allegories of conversion Schlossman shows the modernist artist disappeared within the work of art and left behind the trace of his sublime vocation, a vocation in which he was transformed. In Schlossman's words into a kind of priest kneeling at the altar of beauty before the masked divinity of representation. The author shows how allegory, the representation of the symbolic as something real, was adapted by modernist writers to reflect subjectivity while masking an authorial origin. She reveals how modernist allegory arose as Walter Benjamin suggests at the crossroads of history, sociology, economics, urban architecture and art, providing a kind of map of capitalism and was produced through the eyes of a melancholic gazing at a monument of absence.

Rhythm, Illusion and the Poetic Idea: Baudelaire, Rimbaud, Mallarmé David Evans, 2004-01-01 *Rhythm, Illusion and the Poetic Idea* explores the concept of rhythm and its central yet problematic role in defining modern French poetry. Forging innovative lines of inquiry, linking the detailed analysis of poetic form to the evolution of fundamental aesthetic principles, David Evans offers extensive new readings of the literary and critical writings of the three major poets at the centre of France's most important poetic revolution. The volume is of interest to all students and readers of Baudelaire, Rimbaud and Mallarmé since here is presented for the first time a thorough comparative study of developments in each writer's poetic form and theory, focusing on the themes of illusion, deception and the musical metaphor. The book is also intended to

stimulate wider critical debate on the interpretation of metrical verse prose poetry and vers libre and offers original analytical methods which facilitate the study of poetic form The author proposes a radical shift in our understanding of the role and mechanisms of poetic rhythm suggesting that its very resistance to definition and fixity provides a conveniently opaque veil over the difficulties of defining poetry in the nineteenth and twentieth centuries
