## **Order And Freedom The Conservative Vision Of Community:**

*Paradigms of Social Order* Sergio Dellavalle, 2021-04-25 No social life is possible without order Order being the most constituent element of society it is not surprising that so many theories have been developed to explain what social order is and how it is possible as well as to explore the features that social order acquires in its different dimensions The book leads these many theories of social order back to a few main matrices for the use of theoretical and practical reason which are defined as paradigms of order The plurality of conceptual constructs regarding social order is therefore reduced to a manageable number of theoretical patterns and an intellectual map is produced in which the most significant differences between paradigms are clearly outlined Furthermore the paradigmatic revolutions are addressed that marked the most relevant turning points in the way in which a well ordered society should be understood Against this background the question is discussed on the theoretical and practical perspectives for a cosmopolitan society as the only suitable possibility to meet the global challenges with which we are all presently confronted

*A Dictionary of Conservative and Libertarian Thought* (Routledge Revivals) Nigel Ashford, Stephen Davies, 2012-06-25 First published in 1991 this is a reissue of the path breaking Dictionary of Conservative and Libertarian Thought the first book to examine the ideals and arguments produced by the intellectual traditions of both conservatism and classical liberalism Covering the ideas of many such distinguished thinkers as Hayek Scruton Friedman and Buchanan the volume provides a valuable survey of the historical development of both schools of thought in all of the major western countries and their contributions to contemporary debates From American Conservatism to French Liberalism Invisible Hand to Organic Society from Scientism to Scepticism and Utopianism to Voluntarism this is a vital work whose reissue will be welcomed as much by the keen layperson as by students of political science the history of philosophy economics and public policy

**Our Southern Zion** Erskine Clarke, 2014-08-15 An exploration of the ways a particular religious tradition and a distinct social context have interacted over a 300 year period including the unique story of the oldest and largest African American Calvinist community in America The South Carolina low country has long been regarded not only in popular imagination and paperback novels but also by respected scholars as a region dominated by what earlier historians called a cavalier spirit and by what later historians have simply described as a wholehearted devotion to amusement and the neglect of religion and intellectual pursuits Such images of the low country have been powerful interpreters of the region because they have had some foundation in social and cultural realities It is a thesis of this study however that there has been a strong Calvinist community in the Carolina low country since its establishment as a British colony and that this community including in its membership both whites and after the 1740s significant numbers of African Americans contradicts many of the images of the received version of the region Rather than a devotion to amusement and a neglect of religion and intellectual interests this community has been marked throughout most of its history by its disciplined religious life its intellectual pursuits and its work ethic

**A History of Western Thought**

Gunnar Skirbekk, Nils Gilje, 2001 A comprehensive introduction to the history of Western Philosophy from the Pre Socratics to Twentieth Century thought The book covers the key figures and also those whose contribution has been overlooked such as Vico Durkheim and Weber      Visions of Order in William Gilmore Simms Masahiro Nakamura, 2009 One of nineteenth century America's foremost men of letters William Gilmore Simms 1806-1870 of Charleston South Carolina distinguished himself as a historian poet and novelist yet his stalwart allegiance to the ideals of the Confederacy have kept him largely marginalized from the modern literary canon In this engaging study Masahiro Nakamura seeks to reinsert Simms in current American literary and cultural studies through a careful consideration of Simms's southern conservatism as a valuable literary counterpoint to the bourgeois individualist ideology of his northern contemporaries For Nakamura Simms's vision of social order runs contrary to the staunch individualism expressed in traditional American romances by authors such as James Fenimore Cooper and Nathaniel Hawthorne In his thoughtful approaches to Simms's historical depictions of the making of American history and society Nakamura finds consistent assertions of social order against the perils of literal and metaphoric wilderness a conservative vision that he traces to the influence of Simms's southern *genius loci* To understand how this southern conservatism also manifests itself in Simms's fiction Nakamura contrasts Simms's historical romances with those of Hawthorne as representative of the New England romance tradition to differentiate the ways in which the two writers interpret the dynamic between the individual and society Nakamura finds that Simms's protagonists struggle to establish their places within their culture while Hawthorne's characters are often at odds with their culture The resulting comparison enriches our understanding of both writers      Society as a Department Store Ryszard Legutko, 2002-01-01 In *Society as a Department Store* Ryszard Legutko wrestles with the emancipatory ideology promulgated by postmodernists libertarians and liberal thinkers Legutko argues that modern Western liberals have embraced a revolutionary ethic they have turned their backs on their own cultural heritage and used its political and ideological apparatus to destroy classical metaphysics and epistemology The book considers the paradoxical implications of this state of affairs for Eastern European intellectuals arguing that with the triumph of liberalism over communism these intellectuals feel compelled to digest an ideology that shares many elements with the oppressive system from which they just liberated themselves Based on hubris rather than genuine humane concerns Legutko mourns not simply the loss of faith in classical Western culture but the way in which that loss is becoming a central point of identity      **American Character** Colin Woodard, 2016-03-15 The author of *American Nations* examines the history of and solutions to the key American question how best to reconcile individual liberty with the maintenance of a free society The struggle between individual rights and the good of the community as a whole has been the basis of nearly every major disagreement in our history from the debates at the Constitutional Convention and in the run up to the Civil War to the fights surrounding the agendas of the Federalists the Progressives the New Dealers the civil rights movement and the Tea Party In *American Character* Colin Woodard traces these two key strands in American politics

through the four centuries of the nation's existence from the first colonies through the Gilded Age Great Depression and the present day and he explores how different regions of the country have successfully or disastrously accommodated them The independent streak found its most pernicious form in the antebellum South but was balanced in the Gilded Age by communitarian reform efforts the New Deal was an example of a successful coalition between communitarian minded Eastern elites and Southerners Woodard argues that maintaining a liberal democracy a society where mass human freedom is possible requires finding a balance between protecting individual liberty and nurturing a free society Going to either libertarian or collectivist extremes results in tyranny But where does the sweet spot lie in the United States a federation of disparate regional cultures that have always strongly disagreed on these issues Woodard leads readers on a riveting and revealing journey through four centuries of struggle experimentation successes and failures to provide an answer His historically informed and pragmatic suggestions on how to achieve this balance and break the nation's political deadlock will be of interest to anyone who cares about the current American predicament political ideological and sociological

*The Public Order and the Sacred Order* Stephen M. Krason, 2009-05-20 The Public Order and the Sacred Order evaluates a range of contemporary social and political questions in light of Catholic social teaching philosophy great political thinkers and America's founding tradition It treats a wide range of topics including economics education free speech abortion church state relations American legal trends international politics Through discussions of these and other issues confronting contemporary American society author Stephen M Krason offers a scholarly social commentary suggests means for a reconstruction of sound social and political thought and calls for a renewal of American institutions politics and culture The book is structured in three parts Part I sets out foundational principles guided by Catholic social teaching philosophical reasoning Western political thought and the American founding Part II examines and evaluates the numerous issues in light of the principles set out in Part I and Part III provides approaches to the issues both general and specific policy ideas consonant with the foundational principles set out in Part I There is also a volume of important Catholic Church documents Supreme Court cases and excerpts of important writings in the history of Western and American political thought that let the reader examine directly many documents discussed in the text of the book Along with being a strong and focused defense of traditional Catholic approaches to the questions of our time the vast array of material covered makes this book an invaluable reference for anyone interested in contemporary politics

*Missouri's Confederate* Christopher Phillips, 2000 Claiborne Fox Jackson 1806-1862 remains one of Missouri's most controversial historical figures Elected Missouri's governor in 1860 after serving as a state legislator and Democratic party chief Jackson was the force behind a movement for the neutral state's secession before a federal sortie exiled him from office Although Jackson's administration was replaced by a temporary government that maintained allegiance to the Union he led a rump assembly that drafted an ordinance of secession in October 1861 and spearheaded its acceptance by the Confederate Congress Despite the fact that the majority of the state's

populace refused to recognize the act the Confederacy named Missouri its twelfth state the following month A year later Jackson died in exile in Arkansas an apparent footnote to the war that engulfed his region and that consumed him In this first full length study of Claiborne Fox Jackson Christopher Phillips offers much more than a traditional biography His extensive analysis of Jackson s rise to power through the tangle that was Missouri s antebellum politics and of Jackson s complex actions in pursuit of his state s secession complete the deeper and broader story of regional identity one that began with a growing defense of the institution of slavery and which crystallized during and after the bitter internecine struggle in the neutral border state during the American Civil War Placing slavery within the realm of western democratic expansion rather than of plantation agriculture in border slave states such as Missouri Philips argues that southern identity in the region was not born but created While most rural Missourians were proslavery their southernization transcended such boundaries with southern identity becoming a means by which residents sought to reestablish local jurisdiction in defiance of federal authority during and after the war This identification intrinsically political and thus ideological centered and still centers upon the events surrounding the Civil War whether in Missouri or elsewhere By positioning personal and political struggles and triumphs within Missourians shifting identity and the redefinition of their collective memory Phillips reveals the complex process by which these once Missouri westerners became and remain Missouri southerners Missouri s Confederate not only provides a fascinating depiction of Jackson and his world but also offers the most complete scholarly analysis of Missouri s maturing antebellum identity Anyone with an interest in the Civil War the American West or the American South will find this important new biography a powerful contribution to our understanding of nineteenth century America and the origins as well as the legacy of the Civil War

*Conservative Criminology* John Wright, Matt DeLisi, 2015-11-06 *Conservative Criminology* serves as an important counterpoint to virtually every other academic text on crime Hundreds of books have been written about crime and criminal justice policy from a variety of perspectives including Marxist liberal progressive feminist radical and post modernist To date however no book has been written outlining a conservative perspective on crime and criminal justice policy Not a polemic against liberalism *Conservative Criminology* nonetheless focuses on how liberal ideology affects the study of crime and criminals and the policies that criminologist advocate Wright and DeLisi both senior scholars give a voice to a major political philosophy a philosophy often demonized by academics and to conservatives in the academic world In the end *Conservative Criminology* calls for an investment in intellectual diversity a respect for varying political philosophies and a renewed commitment to honesty in scholarship The authors encourage debate in the profession about the proper role of ideology in the academy and in public policies on crime and justice *Conservative Criminology* is for the criminal justice professional and student It serves as a stimulating supplement to courses in criminology and criminal justice as well as a primary text for special issues or capstone courses This book supports the reader in recognizing ideological biases whatever they might be and in considering their own convictions

**The Public Order and the Sacred Order:**

## **Contemporary Issues, Catholic Social Thought, and the Western and American Traditions** Stephen M.

Krason, 2009-05-20 *The Public Order and the Sacred Order* evaluates a range of contemporary social and political questions in light of Catholic social teaching philosophy great political thinkers and America's founding tradition. It treats a wide range of topics including economics education free speech abortion church state relations American legal trends international politics. Through discussions of these and other issues confronting contemporary American society author Stephen M. Krason offers a scholarly social commentary suggests means for a reconstruction of sound social and political thought and calls for a renewal of American institutions politics and culture. The book is structured in three parts. Part I sets out foundational principles guided by Catholic social teaching philosophical reasoning Western political thought and the American founding. Part II examines and evaluates the numerous issues in light of the principles set out in Part I and Part III provides approaches to the issues both general and specific policy ideas consonant with the foundational principles set out in Part I. There is also a volume of important Catholic Church documents Supreme Court cases and excerpts of important writings in the history of Western and American political thought that let the reader examine directly many documents discussed in the text of the book. Along with being a strong and focused defense of traditional Catholic approaches to the questions of our time the vast array of material covered makes this book an invaluable reference for anyone interested in contemporary politics.

*Keeping the Republic* Christine Barbour, Gerald C. Wright, 2019-01-02 I consistently recommend the book to colleagues who are teaching American government for the first time. It is easy to use and it provides all of the basics that any student would ever need to know. It is easy for students to read and it challenges their preconceived notions about the world. James W. Stoutenborough, Idaho State University. *Keeping the Republic* gives students the power to examine the narrative of what's going on in American politics distinguish fact from fiction and balance from bias and influence the message through informed citizenship. *Keeping the Republic* draws students into the study of American politics showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics and to be savvy consumers of political information. The thoroughly updated Ninth Edition considers how a major component of power is who controls the information how it is assembled into narratives and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power the ability to create and share their own narratives while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic and some high tech ways to lose it. Throughout the text and its features authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up to date with 2018 election results and analysis as well as the impact of recent Supreme Court rulings.

shifting demographics and emerging and continuing social movements Keeping the Republic Ninth Edition is a much needed resource to help students make sense of politics in America today Keeping the Republic The Essentials is identical to the full version of the text minus the three policy chapters A Complete Teaching Learning Package SAGE Vantage Digital Option Engage Learn Soar with SAGE Vantage an intuitive digital platform that delivers Keeping the Republic Ninth Essentials Edition textbook content in a learning experience carefully designed to ignite student engagement and drive critical thinking Built with you and your students in mind it offers easy course set up and enables students to better prepare for class Learn more Assignable Video Assignable Video available on the SAGE Vantage platform is tied to learning objectives and curated exclusively for this text to bring concepts to life and appeal to different learning styles Watch a sample video now SAGE Coursepacks FREE Easily import our quality instructor and student resource content into your school s learning management system LMS and save time Learn more SAGE Edge FREE online resources for students that make learning easier See how your students benefit SAGE course outcomes Measure Results Track Success Outlined in your text and mapped to chapter learning objectives SAGE course outcomes are crafted with specific course outcomes in mind and vetted by advisors in the field See how SAGE course outcomes tie in with this book s chapter level objectives at [edge.sagepub.com/barbour9e](http://edge.sagepub.com/barbour9e) CQ Press Lecture Spark Designed to save you time and ignite student engagement these free weekly lecture launchers focus on current event topics tied to key concepts in American government Access this week s topic Contact your rep to learn more

**History of International Relations Theory** Torbjorn L. Knutsen, Torbjørn L. Knutsen, 1997-06-15 Introduces ideas on international relations expressed by thinkers from High Middle Ages to the present day [Protest Movements as Media Vehicles of the Brazilian New Right](#) Nicole McLean, 2022-09-08 This book investigates right wing populism in Brazil It is a unique study of the major protest movements of the New Right that dominated the streets of S o Paulo from 2014 to 2018 and acted as a prelude to Jair Bolsonaro s election Examining the populist rhetoric that circulated among the movements online followers McLean reveals the formation of different right wing publics and gives insight into the topics that have the greatest impact on public political debate Through interviewing multiple activists and observing them at political events McLean also exposes motivations for engaging in political action and demonstrates how the movements act as media vehicles of the New Right Such an intimate study on the Brazilian New Right has never before been carried out in such in depth detail

**The Guardians of Concepts** Martina Steber, 2023-01-13 Since 1945 what conservative means has troubled intellectuals politicians and parties in the United Kingdom and West Germany In Britain conservatism was an accepted term of the political vocabulary denoting a particular tradition of political thought and practice In West Germany by contrast conservatism was a difficult concept for the young democracy to swallow It carried a heavy antiliberal and antidemocratic burden and led people to question whether there was a place for conservatism within democratic culture after all The Guardians of Concepts scrutinizes the debates about conservatism in the UK and the Federal Republic of Germany from the

late 1940s to the early 1980s Informed by historical semantics it conceives of conservatism as a flexible linguistic structure and shows the importance of language for the self understanding of many conservatives who not by chance have regarded themselves as the guardians of concepts The intense national and transnational debates about the meaning of conservatism had far reaching consequences and continue to influence politics today **American Conservative Opinion Leaders** Mark J. Rozell, 2019-03-04 In this book one of the few academic works to scrutinise the major figures of American conservatism since the Reagan Bush era began the contributors identify and assess current trends in conservative political thought Through their profiles of conservative opinion leaders these scholars offer even handed critical examinations not only of the

**The Least of These** Anthony E. Cook, 2014-06-11 First published in 1997 Examining race law and religion in today's America The Least of These highlights the power of these principles to both divide and unite and promotes a new form of liberalism that incorporates the spiritual values long neglected by earlier progressive liberals Relaunching the fundamental tenet of progressive liberalism that a justly ordered society must protect the interests and promote opportunities for the least advantaged of its population Anthony Cook argues for a revival of the progressive vision of American politics While the affirmative action debates smolder around the country Cook contends that the spiritual foundation of this liberal tenet must be unearthed and elaborated to fit our times before we can attempt to tackle the issues that the civil rights era has left unanswered As the twentieth century closes The Least of These provides a greater understanding of the roots of our ongoing socio political struggles and serves as an invaluable profile of progressive liberal politics from World War II to the present

Thinking about Schools Eleanor Blair Hilty, 2018-04-19 This book considers how American public education came to be the way it is today It helps students to have a better sense of how the past informs the present and how questions regarding who is served best by the schools tell us about the goals and aspirations of present day schools in America **A Single Communal Faith?** Thomas Rohkrämer, 2007-10 How could the Right transform itself from a politics of the nobility to a fatally attractive option for people from all parts of society How could the Nazis gain a good third of the votes in free elections and remain popular far into their rule A number of studies from the 1960s have dealt with the issue in particular the works by George Mosse and Fritz Stern Their central arguments are still challenging but a large number of more specific studies allow today for a much more complex argument which also takes account of changes in our understanding of German history in general This book shows that between 1800 and 1945 the fundamentalist desire for a single communal faith played a crucial role in the radicalization of Germany's political Right A nationalist faith could gain wider appeal because people were searching for a sense of identity and belonging a mental map for the modern world and metaphysical security
