

ORDER AND HISTORY

By Eric Voegelin

The author speaks out in his lucid and profound way on the need
to recover the lost wisdom of the ancients in order to find the way
to a new order.

Order and History is a comprehensive study of ancient man in his struggle
for a meaning and purposeful existence. The author begins with the Greek
philosophers and continues through the medieval and modern periods, showing
how the search for order and history has been a constant theme in the history
of man. The author's analysis is both profound and accessible, and his
writing is both clear and powerful.

In the last few years of his life, the author has given us a unique and
valuable contribution to the study of the history of man. His work is
both a masterpiece of scholarship and a masterpiece of writing. It is
a work that will stand the test of time and will continue to inspire
and challenge us for many years to come. The author's analysis is
both profound and accessible, and his writing is both clear and powerful.
