Orders Of Knighthood Awards And The Holy See:

Orders of Knighthood, Awards, and the Holy See Hyginus Eugene Cardinale, 1983 **Orders of Knighthood and of Merit** Peter Bander Van Duren, 1995 This book building upon Archbishop s Cardinale s Orders of Knighthood Awards and the Holy See this book presents the many Catholic founded Orders of Knighthood in a new perspective and deals not only with the Pontifical Equestrian Orders and the two surviving religious Orders of Knighthood but with the many Catholic founded but secularized Orders dynastic state and crown that exist today Drawing on source materials never before available the author is able to expose misunderstandings and misinformation and highlight errors that have been perpetuated sometimes for centuries Orders of Knighthood, Awards and the Holy See , 1983 **The Origins of Catholic Words**

Anthony Lo Bello, 2020-01-24 The study of the vocabulary of the Catholic religion may be taken as a definition of the liberal arts Origins of Catholic Words is a work of reference organized like a lexicon or encyclopedia There is an entry for each word of importance having to do with the Catholic Church Anthony Lo Bello gives the etymology of the word describes what it means and then adds whatever further discussion he feels is needed in some cases this amounts to several pages Lo Bello has assembled over a number of years lucid and wide ranging remarks on the etymology and history of the words that occur in the study of the Catholic religion A true labor of love this sophisticated one of a kind dictionary will delight those who take pleasure in learning Anyone interested in words and language indeed in culture will find something interesting on every page This is a book one may read and not just consult The author has been ecumenical in his choice of authorities J B Bury Lord Chesterfield Mandell Creighton S R Driver Ferdinand Gregorovius Dr Johnson Henry Charles Lea Bishop Lightfoot Thomas Babington Macaulay John Stuart Mill Henry Hart Milman Leopold von Ranke and Bertrand Russell find their places alongside Alban Butler Denzinger Ignaz D llinger the Abb Duchesne Adrian Fortescue Bishop Hefele Cardinal Gasparri Msgr Ronald Knox Msgr Horace K Mann John Henry Newman Ludwig von Pastor Wilfrid Ward William George Ward and Evelyn Waugh There have been many changes in the Catholic Church since 1962 and one of the goals of this book is to describe what will soon be missing from the memories of all living people Origins of Catholic Words may Lo Bello hopes make its small contribution so that the situation not arise which would convict Newman of error when he wrote What the Catholic Church once has had she never has lost **The Creation of States in International Law** James R. Crawford, 2007-03-15

Statehood in the early 21st century remains as much a central problem as it was in 1979 when the first edition of The Creation of States in International Law was published As Rhodesia Namibia the South African Homelands and Taiwan then were subjects of acute concern today governments international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union application of the Geneva Conventions to Afghanistan a final settlement for Kosovo and still relations between China and Taiwan All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice The remarkable increase in the number of States in

the 20th century did not abate in the twenty five years following publication of James Crawford s landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981 The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979 while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks With these developments the practice of States and international organizations has developed by substantial measure in respect of self determination secession succession recognition de colonization and several other fields Addressing such questions as the unification of Germany the status of Israel and Palestine and the continuing pressure from non State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States James Crawford discusses the relation between statehood and recognition the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states Also discussed are the mechanisms by which states have been created including devolution and secession international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non Self Governing Territories Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states
