Applied Behavior Analysis for Children with Autism

Spectrum Disorders Johnny L. Matson, 2009-09-18 Autism was once thought of as a rare condition until the Centers for Disease Control and Prevention's Autism and Developmental Disabilities Monitoring Network released the statistic that about 1 in every 150 eight year old children in various areas across the United States is afflicted by an autism spectrum disorder or ASD. This news led to a dramatic expansion of research into autism spectrum disorders and to the emergence of applied behavior analysis (ABA) as the preferred method of treatment even among prescribing practitioners. *Applied Behavioral Analysis for Children with Autism Spectrum Disorders* ably synthesizes research data and trends with best practice interventions into a comprehensive state of the art resource. Within its chapters leading experts review current ABA literature in depth, identify interventions most relevant to children across the autism spectrum and discuss potential developments in these core areas. Assessment methods from functional assessment to single case research designs. Treatment methods including reinforcement, replacement behaviors and other effective strategies. The role of the differential diagnosis in ABA treatment planning. Specific deficit areas: communication, social skills, stereotypies, rituals. Target behaviors such as self injury, aggression, adaptive and self help problems. ASD related training concerns including maintenance and transition issues and parent training programs. This volume is a vital resource for researchers, graduate students and professionals in clinical child and school psychology as well as the related fields of education and mental health.

An Introduction to Young Children With Special Needs Richard M. Gargiulo, Jennifer L. Kilgo, 2018-12-07 *An Introduction to Young Children with Special Needs Birth Through Age Eight* is a comprehensive introduction to educational policies, programs, practices and services for future practitioners serving young children with delays or disabilities in early intervention, early childhood special education, EI/ECSE. Thoughtfully addressing the needs of children at risk for learning or development delays or disabilities, revered authors Richard M. Gargiulo and Jennifer L. Kilgo offer evidence based interventions and instructional techniques that provide students with a broad understanding of important theoretical and philosophical foundations including evidence based decision making, developmentally appropriate practices, cultural responsiveness and activity based intervention.

Disability and Community Richard K. Scotch, Allison C. Carey, 2011-11-16 Examines an array of issues related to disability and community. This title also examines a range of social institutions and practices such as education, employment and cultural venues and the extent to which and how they include people with disabilities in the workings of these institutions.
