The Poetics of the Everyday Siobhan Phillips, 2009-12-28 Wallace Stevens once described the malady of the quotidian lamenting the dull weight of everyday regimen Yet he would later hail that which is always beginning over and over recognizing if not celebrating the possibility of fresh invention Focusing on the poems of Wallace Stevens Robert Frost Elizabeth Bishop and James Merrill Siobhan Phillips positions everyday time as a vital category in modernist aesthetics American literature and poetic theory She eloquently reveals how through particular but related means each of these poets converts the necessity of quotidian experience into an aesthetic and experiential opportunity In Stevens Phillips analyzes the implications of cyclic dualism In Frost she explains the theoretical depth of a habitual middle way In Bishop's work she identifies the attempt to turn recurrent mornings into a ceremony rather than a sentence and in Merrill she shows how cosmic theories rely on daily habits Phillips ultimately demonstrates that a poetics of everyday time contributes not only to a richer understanding of these four writers but also to descriptions of their era estimations of their genre and ongoing reconfigurations of the issues that literature reflects and illuminates

Stanley Cavell and Literary Studies Richard Eldridge, Bernard Rhie, 2011-09-22 Arguably no other living philosopher has done as much as Stanley Cavell to show the common cause shared by literature and philosophy Stanley Cavell and Literary Studies is not only timely but indeed long past due As the discipline of literary studies struggles to move beyond the suspicious skepticisms and anti humanisms that have dominated the field but without lapsing into sentimentality and na vet Cavell's writings and ideas will only become more pertinent

The Materiality of Language David Bleich, 2021-12-22 A critique of male dominated modes of language use their roots in higher education their effects and their spill over into popular culture David Bleich sees the human body its affective life social life and political functions as belonging to the study of language In *The Materiality of Language* Bleich addresses the need to end centuries of limiting access to language and its many contexts of use To recognize language as material and treat it as such argues Bleich is to remove restrictions to language access due to historic patterns of academic censorship and unfair gender practices Language is understood as a key path in the formation of all social and political relations and becomes available for study by all speakers who may regulate it change it and make it flexible like other material things A potentially foundational text in an emergent field of language studies whose work is to break up the monopoly Linguistics and Philosophy have had on the study of language The insight that the affective operation of language is elided in nearly all approaches to language acquisition is brilliant and astounding The analysis of subject creation as an affective process of recognizing and sharing the same affective state and language as the means for materializing affective states is fascinating and persuasive One of the book's distinctive features is the use of gender as a key normative analytical lens throughout It

would be difficult to exaggerate how rare this is among language thinkers and how productive it is for the arguments here
