**Ordinary People and Extraordinary Evil** Fred Emil Katz, 1993-07-01 What is it in the behavioral makeup of ordinary people operating in the course of ordinary daily living that lends itself to participating in horrendous activities and doing so at times with zeal at times with joy at times without duress Katz demonstrates that we do not need any special behavioral equipment for doing evil The very same behaviors can take us in both directions for either living humanely and decently or for doing evil This book demonstrates how some of these processes work and sensitizes us to the potential for evil in our ongoing daily activities This knowledge about ordinary behavior can empower us to take charge of our own direction and help us turn away from beguilings of evil when they come our way Ordinary People and Extraordinary Evil Fred Emil Katz, 2010-03-31 What is it in the behavioral makeup of ordinary people operating in the course of ordinary daily living that lends itself to participating in horrendous activities and doing so at times with zeal at times with joy at times without duress Katz demonstrates that we do not need any special behavioral equipment for doing evil The very same behaviors can take us in both directions for either living humanely and decently or for doing evil This book demonstrates how some of these processes work and sensitizes us to the potential for evil in our ongoing daily activities This knowledge about ordinary behavior can empower us to take charge of our own direction and help us turn away from beguilings of evil when they come our way **Ordinary People and Extraordinary Evil** Fred E. Katz, 1993-07-01 Posits that our most ordinary behavior can lead us to participate in the most horrendous acts perhaps even with zeal and joy but certainly without remorse Using the Holocaust as the pivotal example examines the lives of the head of Auschwitz and a physician there then the life of an exemplary physician to show the similarity an American officer in Vietnam is also examined Paper edition unseen 12 95 Annotation copyright by Book News Inc Portland OR **Perpetrating the Holocaust** Paul R. Bartrop, Eve E. Grimm, 2019-01-11 Weaving together a number of disparate themes relating to Holocaust perpetrators this book shows how Nazi Germany propelled a vast number of Europeans to try to re engineer the population base of the continent through mass murder A comprehensive introductory essay along with a detailed chronology reference entries primary sources images and a bibliography provide crucial information that readers need in order to understand Hitler s plan as carried out through legislation and armed violence The book also demonstrates that both within Nazi Germany and in other parts of Europe all sectors of society played a role in planning facilitating and executing the Final Solution In addition to entries on nearly 150 perpetrators the book includes 25 primary source documents ranging from government memoranda to first hand observations of Nazi killing activities to field reports from senior officers on the scene of Holocaust killing sites Also included are excerpts from literary memoirs Students and researchers will find these documents to be fascinating statements as well as excellent source material for further research Humanity at the Limit Michael Alan Signer, 2000 Five decades after the end of World War II issues relating to the history and meaning of the Holocaust far from fading from social consciousness

have if anything intensified New generations probe the past and its implications for understanding human behavior As fresh information about the particularities of the Holocaust comes to light we know more and more about how these events happened but the deeper question of why remains unanswered In this compelling volume Jewish and Christian thinkers from Israel Germany and Eastern Europe as well as the United States and Canada among them scholars from the fields of history theology ethics genetics the arts and literature confront the legacy of the Holocaust and its continuing impact from the perspectives of their disciplines The issue of religion is central as the Vatican s 1998 statement We Remember Reflections on the Shoah prompts Jewish and Christian contributors to address issues of responsibility evil and justice within their concrete historical and social settings The essays in this important interfaith international and interdisciplinary volume will leave readers pondering the unavoidable question what in view of the crimes of the Holocaust is the nature of human nature

Amazon com **War Criminals on Trial** Damien Scalia,2025-10-16 This book critically examines the practice of international criminal justice based on the experience of war criminals who have been tried for their crimes Presenting the perspectives of those commonly referred to as genocidaires war criminals or criminals against humanity this book presents their experience of international criminal justice and its impact on them By presenting their points of view and their feelings about justice it becomes possible to describe the way in which this branch of justice is apprehended by the perpetrators of mass crimes to produce testimony about the lived penal experience and to analyse the functioning of this institution through a new prism that of the persons standing trial From this perspective a new analysis of international justice is produced one that reveals its aporias as it demonstrates the difficulties international criminal justice faces insofar as the justifications that support it are not all confirmed and as some of the expectations placed on it are shown to be difficult to reach if not clearly unattainable Based on over 60 interviews carried out over a period of twelve years with persons tried by the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda this book offers a unique analysis of the working of international criminal justice This interdisciplinary book will appeal to those with relevant interests in law criminology sociology and criminology **Enemies Within the Gates?** William J. Chase,2001-01-01 This compelling work of documentary history tells a story of idealism betrayed a story of how the Comintern Communist International an

organization established by Lenin in 1919 to direct and assist revolutionary movements throughout the world participated in and was ultimately destroyed by the Stalinist repression in the late 1930s Presenting and drawing on recently declassified archival documents William J Chase analyses the Comintern s roles as agent instrument and victim of terror In both principle and practice the Comintern was an international organization with a staff that consisted primarily of Communist emigres who had fled dictatorial regimes in Europe and Asia It was however headquartered in Moscow and controlled by Soviet leaders This book examines the rise of suspicions and xenophobia among Soviet and Comintern leaders and cadres for whom many foreigners were no longer the heroes of the class struggle but rather possible enemy agents Some Comintern members

internalised and acted on Stalin's theories about the infiltration of foreign spies into Soviet society supplying the Soviet police with information that led to the exile or execution of emigres. Thousands of other emigres also became victims of the purges. Together the text and documents of this book convey graphically the essential roles played by the Comintern providing a unique perspective on the era of Stalinist repression and terror. **Public Sector Leadership** Jeffrey A. Raffel, Peter Leisink, Anthony E. Middlebrooks, 2009-01-01

A truly international examination of public sector leadership this book explores the ways leaders of developed nations are addressing current challenges. The overriding question explored by the authors is how public leadership across the globe addresses new challenges such as security, financial, demographic, new expectations of leaders and what public sector leadership means in the new era. The book allows the reader to view a large number of situations across the globe to better understand the relation between context and leadership. It integrates the two fields of leadership and public administration providing a wide ranging and complementary empirical context to the topic. Transcending state centered perspectives the authors include new developments in governance and public private sector collaboration while retaining a focus on the public values involved. The chapters address public sector leadership issues in a wide array of nations integrating international perspectives with a globally diverse authorship. Several chapters address issues of collaboration across sectors, changing roles in the New Public Management paradigm and corresponding new visions of leadership. Several of the chapters are explicitly comparative including a study of mental health leadership training topics in eight nations, central banking in Europe and efficiency studies in Britain, Denmark and Norway. The chapters can be used as thought provoking case studies as part of a supplemental text and are accompanied by substantial bibliographies. Scholars, students and practitioners in leadership, public policy and administration and organization studies will find this volume a useful reference. **Governments, Citizens, and Genocide** Alex Alvarez, 2001-02-22

**Governments, Citizens, and Genocide** Alex Alvarez, 2001-02-22. Governments, Citizens and Genocide: A Comparative and Interdisciplinary Approach. Alex Alvarez. A comprehensive analysis demonstrating how whole societies come to support the practice of genocide. Alex Alvarez has produced an exceptionally comprehensive and useful analysis of modern genocide. It is perhaps the most important interdisciplinary account to appear since Zygmunt Bauman's classic work *Modernity and the Holocaust*. Stephen Feinstein, Director, Center for Holocaust and Genocide Studies. Alex Alvarez has written a first rate propaedeutic on the running sore of genocide. The singular merit of the work is its capacity to integrate a diverse literature in a fair minded way and to take account of genocides in the post Holocaust environment ranging from Cambodia to Serbia. The work reveals patterns of authoritarian continuities of repression and rule across cultures that merit serious and widespread public concern. Irving Louis Horowitz, Rutgers University. More people have been killed in 20th century genocides than in all wars and revolutions in the same period. Recent events in countries such as Rwanda and the former Yugoslavia have drawn attention to the fact that genocide is a pressing contemporary problem, one that has involved the United States in varying negotiating and peace keeping roles. Genocide is increasingly recognized as a

threat to national and international security as well as a source of tremendous human suffering and social devastation Governments Citizens and Genocide views the crime of genocide through the lens of social science It discusses the problem of defining genocide and then examines it from the levels of the state the organization and the individual Alex Alvarez offers both a skillful synthesis of the existing literature on genocide and important new insights developed from the study of criminal behavior He shows that governmental policies and institutions in genocidal states are designed to suppress the moral inhibitions of ordinary individuals By linking different levels of analysis and comparing a variety of cases the study provides a much more complex understanding of genocide than have prior studies Based on lessons drawn from his analysis Alvarez offers an important discussion of the ways in which genocide might be anticipated and prevented Alex Alvarez is Associate Professor in the Department of Criminal Justice at Northern Arizona University His primary research interests are minorities crime and criminal justice as well as collective and interpersonal violence He is author of articles in Journal of Criminal Justice Social Science History and Sociological Imagination and is currently writing a book on patterns of American murder April 2001 240 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33849 2 29 95 s 22 95 Contents The Age of Genocide A Crime By Any Other Name Deadly Regimes Lethal Cogs Accommodating Genocide Confronting Genocide     **Behind the Fog** Lisa Martino-Taylor, 2017-07-28 Behind the Fog is the first in depth comprehensive examination of the United States Cold War radiological weapons program The book examines controversial military sponsored studies and field trials using radioactive simulants that exposed American civilians to radiation and other hazardous substances without their knowledge or consent during the Cold War Although Western biological and chemical weapons programs have been analyzed by a number of scholars Behind the Fog is a strong departure from the rest in that the United States radiological weapons program has been generally unknown to the public Martino Taylor documents the coordinated efforts of a small group of military scientists who advanced a four pronged secret program of human subject radiation studies that targeted unsuspecting Americans for Cold War military purposes Officials enabled such projects to advance through the layering of secrecy by embedding classified studies in other studies and through outright deception Agency and academic partnerships advanced supported and concealed the studies from the public at large who ultimately served as unwitting test subjects Martino Taylor s comprehensive research illuminates a dark chapter of government secrecy the military industrial academic complex and large scale organizational deviance in American history In its critical approach Behind the Fog effectively examines the mechanisms that allow large scale elite deviance to take place in modern society     *Terrorist Movements and the Recruitment of Arab Foreign Fighters* Roger Warren, 2020-02-20 This book offers the first detailed in depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism Drawing on a personal dataset of 3 010 Arab foreign fighters compiled using biographies martyrdom eulogies and postings on jihadi websites Terrorist Movements and the Recruitment of Arab Foreign Fighters suggests that the subsequent involvement in Islamist terrorism by

some Arab foreign fighters is primarily forged in the crucible of defensive jihad

**The Accidental Immigrant** Kyriacos C. Markides, 2021-04-28 The Accidental Immigrant is the capstone work of world renown author Professor Kyriacos C Markides based on his over fifty year quest for an authentic understanding of the true nature of Reality As a teenager he arrived at the docs of New York in 1960 with the purported aim of earning a business degree and returning to his native Cyprus Thanks to a string of uncanny coincidences he soon realized that the real meaning and purpose of his Atlantic crossing was not the acquisition of practical skills but the development of his social awareness and spiritual consciousness This is the story among other things of his valiant struggles to assimilate within American society and culture of his peace activism to help heal the wounds of ethnic strife in his native Island and of his relentless quest for spiritual fulfillment within the challenging confines of the secular and agnostic world of modern academia As a sociologist and a field researcher he shares with us his encounters with a variety of remarkable people that include colorful Christian shamans and healers possessors of paranormal gifts as well as charismatic monks and ascetics who exposed him to the magnificent spiritual wisdom of Eastern mystical Christianity It is among other things these kinds of experiences that step by step led him to realize that there is a deeper Truth over and beyond our physical and sensate universe that is the foundation and wellspring of everything that happens in our lives within the three dimensional world And it is this awareness that could eventually lead towards the integration of the best of science with the best of religion for the long term survival of the human race

Our Quest for Effective Living Fred Emil Katz, 2009-06-15 The book gives new illumination to many facets of life from human sexuality to the appeal of false messiahs from stage fright among even the most accomplished performers to suicide among successful writers from enjoyment of opera to morally justifying murderous deeds It does all of these and much more by clarifying four dimensions of social space in which we humans exist The sequel to this book is WE LIVE IN SOCIAL SPACE also published by AuthorHouse

**State Crime** Penny Green, Tony Ward, 2004-01-20 What is state crime This book sets out the parameters of state crime and highlights the complex issues involved The authors provide a clear chapter by chapter assessment of state violence corruption state involvement in organised and corporate crime avoidable natural disasters torture criminal policing war crimes and genocide Penny Green and Tony Ward put forward a powerful argument drawing from a range of disciplines including law criminology human rights international relations and political science They develop a theoretical approach to understanding the boundaries of state crime employing the concepts of deviance and human rights Making distinctive use of original research and using a variety of international case studies this compelling book offers a fresh and sophisticated approach to this controversial and difficult subject

*Civil Courage* Naomi Kramer, 2007 If we are responsible educators the causes of the Holocaust must be addressed in order to prevent future genocide Contemporary Jewish Identity Emanuele Ottolenghi and Mark Weitzman examine contemporary antisemitism in Europe and North America respectively Michael Pollan reflects upon Jewish identity from the unique perspective of a young Jew who worked as a civil servant for the

Austrian government in a program designed to acknowledge Austria's role as a perpetrator of the Shoah Testimony Firsthand testimony will soon be available only in memoirs or recorded oral histories In the future second and subsequent generations must speak as witnesses Sheldon Schreter a grandchild of Holocaust victims describes a visit with his four sons to Sighet Romania his parents birthplace and struggles with the question of Why The prevention of genocide is in large measure dependent upon the good will and intervention of citizens living in modern cultures      *The Relativity of Deviance* John Curra,2016-01-25 This engaging and informative book by award winning sociologist and criminologist John Curra offers a valuable perspective on attitudes and behaviors labeled as deviant The Relativity of Deviance Fourth Edition explores the meanings and constructions of social deviance and social reactions to it he answers such questions as What is deviance What comprises deviant behavior How are deviants treated How is deviance socially constructed and socially sustained Why is the same attitude behavior or condition praised in one situation and condemned in another Through insightful and thought provoking examples and informed accounts the author illustrates that deviance cannot be explained or understood in terms of absolutes or essential characteristics nor can it be explained or understood apart from its social setting This book approaches sex violence theft drugs suicide rape and mental disorders in a way that shows the critical role of sociocultural factors and social reactions in constructions of deviance and crime      **Meeting the Ethical Challenges of Leadership** Craig E. Johnson,2008-07-23 Meeting the Ethical Challenges of Leadership Third Edition identifies the unique ethical demands of leadership and equips students to meet those challenges It retains the elements of the text that have contributed to its success while broadening its appeal The book continues to reflect an informal accessible style to focus on personal assessment and application to draw from a variety of academic disciplines to provide tools and techniques for creating positive ethical climates and to feature contemporary cases New to the Third Edition coverage is expanded to reflect the growing interest in leadership ethics incorporating new topics theory and research findings a new chapter on ethical influence a references section at the end of the book      *Emotions, Decision-Making and Mass Atrocities* Olaoluwa Olusanya,2016-05-06 This book rehumanizes perpetrators of mass atrocities At present a victim perpetrator dichotomy appears to be the dominant paradigm perpetrators have either been mechanistically dehumanized that is perceived as unemotional hard hearted and conforming and thereby lacking the core features of human nature or alternatively they have been animalistically dehumanized In other words they are seen as immoral unintelligent lacking self control and likened to animals Within sociology and criminology the dominant view is that genocide and other mass atrocities are committed by technologically lobotomized perpetrators Somehow the process of rationalization is believed to have transformed these people from emotionally healthy people into hollow soulless shells of human beings or zombies devoid of a full range of normal emotions These people are considered bereft of any ability to reason think or feel yet ambulant and able to respond to surrounding stimuli However it is difficult to imagine crime especially those involving a group of people working together for

the duration of a particular criminal activity without emotions For instance there is ample evidence suggesting that both crimes of passion and pre meditated crimes involve emotional arousal Furthermore research in fields such as evolutionary biology psychology and sociology of work and organizations suggest that emotions are essential for human progress and survival In addition emotions help us make the right call in risky and uncertain situations in other words the majority of real life situations There is therefore a need to revisit existing assumptions around the role of emotions in mass atrocities

**The Remnants of War** John Mueller,2007 Mueller argues that war is an idea like dueling or slavery that has been substantially discredited reduced to its remnants or dregs and thugs are the residual combatants
