Recasting History Monica MacDonald, 2019-06-15 Since 1952 CBC television has played a unique role as the primary mass media purveyor of Canadian history Yet until now there have been no comprehensive accounts of Canadian history on television Monica MacDonald takes us behind the scenes of the major documentaries and docudramas broadcast on the CBC including *Explorations 1956-64* and the series *Images of Canada 1972-76* *The National Dream 1974* *The Valour and the Horror 1992* and *Canada A People's History 2000-02* Drawing on a wide range of sources MacDonald explores how producers struggled to represent the Canadian past under a range of external and internal pressures Despite dramatic shifts in the writing of history over this period she determines that television themes and interpretations largely remained the same The greater change was in the production and presentation particularly in the role of professional historians as journalists emerged not only as the new producers of Canadian history on CBC television but also as the new content authorities A critique of public history through the lens of political economy *Recasting History* reveals the conflicts compromises and controversies that have shaped the CBC version of the Canadian past

Connecting with the “IN“ Crowd: How to Network, Hang Out, and Play with Millionaires Online, Alan Bowker's Canadian Heritage 2-Book Bundle Alan Bowker, 2015-12-07 In this two book bundle Alan Bowker sheds new light on two subjects with a

surprising connection the great Canadian writer Stephen Leacock and the rise of Canada on the world stage which Leacock profiled with keen wit and observational skill With Bowker as your guide explore what it was really like to live through the great upheaval that pushed Canada to come into its own on the world stage A Time Such as There Never Was Before Ottawa Book Award 2015 Shortlisted The years after World War I were among the most tumultuous in Canadian history a period of unrelenting change drama and conflict They were in the words of Stephen Leacock a time such as there never was before The war had been a great crusade and its end was supposed to bring a world made new But the conflict had cost sixty thousand Canadian lives with many more wounded and had stirred up divisions in the young diverse country With Canada struggling to define itself labour farmers business the church social reformers and minorities all held extravagant hopes irrational fears and contradictory demands Whose hopes would be realized and whose dreams would end in disillusionment Which changes would prove permanent and which would be transitory A Time Such As There Never Was Before describes how this exciting period laid the foundation of the Canada we know today On the Front Line of Life In the last decade of his life Stephen Leacock turned to writing informal essays that blended humour with a conversational style and ripened wisdom to address issues he cared about most education literature economics Canada and its place in the world and to confront the joys and sorrows of his own life With an introduction that sets them in the context of his life thoughts and times these essays reveal a passionate intelligent personal Leacock against a backdrop of Depression and war finding hope and conveying the timeless message that only the human spirit can bring social justice peace and progress **Left, Right** Engler Yves Engler, 2019-10-15 The left is supposed to be opposed to colonialism and at least skeptical of nationalism However Left Right shows that for decades now this hasn't been the case in Canada Yves Engler marshals damning detail on the long surprising history of support from the New Democratic Party and labor unions for such policies and international interventions as the coup in Haiti the assassination of Patrice Lumumba the Bay of Pigs invasion the Korean War and much more The rhetoric of the mainstream left he shows has also tended to concede major points to the dominant war mongering ideology with prominent commentators such as Linda McQuaig and Stephen Lewis echoing the terminology of right wing politicians and thinkers More than simply diagnosing a problem however Left Right offers a path forward laying out ways to get us working for an ecologically sound peace promoting and non exploitative foreign policy *Tax, Order, and Good Government* E.A. Heaman, 2017-06-08 Was Canada's Dominion experiment of 1867 an experiment in political domination Looking to taxes provides the answer they are a privileged measure of both political agency and political domination To pay one's taxes was the sine qua non of entry into political life but taxes are also the point of politics which is always about the control of wealth Modern states have everywhere been born of tax revolts and Canada was no exception Heaman shows that the competing claims of the propertied versus the people are hardwired constituents of Canadian political history Tax debates in early Canada were philosophically charged politically consequential dialogues about the relationship between wealth and poverty

Extensive archival research from private papers commissions the press and all levels of government serves to identify a rising popular challenge to the patrician politics that were entrenched in the Constitutional Act of 1867 under the credo Peace Order and good Government Canadians wrote themselves a new constitution in 1867 because they needed a new tax deal one that reflected the changing balance of regional racial and religious political accommodations In the fifty years that followed politics became social politics and a liberal state became a modern administrative one But emerging conceptions of fiscal fairness met with intense resistance from conservative statesmen culminating in 1917 in a progressive income tax and the bitterest election in Canadian history Tax Order and Good Government tells the story of Confederation without exceptionalism or misplaced sentimentality and in so doing reads Canadian history as a lesson in how the state works Tax Order and Good Government follows the money and returns taxation to where it belongs at the heart of Canada s political economic and social history

The Democratization of Canadian Architecture Anthony Jackson,1978

The Netherlandic Presence in Ontario Frans J. Schryer,2006-01-01 Schryer s central argument is that ethnic groups are as much modern myths as they are integral components of a socially constructed reality Focusing on the large cohort of immigrants from the Netherlands and the former Dutch East Indies who arrived in Canada between 1947 and 1960 Schryer shows how the Dutch despite a loss of ethnic identity and a high level of linguistic assimilation replicated many aspects of their homeland While illustrating and illuminating the diversity among immigrants sharing a common national origin Schryer keeps sight of what is common among them In doing so he shows how deeply ingrained habits were modified in a Canadian context resulting in both continuities and discontinuities The result is a variegated image reflecting a multidimensional reality
