Clucas, Mark Henkels, Brent Steel, 2005-01-01 The political culture of Oregon has long had a reputation for innovative policy maverick politicians and independent political thought but instead of using the term progressive to describe the state s political leanings the editors of Oregon Politics and Government believe a more accurate descriptor would be schizophrenic Oregon Politics and Government provides not only an overview of the state s politics and government it also explains how the divide between progressives and conservative populists defines Oregon politics today Early in the state s history reformers championed many causes the initiative and referendum process for setting public policy the recall of public officials the direct election of U S senators and women s suffrage Since then the state has asserted control over beaches imposed strict land use laws created an innovative regional government introduced voting through the mail allowed for physician assisted suicide and experimented with universal healthcare Despite this list of accomplishments however Oregon is divided between two competing visions one that is tied to progressive politics and another that is committed to conservative populism While the progressive side supports a strong and active government the conservative populist side seeks a smaller government lower taxes fewer restrictions on private property and protection for traditional social values The struggle between these two forces drives Oregon politics and policies today Searching the

Euthanasia in the Netherlands R. Cohen-Almagor, 2008-04-08 The Dutch experience has influenced the debate on euthanasia and death with dignity around the globe especially with regard to whether physician assisted suicide and euthanasia should be legitimized or legalized A review of the literature reveals complex and often contradictory views about the Dutch experience Some claim that the Netherlands offers a model for the world to follow others believe that the Netherlands represents danger rather than promise and that the Dutch experience is the definitive answer regarding why we should not make active euthanasia and physician assisted suicide part of our lives Given these contradictory views it has become clear that fieldwork is essential to developing a more informed opinion Having investigated the Dutch experience for a number of years and after thoroughly reading the vast literature published in English I went to the Netherlands for one month in the summer of 1999 to get a feel for the local situation I felt that this would provide the basis on which I could better interpret the findings of the available literature I visited the major centers of medical ethics as well as some research hospitals and spoke with leading figures in the euthanasia policy and practice The time spent was extremely beneficial and enriching I followed in the footsteps of Carlos Gomez who 1 published a book following one month of extensive research in the Netherlands

Breeding Contempt Mark A. Largent, 2011 From the Publisher Most closely associated today with the Nazis and World War II atrocities eugenics is sometimes described as a government orchestrated breeding program other times as a pseudo science and often as the first step leading to genocide Less frequently is it depicted as a movement having links to America a nation that has historically prided itself for its scientific rationality But eugenics does have a history in the United States a history that is largely the story of biologist Charles Davenport Davenport who led the Eugenics Records Office in the late nineteenth century provided physicians social scientists and lawmakers with the scientific data and authority that enabled them to coercively sterilize men and women who were thought to be socially deviant unfit to pass on their genes and unable to raise healthy children Moreover Mark A Largent shows how even in modern times remnants of eugenics philosophies persist in this country as certain public figures advocate a brand of birth control such as progesterone shots for male criminals that are only steps away from the castrations that were once performed
