Timberlake, 2012-12-01 *Organic and Biological Chemistry* Karen C. Timberlake, 2002. Topics in each chapter build from basic ideas that connect with the student's experience to the more complex chemistry content. Art and design provide visual representations of concepts at both the atomic and macromolecular real-life levels. Every section contains one or more sample problems which serve as models to assist students in developing problem-solving skills. Each sample appears with a complete discussion of its solution plus a study check for immediate practice with answers provided at the end of the chapter. Sets of questions and problems integrated throughout and at the end of each chapter encourage students to apply new material immediately and test their understanding. Pedagogy includes learning goals for each chapter, chapter summaries keyed to each section, and key terms which first appear in boldfaced type and are listed in a glossary at the end of the chapter and in the index at the back of the text. Hands-on Explore Your World activities using everyday material at home encourage students to actively explore selected chemistry topics as part of their learning experience. These along with Health and Environmental Notes that apply concepts to real **General, Organic, and Biological Chemistry** Karen C. Timberlake, 2014-12-29. NOTE: This edition features the same content as the traditional text in a convenient three-hole punched loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab Mastering products exist for each title, including customized versions for individual schools and registrations are not transferable. In addition, you may need a CourseID provided by your instructor to register for and use Pearson's MyLab Mastering products. xxxxxxxxxxxxxxxx **General Organic and Biological chemistry 2 semester**. between chemistry and their intended careers as they develop the problem solving skills they'll need beyond the classroom. The Fifth Edition fully integrates the text with MasteringChemistry to provide an interactive and engaging experience. New Construct a Concept Map activities help students connect ideas through video solutions and live demonstrations while the text and media establish a clinical focus that ties chemistry directly to allied health. Instructors can also assign MasteringChemistry's new Dynamic Study Modules which enable students to remediate core math and chemistry skills outside of class, freeing professors to focus on GOB Chemistry concepts and problem solving during class. Superior support beyond the classroom with MasteringChemistry. MasteringChemistry from Pearson is the leading online homework tutorial and assessment system designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever before, during and after class.
