Uncanny Creatures Christophe Koné, 2024 Germany held a monopoly on the manufacture and export of bisque toy dolls in Europe before WWI Yet dolls omnipresence in the material visual and literary culture of the modern German speaking world has so far not been properly addressed In demonstrating this cultural affinity for dolls Christophe Koné draws upon a range of stories and seminal essays on dolls as well as toys sculptures paintings and photographs He examines how E T A Hoffmann's romantic tale *The Sandman* 1815 has been a major source of inspiration for German speaking doll makers because of how it centers imagination and inventiveness Using Hoffmann's tale as an early example of an amalgam between doll thinking and making in German culture Koné shows how it initiated a genealogy of doll thinkers Freud Jentsch writers Rilke painters Kokoschka photographers Bellmer and makers Pritzel *Uncanny Creatures* then explores how this unusual interest in human like figures continues a long tradition of thought devoted to conceptualizing things from Immanuel Kant's theory of the thing in itself to Martin Heidegger's lecture on the thing and Eduard M. Rilke or Rainer Maria Rilke's thing poems Because dolls

occupy a liminal space not quite things and more than mere objects they appear as uncanny creatures which have held a fascination for writers thinkers and artists alike Uncanny Creatures moves past the Freudian discourse of fetishism to propose a new reading of doll artifacts in German culture centered on their ability to evoke a feeling of uncertainty and unsettlement in the viewer Index Medicus ,1888 *Index-catalogue of the Library of the Surgeon-General's Office, United States Army* National Library of Medicine (U.S.),1922
