Dr. Pratap R Desai, **Medicinal Plants** John Lambert, Jitendra Srivastava, Noel Vietmeyer, 1997-01-01 The complex and important relationship between public expenditure and economic performance has been the subject of numerous econometric studies But the studies remain inconclusive some results have shown positive relationships while others are negative Thus there is no conventional wisdom backed by statistical evidence on this relationship nor is there any sort of clear theoretical underpinning that explains how the aggregate of government spending acts on the growth of total output This book studies the role of public expenditures in a noneconometric way by examining a number of specific instances of these expenditures and their direct effect on economic performance Specifically the authors presents scenarios from Botswana Ghana Guinea Kenya and Zambia and ask a series of questions to identify and illuminate the impact of these instances of public expenditure on a number of variables that help measure economic performance These examples are then used to make generalizations about the relationship between public spending and economic performance **Medicinal and Aromatic Plants of the World - Africa Volume 3** Mohamed Neffati, Hanen Najjaa, Ákos Máthé, 2017-09-07 This volume in the series is devoted to Africa a continent that possesses a vast treasure of medicinal plants and has produced some exclusive materials for the world market This volume is expected to strengthen the medicinal plant sector in African countries by making comprehensive information on medicinal and aromatic plants available to policy makers and entrepreneurs It can be used to frame effective policies and create an environment conducive to the growth of the plant based medicine industry bringing economic benefit to African nations It will help health organizations to improve the health of their people by using their own resources and a less expensive system of medicine which is accepted by African society It could also lead scientific communities to increase R D activities in the field **Scent and Subversion**
