Bomberger, 2013-07-17 Edward MacDowell was born on the eve of the Civil War into a Ouaker family in lower Manhattan where music was a forbidden pleasure With the help of Latin American migr teachers he became a formidable pianist and composer spending twelve years in France and Germany establishing his career Upon his return to the United States in 1888 he conquered American audiences with his dramatic Second Piano Concerto and won his way into their hearts with his poetic Woodland Sketches Columbia University tapped him as their first professor of music in 1896 but a scandalous row with powerful university president Nicholas Murray Butler spelled the end of his career MacDowell died a broken man four years later but his widow Marian kept his spirit alive through the MacDowell Colony which she founded in 1907 in their New Hampshire home and which is today the oldest and one of the most influential thriving artist colonies in the United States Drawing on private letters that were sealed for fifty years after his death this biography traces MacDowell's compelling life story with new revelations about his Quaker childhood his efforts to succeed in the insular German music world his mysterious death and his lifelong struggle with Seasonal Affective Disorder Edward MacDowell's story is a timeless tale of human strength and weakness set in one of the most vibrant periods of American musical history when optimism about the *Urban Rehearsals and Novel Plots in the Early American City* Betsy country's artistic future made anything seem possible Klimasmith, 2021-11-04 Urban Rehearsals and Novel Plots in the Early American City sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research Urban Rehearsals argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic's aftermath and showed New Yorkers how the domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed Balancing attention to canonical texts of the early Republic including The Power of Sympathy Charlotte Temple and Benjamin Franklin's Autobiography with novels whose depiction of early cities deserves greater attention such as Ormond The Boarding School Monima and Kelroy this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation s early cities

Journal of the Boston Society of Civil Engineers Boston Society of Civil Engineers,1925 **Edward MacDowell's European Piano Music** Paul Bertagnolli,2024-09-10 Edward MacDowell's European Piano Music is a critical study of the piano music that MacDowell composed during his European sojourn 1876 1888 steeped in reception history and with a

special emphasis of programmaticism The book expands current knowledge of MacDowell's childhood in four of the chapters based on his previously uninvestigated sheet music collection thereby achieving a better balance among the stages of MacDowell's life than is evident in most books of the life and works variety Prolific contemporaneous music criticism meticulously preserved in MacDowell's scrapbooks is likewise undervalued in the MacDowell literature but it furnishes penetrating observations about the expressive and programmatic content of numerous compositions especially as it was revealed to critics when MacDowell performed his own works Lastly the book offers explanations for why MacDowell immersed himself in European culture for decades and then at a crucial juncture in his career embraced diverse American heritages and worked toward a conception of a pluralistic music that was American in a creative sense The book's content and methodology would appeal most directly to specialists within the broad fields of musicology and music theory particularly within American art music and its composers nineteenth century music program music reception history and piano literature Boot and Shoe Recorder ,1894
