Rape Weapon Of Terror:

Rape Sharon Frederick, 2001 This book is a well researched and moving account of how sexual assault on women has become a potent weapon in virtually all armed conflicts Chapters giving historical and geographic perspectives describe how rape has been used throughout the ages and around the world Case histories reveal the individual tragedies within the broad picture

Female Soldiers in Sierra Leone Megan H. MacKenzie, 2015-11 The eleven year civil war in Sierra Leone from 1991 to 2002 was incomprehensibly brutal it is estimated that half of all female refugees were raped and many thousands were killed While the publicity surrounding sexual violence helped to create a general picture of women and girls as victims of the conflict there has been little effort to understand female soldiers involvement in and experience of the conflict **Female Soldiers in Sierra Leone** draws on interviews with 75 former female soldiers and over 20 local experts providing a rare perspective on both the civil war and post conflict development efforts in the country Megan MacKenzie argues that post conflict reconstruction is a highly gendered process demonstrating that a clear recognition and understanding of the roles and experiences of female soldiers are central to both understanding the conflict and to crafting effective policy for the future

Sexual Violence as a Weapon of War? Maria Eriksson Baaz, Professor Maria Stern, 2013-05-09 All too often in conflict situations rape is referred to as a weapon of war a term presented as self explanatory through its implied storyline of gender and warring In this provocative but much needed book Eriksson Baaz and Stern challenge the dominant understandings of sexual violence in conflict and post conflict settings Reading with and against feminist analyses of the interconnections between gender warring violence and militarization the authors address many of the thorny issues inherent in the arrival of sexual violence on the global security agenda Based on original fieldwork in the Democratic Republic of the Congo as well as research material from other conflict zones **Sexual Violence as a Weapon of War** challenges the recent prominence given to sexual violence bravely highlighting various problems with isolating sexual violence from other violence in war A much anticipated book by two acknowledged experts in the field on an issue that has become an increasingly important security legal and gender topic

The Abuse of Power James Newton Poling, 1991-12-01 Pastoral care instruction and observation from a therapist of survivors of sexual abuse **The Abuse of Power** is must reading for clergy and denominational officials Weaving case stories with theory Poling demonstrates that sexual abuse of children is not a private matter but very much a matter for society and church a question of structure and ideology not just of individual character He is not afraid to tackle the tough question Does the image of God sacrificing Jesus on the cross contribute to abusive parent child relationships If pastors and church officials read this book the church will change Karen Lebacqz Pacific School of Religion For the exploitation of women and children to stop men must be willing to break ranks with all forms of privilege that sanction male dominance James Poling does so by deconstructing his own sense of male entitlement by refusing to distance himself from perpetrators by allowing survivors of sexual and domestic violence to speak with their own voices by

giving us profound words of hope and by articulating a powerfully healing theology wrought through the depths of his own struggle with one of the worst evils in our society His courageous and compassionate work reveals the love and hope that is born of solidarity across the boundaries of gender sexual orientation race and economics The psychological political spiritual and theological power of this book is such that all educators ministers therapists and Christians must read it Rita Nakashima Brock Hamline University Chapter titles are 1 Hearing the Silenced Voices 2 Power and Abuse of Power 3 Karen Survivor of Sexual Violence 4 Stories of Recovering Perpetrators 5 The Schreber Case Methods of Analysis 6 The Search for Self 7 The Search for Community 8 The Search for God 9 Ministry Practice and Practical Theology Research Into Violent Behavior United States. Congress. House. Committee on International Relations. Subcommittee on Asia and the Pacific,2004 Conflict-Related Violence against Women Aisling Swaine,2018-02-15 By comparatively assessing three conflict affected jurisdictions Liberia Northern Ireland and Timor Leste Conflict Related Violence against Women empirically and theoretically expands current understanding of the form and nature of conflict time harms impacting women The violences that occur in conflict beyond strategic rape are first identified Employing both a disaggregated and an aggregated approach relations between forms of violence within and across each context s pre mid and post conflict phase are then assessed identifying connections and

distinctions in violence Swaine highlights a wider spectrum of conflict related violence against women than is currently acknowledged She identifies a range of forces that simultaneously push open and close down spaces for addressing violence against women through post conflict transitional justice The book proposes that in the aftermath of conflict a transformation rather than a transition is required if justice is to play a role in preventing gendered violence before conflict and its appearance during and after conflict

Decades of terror United States. Congress. House. Committee on Government Reform. Subcommittee on Human Rights and Wellness, 2004

Symbolism in Terrorism Jonathan Matusitz, 2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the

chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries key points review questions research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism **White Man Falling** Abby L.

Ferber,1999-09-15 The voice and writings of white supremacists provide the basis for Abby Ferber s provocative critique of America s most extreme form of racism Using excerpts and illustrations from such rarely seen publications as National Vanguard White Patriot and White Power this new book explores the world of white supremacists and the way they imagine racial and gender identity Ferber examines their belief that white men are becoming victims and their response to this threat the reassertion of white male power This book provides a history of race as a concept as well as an account of the white supremacist movement including such groups as the Ku Klux Klan the Neo Nazis and skinheads Ferber puts this movement into a wider context arguing that in important respects white supremacist ideology resembles that of the mainstream by sharing basic assumptions about race and gender **White Man Falling** is a startling portrait of the perception that white masculinity is in crisis and white supremacist attempts to reassert dominance The end picture is one that holds serious repercussions not only for the future of the white man but for all people Encyclopedia of Terrorism, Third Edition Cindy

Duncan,Orla Lynch,Gilbert Ramsay,Alison M.S. Watson,2013-03-05 This book aims to improve understanding of the broad trends in the utilisation of political violence by examining the use of state terror in world politics The ending of the Cold War and the overthrow of communism in Eastern Europe led many to assume that this presaged the demise of the one party terror regime and acceptance of Western concepts of democracy freedom and human rights throughout the international

system But of course this did not end state terror The totalitarian one party state still exists in North Korea and China and there are numerous military regimes and other forms of dictatorship where the use of terror techniques for internal control is routine The late Professor Paul Wilkinson conceived and began this project with the intention of analysing the major types of international response to state terror as well as their outcomes and their wider implications for the future of international relations In keeping with this original premise the contributors explore the history of terrorism as well as reflecting on the need for international cooperation based on the protection of civilians and a consistent approach to intervention in conflict situations This book will be of much interest to students of terrorism studies political violence human rights genocide and IR in general
