*Raphaels Ephemeris 2008* Edwin Raphael, 2007 **Astronomy** **Raphael's Astronomical Ephemeris of the Planets' Places, 1860** **Raphael's Astronomical Ephemeris of the Planets' Places, with Tables of Houses for London, Liverpool and New York**, 1899 **Raphael's Astronomical Ephemeris of the Planets' Places**, 1943 *The Star Factory* Ciaran Carson, 1998 One of Ireland's most celebrated writers, musicians, and poets Ciaran Carson was born in Belfast and has spent his life there. In *The Star Factory* he makes himself the cartographer of his home city's spaces, symbolic and literal, the scribe of its byways and avenues from Abbey Road to Zetland Street. Belfast has seen transformation once the fifth greatest industrial city in the world, the home of the SS Titanic, it has more recently been a battleground of sectarian slaughter. To conjure up the lives lived there, Carson plunges down the wormhole of memory, admiring along the way the strata and roots beneath the surface. Though it has experienced more than its share of urban decay, the Star Factory of the title is an abandoned mill. Carson's Belfast teems with stories, stories that can spring from a telephone directory, a cigarette case, a postcard, a book about tramways, a stamp. [Talking Images](#) Silvia Ferrara, Mattia Cartolano, Ludovica Ottaviano, 2024-09-30 This innovative collection offers a holistic portrait of the multimodal communication potential of images from the Upper Paleolithic through to today, showcasing image-based creativity throughout the centuries. The volume seeks to extend the boundaries of our understanding of what language and writing can do to show how language can be understood as part of broader codes, as well as how images and figural objects can contribute to meaning-making in communication. The book is divided into four parts, each exploring a different dimension of the interplay between representation, symbolic meaning, and perception in the study of images, drawing on case studies from around the world. The first part looks at cognitive approaches to the earliest symbol-making, while the second considers the interaction between images and writing in early scripts. The third part addresses images outside their boxes, showcasing how ancient communication devices can be reinterpreted. The final part features chapters reflecting on embodied semiotic approaches to the representation of images. This book will be of interest to scholars in semiotics, archaeology, cognitive psychology, and linguistic and cultural anthropology.
