America's Religions Peter W. Williams, 2008 A panoramic introduction to religion in America newly revised and updated *American Christianity* Stephen Cox, 2014-04-15 This wide ranging study examines the ever evolving forms of Christianity in the US and why this constant reinvention is a vital part of American faith Christianity takes an astonishing variety of forms in America from traditional chapels to modern megachurches from evangelical fellowships to social action groups and from Pentecostal faith to apocalyptic movements Stephen Cox argues that radical and unpredictable change is one of the few dependable features of Christianity in America It is in a necessary and ongoing state of revolution and has been throughout our history Cox explores how both Catholic and Protestant churches have evolved in ways that would make them seem alien to their past adherents He traces the rise of uniquely American movements from the Mormons to the Seventh day Adventists and Jehovah s Witnesses and brings to life the vivid personalities Aimee Semple McPherson Billy Sunday and many others who have taken the gospel to the masses Cox also sheds new light on such issues as American Christians constantly changing political involvements their controversial revisions in the style and substance of worship and their chronic expectation that God is about to intervene conclusively in human life Asserting that a church that doesn t promise new beginnings can never prosper in America Cox demonstrates that American Christianity must be seen not as a sociological phenomenon but as the ever changing story of individual seekers

Religions in Asian America Pyong Gap Min, Jung Ha Kim, 2001-12-18 The flux of Asian immigration over the last 35 years has deeply altered the United States religious landscape But neither social scientists

nor religious scholars have fully appreciated the impact of these growing communities And Asian immigrant religious communities are significant to the study of American religion not only because there are more than ten million Asian Americans Asian American religions differ substantially from models drawn from European religions pushing for new wider understandings Religions in Asian America provides a comprehensive overview of the religious practices of Chinese Filipino Indian Korean Japanese Vietnamese Cambodian and Laotian Americans How these new communities work through issues of gender race transnationalism income disparities and social service and the passing along an ethnic identity to the next generation make up the common themes that reach across essays about the varying communities The first sociological overview of Asian American religions Religions in Asian America is necessary reading for those interested in Asians ethnicity immigration or religion in the United States **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1967 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June **American Evangelicals and Religious Diversity** Kevin M. Taylor,2006-05-01 American Evangelicals and Religious Diversity is a qualitative study of how religion and education intersect at one conservative Christian school The school is Evangelical and American The school s curriculum is bible based and fulfills its state s educational requirements for high school graduation While the school has an environment that is Evangelical the students live in a religiously diverse world This book documents how three students and their teacher struggle to understand a world that challenges their faith The context for this understanding is how the teacher presents and the three students come to understand Catholicism Islam and the indigenous religions of the Americas Americans continue to debate whether religious schools are too parochial and do not prepare students to live a diverse society **Religion among People** Kees W. Bolle,2017-10-23 At the deepest level religious traditions determine what goes on between one human being and another between one community and another and between human beings and whoever holds power over them Kees Bolle s original passionate scholarship veered away from things handed down and standard in our thought about religions In this his final book he explores how religious paradigms have given rise to particular structures of power and how religious myths compel particular human actions the possibility of interpretation the necessity for recognizing religious forms where they appear the relationship of secularization and sacredness And at every turn Bolle examines the notion that Western intellectuals are nonreligious He confronts the responsibility mere scholarship bears for events sometimes terrible events in the real world We move from David and Nathan to Antigone from Brahmanism and Buddhism to the familial struggle between Christianity and Islam The book concludes with Bolle s striking reflections on how modern man has become inherently religious in concurrence with modern manifestations of power Bolle is a fascinating figure He loved the immediacy of lessons found in Hasidic stories and his own thought may be said to approach the wholeness the immediacy of religion *American Studies* Jack Salzman,American Studies Association,1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American

Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00
