Southeast Asian Personalities of Chinese Descent Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians Most of the people whose biographies are included here have settled down in the ten countries that constitute the region Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process Confucius had stressed that correct names make for the best relationships In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the

Jin Yong's Martial Arts Fiction and the Kungfu Industrial Complex Paul B. Foster, 2023-02-13 Jin Yong's Martial Arts Fiction and the Kungfu Industrial Complex is an analysis of the role of Jin Yong's stories and characters in the construction of the kungfu industrial complex a complicated multi dimensional cultural business matrix related to the production and consumption of martial arts fiction film and legacy The author first explicates the kungfu cultural literacy that makes Jin Yong's characters and stories intelligible and compelling to a wide audience and then argues that academic resistance to integrating his pop fiction into the canon of Chinese literature is overcome via the national character discourse The author subsequently explores the role of actors directors and crews as they repeatedly adapted the novels for film and television and provided afterlives for Jin Yong's characters stories and tropes both kicking off actors careers and driving the globalization of kungfu action Archetypical characters multidimensional production and consumption of cultural capital and star power meet in a final analysis of the Kung Fu Hustle Hustle which balances critical reality and a hopeful vision for China's future

Identity Politics and Popular Culture in Taiwan Hsin-I Sydney Yueh, 2016-12-07 In the past two decades a uniform representation of cutified femininity prevails in the Taiwanese media evidenced by the shift of Taiwan's popular cultural taste from a Chinese centered tradition to a mixed absorption from neighboring cultural capitals in the global market This book argues that the native term *sajiao* is the key to understand the phenomenon Originally referring to a set of persuasive tactics through imitating a spoiled child's gestures and ways of speaking to get attention or material goods *sajiao* is commonly understood to be women's weapon to manipulate men in the Mandarin speaking communities By re interpreting *sajiao* as a feminine tactic or the tactic of the weak the book aims to propose a feminine framework in exploring identity politics in the following three aspects the rising obsession with the immature female image in Taiwan's popular culture the adoption of the feminine communication style in native speakers

everyday language and interactions and the competing discourses between dominant subordinate central peripheral global local and Chinese Taiwanese in shaping the identity politics in current Taiwanese society The micro analysis of everyday language politics leads the reader to examine layers of discourse about gender identity and communication and finally to inquire how to situate or categorize Taiwan in area studies The feminine framework is a useful theoretical tool that not only deconstructs everyday communication practice but also provides a bottom up alternative angle in analyzing Taiwan s role in political economic and cultural flows in East Asia The massive imports of popular cultural products in the late 80s mainly from Japan fermented the kawaii Japanese cute type of femininity in regulating everyday communication and the perception of gender roles in Taiwan The popularity of the baby like female image is concurrent with the simmering debate on Taiwanese identity Taiwan offers a unique perspective for observing identity politics because it still holds an undetermined status in the international community The collective uncertainty about the island s future and the diminishing voice in the international society become the backdrop for the growth of defining interpreting and appropriating sajjiao elements in the popular culture This book offers an in depth examination of the interplay among local historical contexts cross border capitalist exchange and everyday communication that shapes the dialogism of Taiwanese identity     POLA ,2005
