Meredith Martin presents a historical account of prosodic criticism and through the example of her own research path argues for new scholarly practices in literary studies and the humanities more broadly Challenging the common scholarly practice of emphasizing one critical narrative one pathway through history or one author's reading the book traces three arcs the effects of the major shift in the late twentieth century from print based to digital resources in scholarship with the emergence of the World Wide Web Martin's experience as a scholar who coordinated a digital project about the history of the study of poetry which led to the creation of the Princeton Prosody Archive and the founding of Princeton's Center for Digital Humanities CDH and the mix of computational and aesthetic elements in the study of prosody including the study of versification and meter in the broader context of English literary study as a discipline Across these three arcs Martin argues that scholars must take seriously the idea of digital media as mediation through which textual forms are transformed into data and delivered to us via data structures and that our reading of historical texts in digital forms must reckon with these mediations She also demonstrates the connection between the intellectual labor of studying prosody or any historical object and the intellectual labor of fostering a collaborative research process This is a book she writes about the shifting grounds of knowledge production in the digital age and how we might situate ourselves amid these shifts by returning to of all things World Literature in Spanish Maureen Ihrie, Salvador Oropesa, 2011-10-20 Containing roughly 850 entries about Spanish language literature throughout the world this expansive work provides coverage of the varied countries ethnicities time periods literary movements and genres of these writings Providing a thorough introduction to Spanish language literature worldwide and across time is a tall order However World Literature in Spanish An Encyclopedia contains roughly 850 entries on both major and minor authors themes genres and topics of Spanish literature from the Middle Ages to the present day affording an amazingly comprehensive reference collection in a single work This encyclopedia describes the growing diversity within national borders the increasing interdependence among nations and the myriad impacts of Spanish literature across the globe All countries that produce literature in Spanish in Europe Africa the Americas and Asia are represented covering both canonical authors and emerging contemporary writers and trends Underrepresented writings such as texts by women writers queer and Afro Hispanic texts children's literature and works on relevant but less studied topics such as sports and nationalism also appear While writings throughout the centuries are covered those of the 20th and 21st centuries receive special consideration The Oxford Companion to Modern Poetry in English Jeremy Noel-Tod, Ian Hamilton, 2013-05-23 This impressive volume provides over 1 700 biographical entries on poets writing in English from 1910 to the present day including T S Eliot Dylan Thomas and Carol Ann Duffy Authoritative and accessible it is a must have for students of English and creative writing as well as for anyone with an interest in poetry The City of *Poetry* David Lummus, 2020-12-17 Shows how medieval Italian poets viewed their authorship of poetry as a function of their engagement in a human community **Returning to Irigaray** Maria Cimitile ,Elaine P.
